Absolute errors for each class
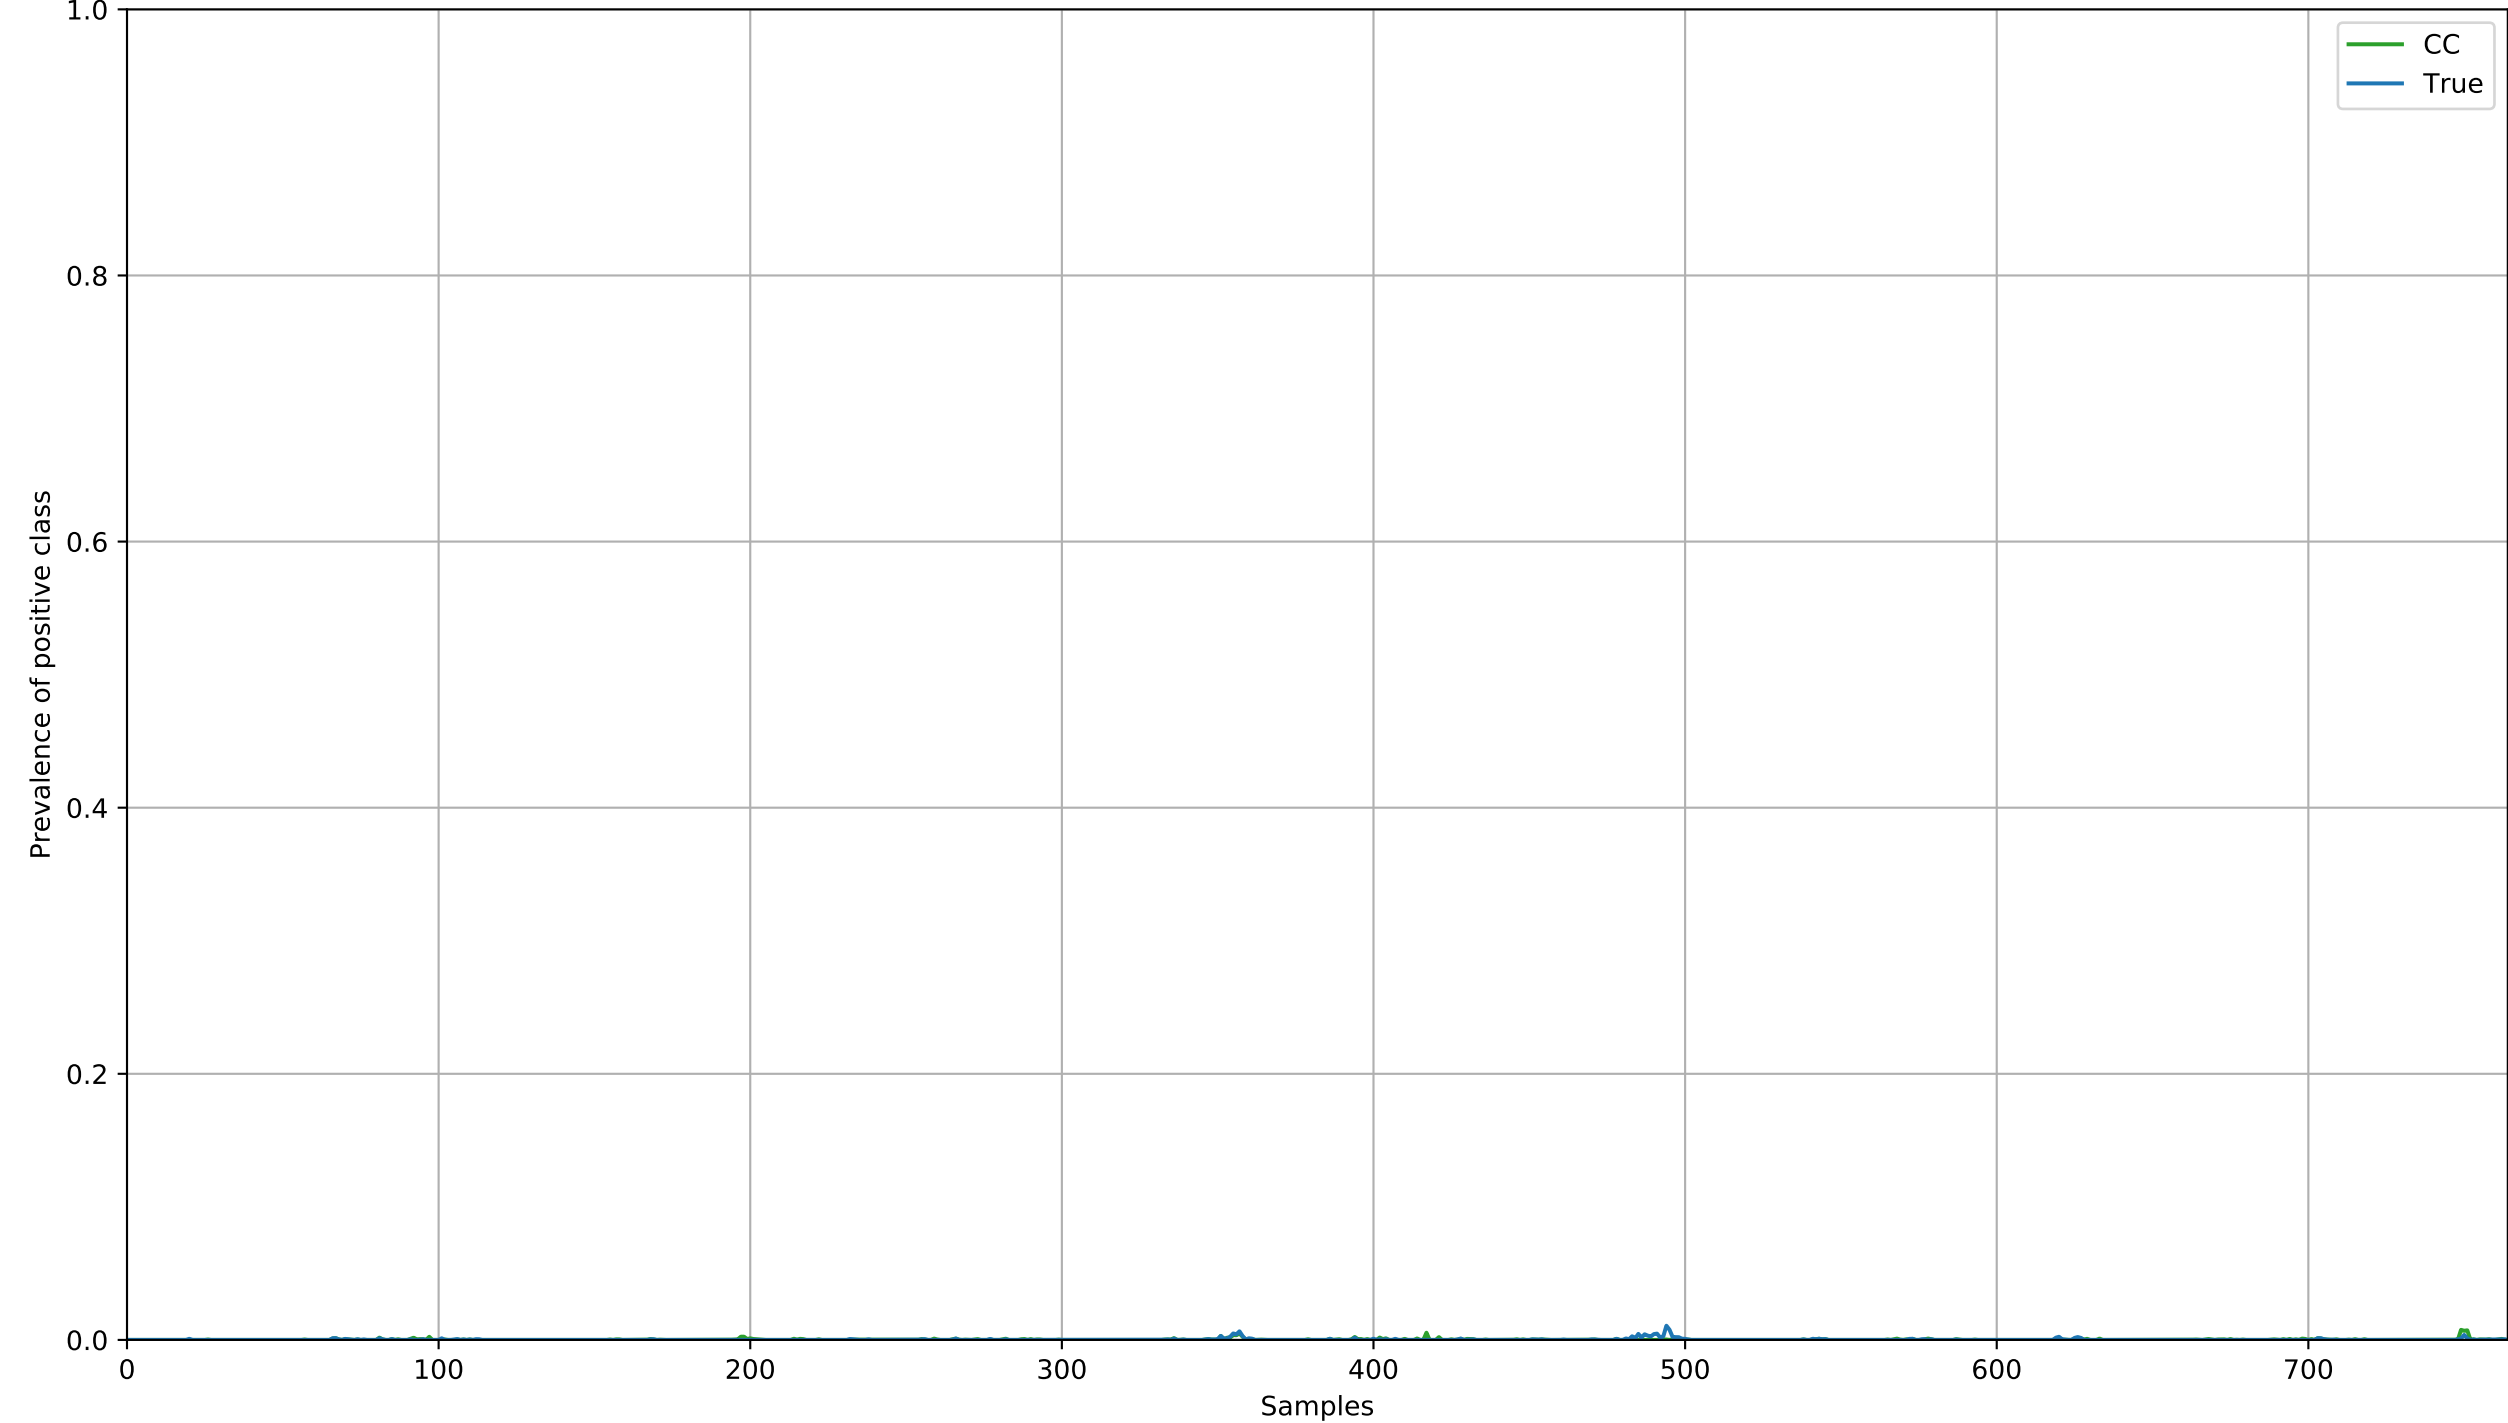

Absolute errors for each class without Stephanopyxis

Relative absolute errors for each class
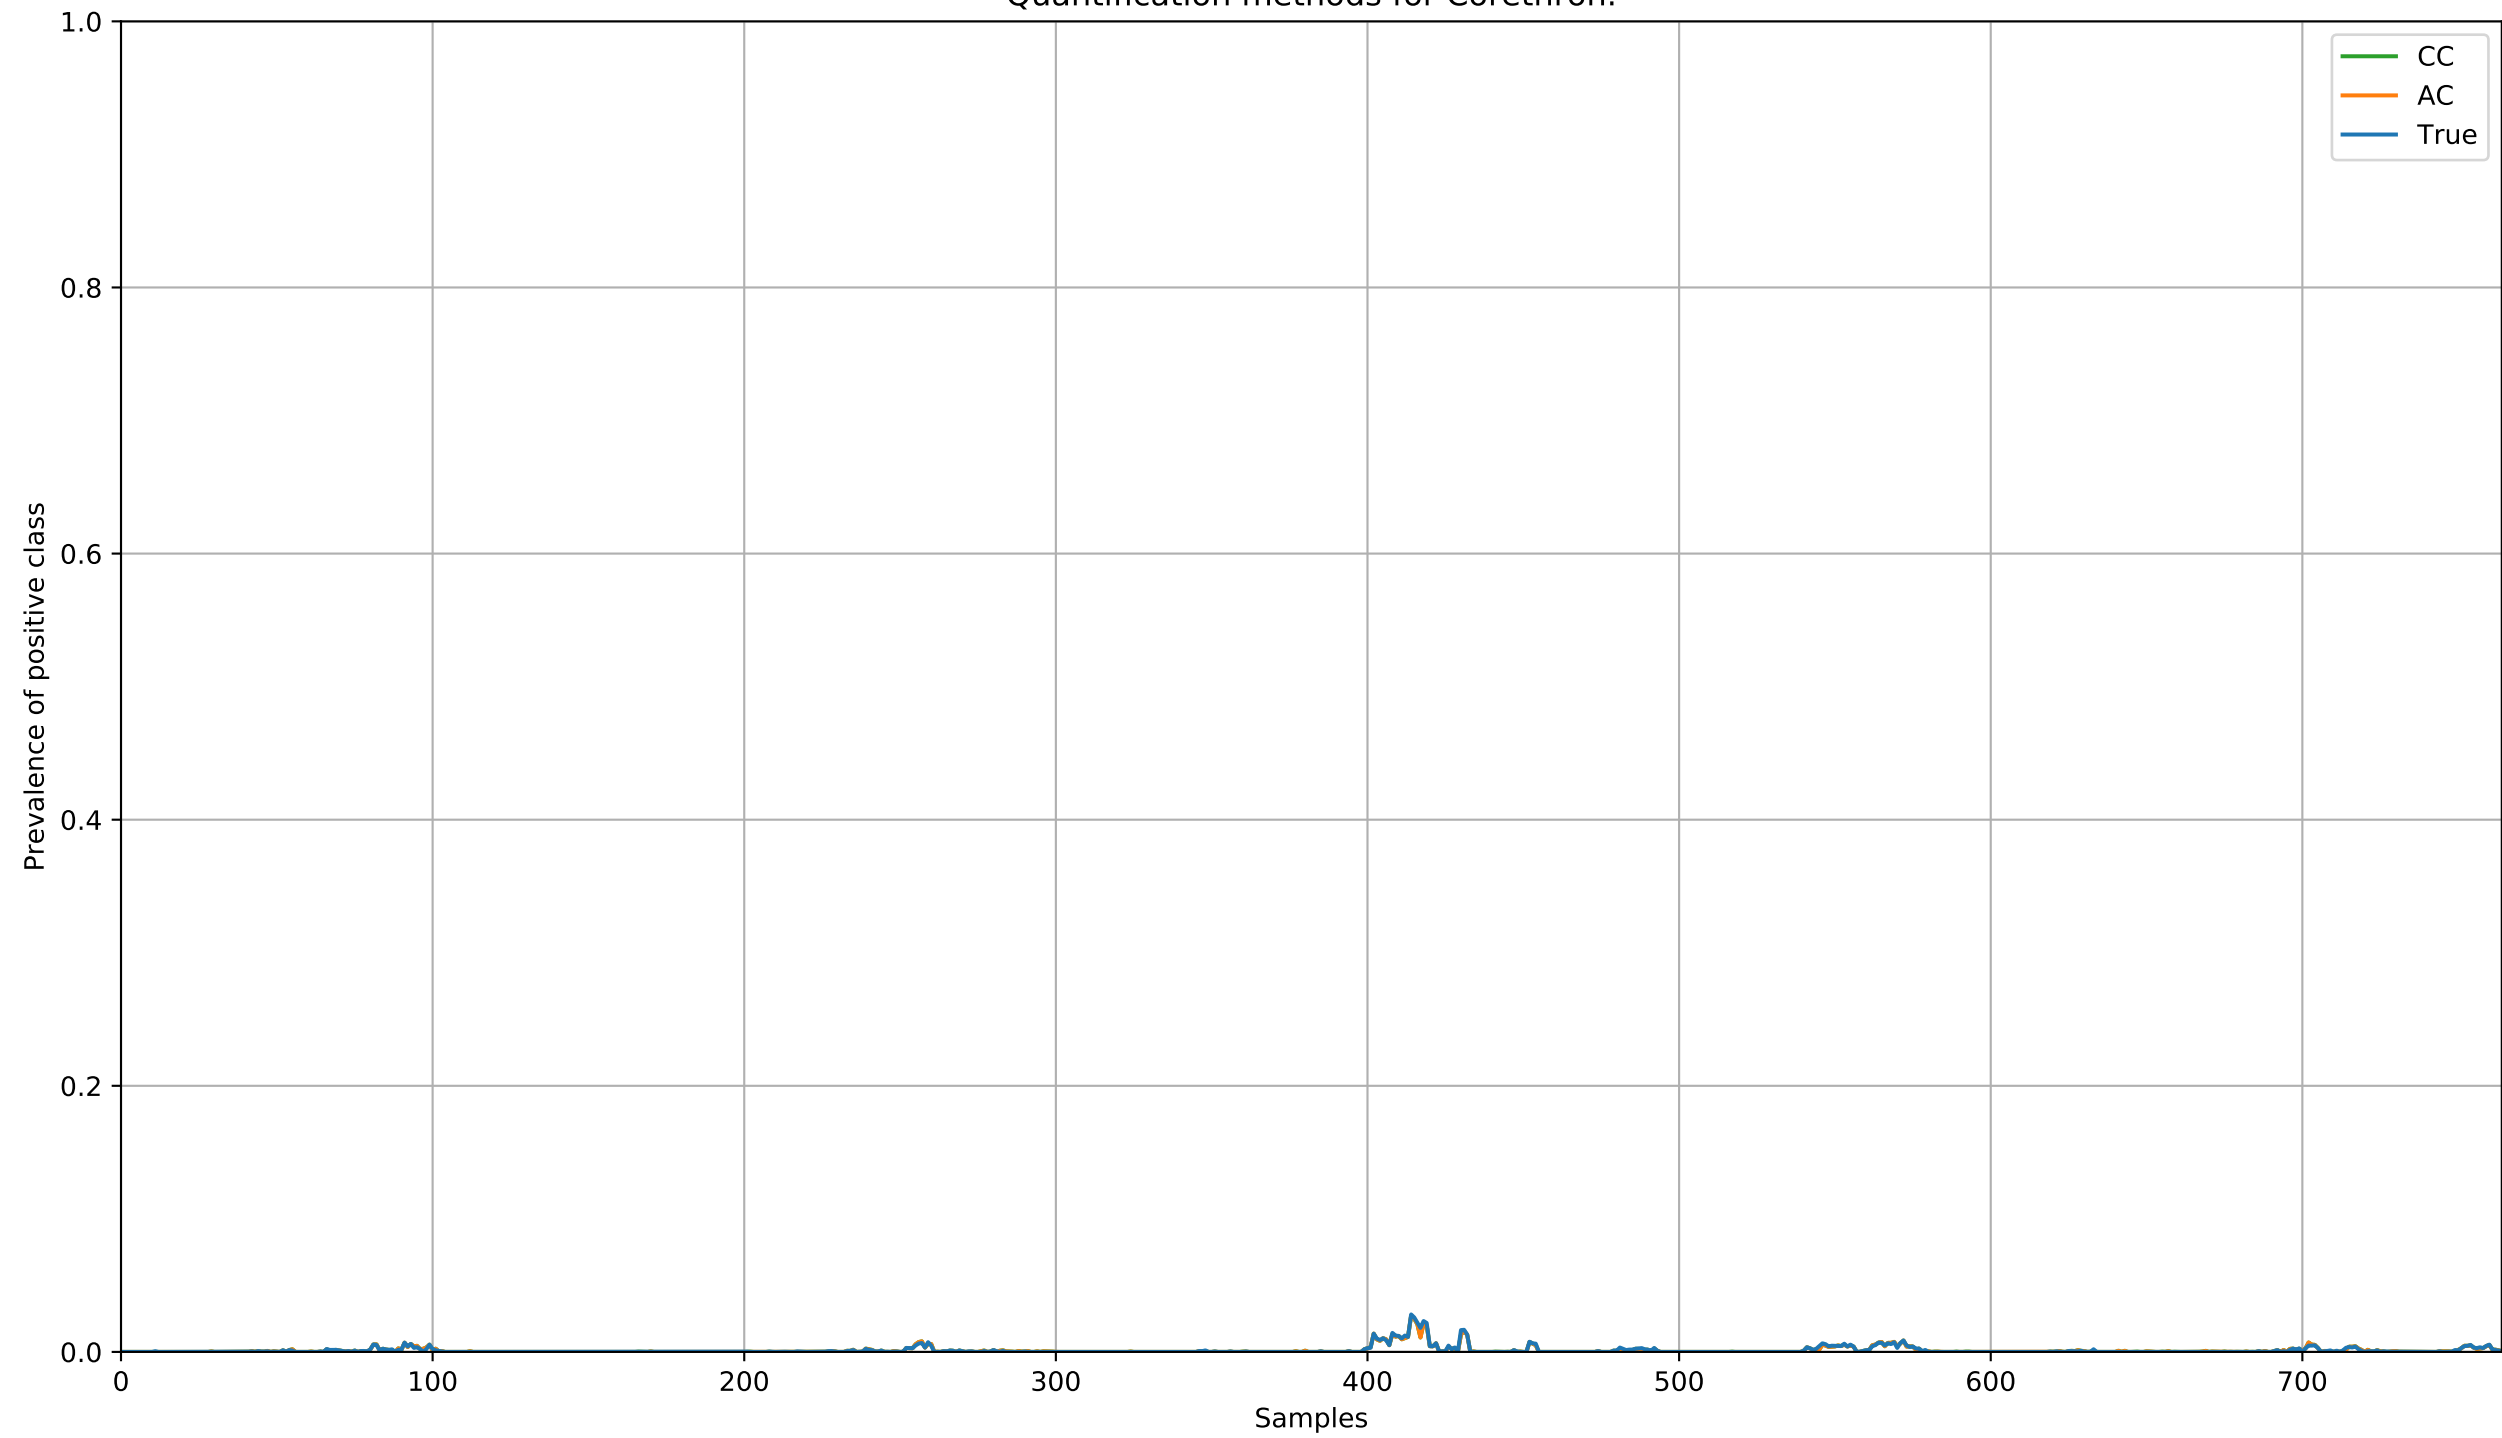

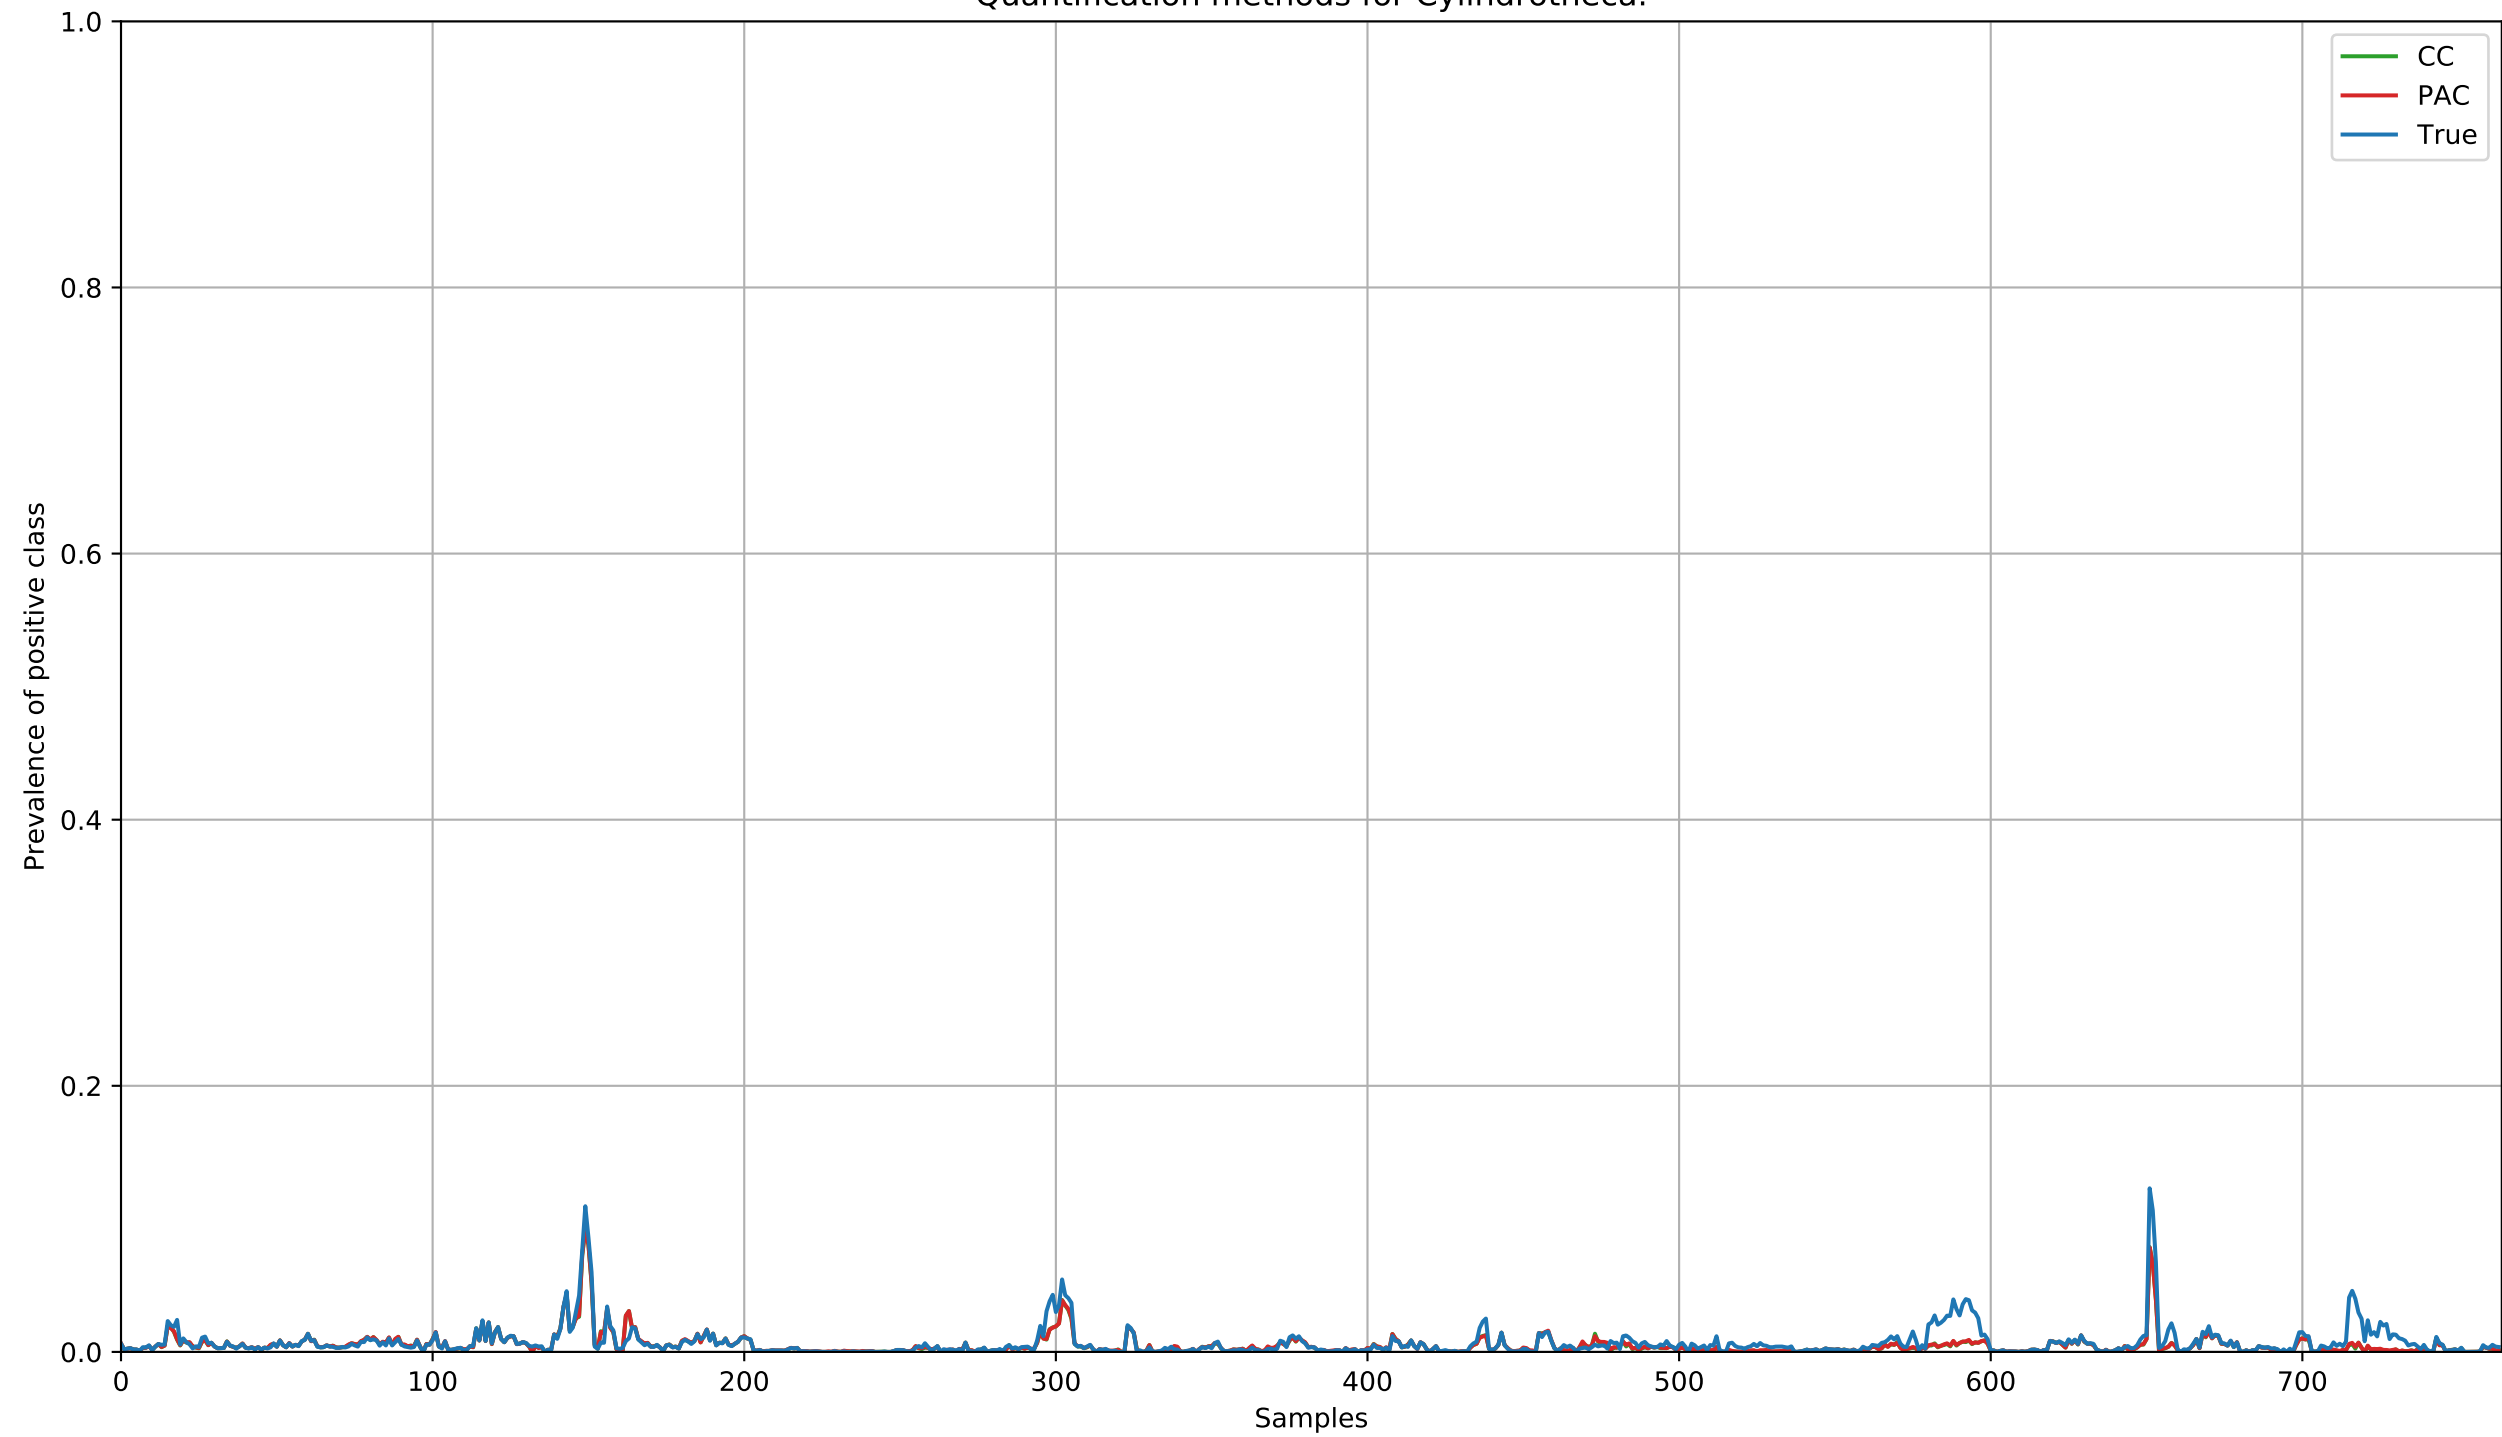

Relative absolute errors for each class
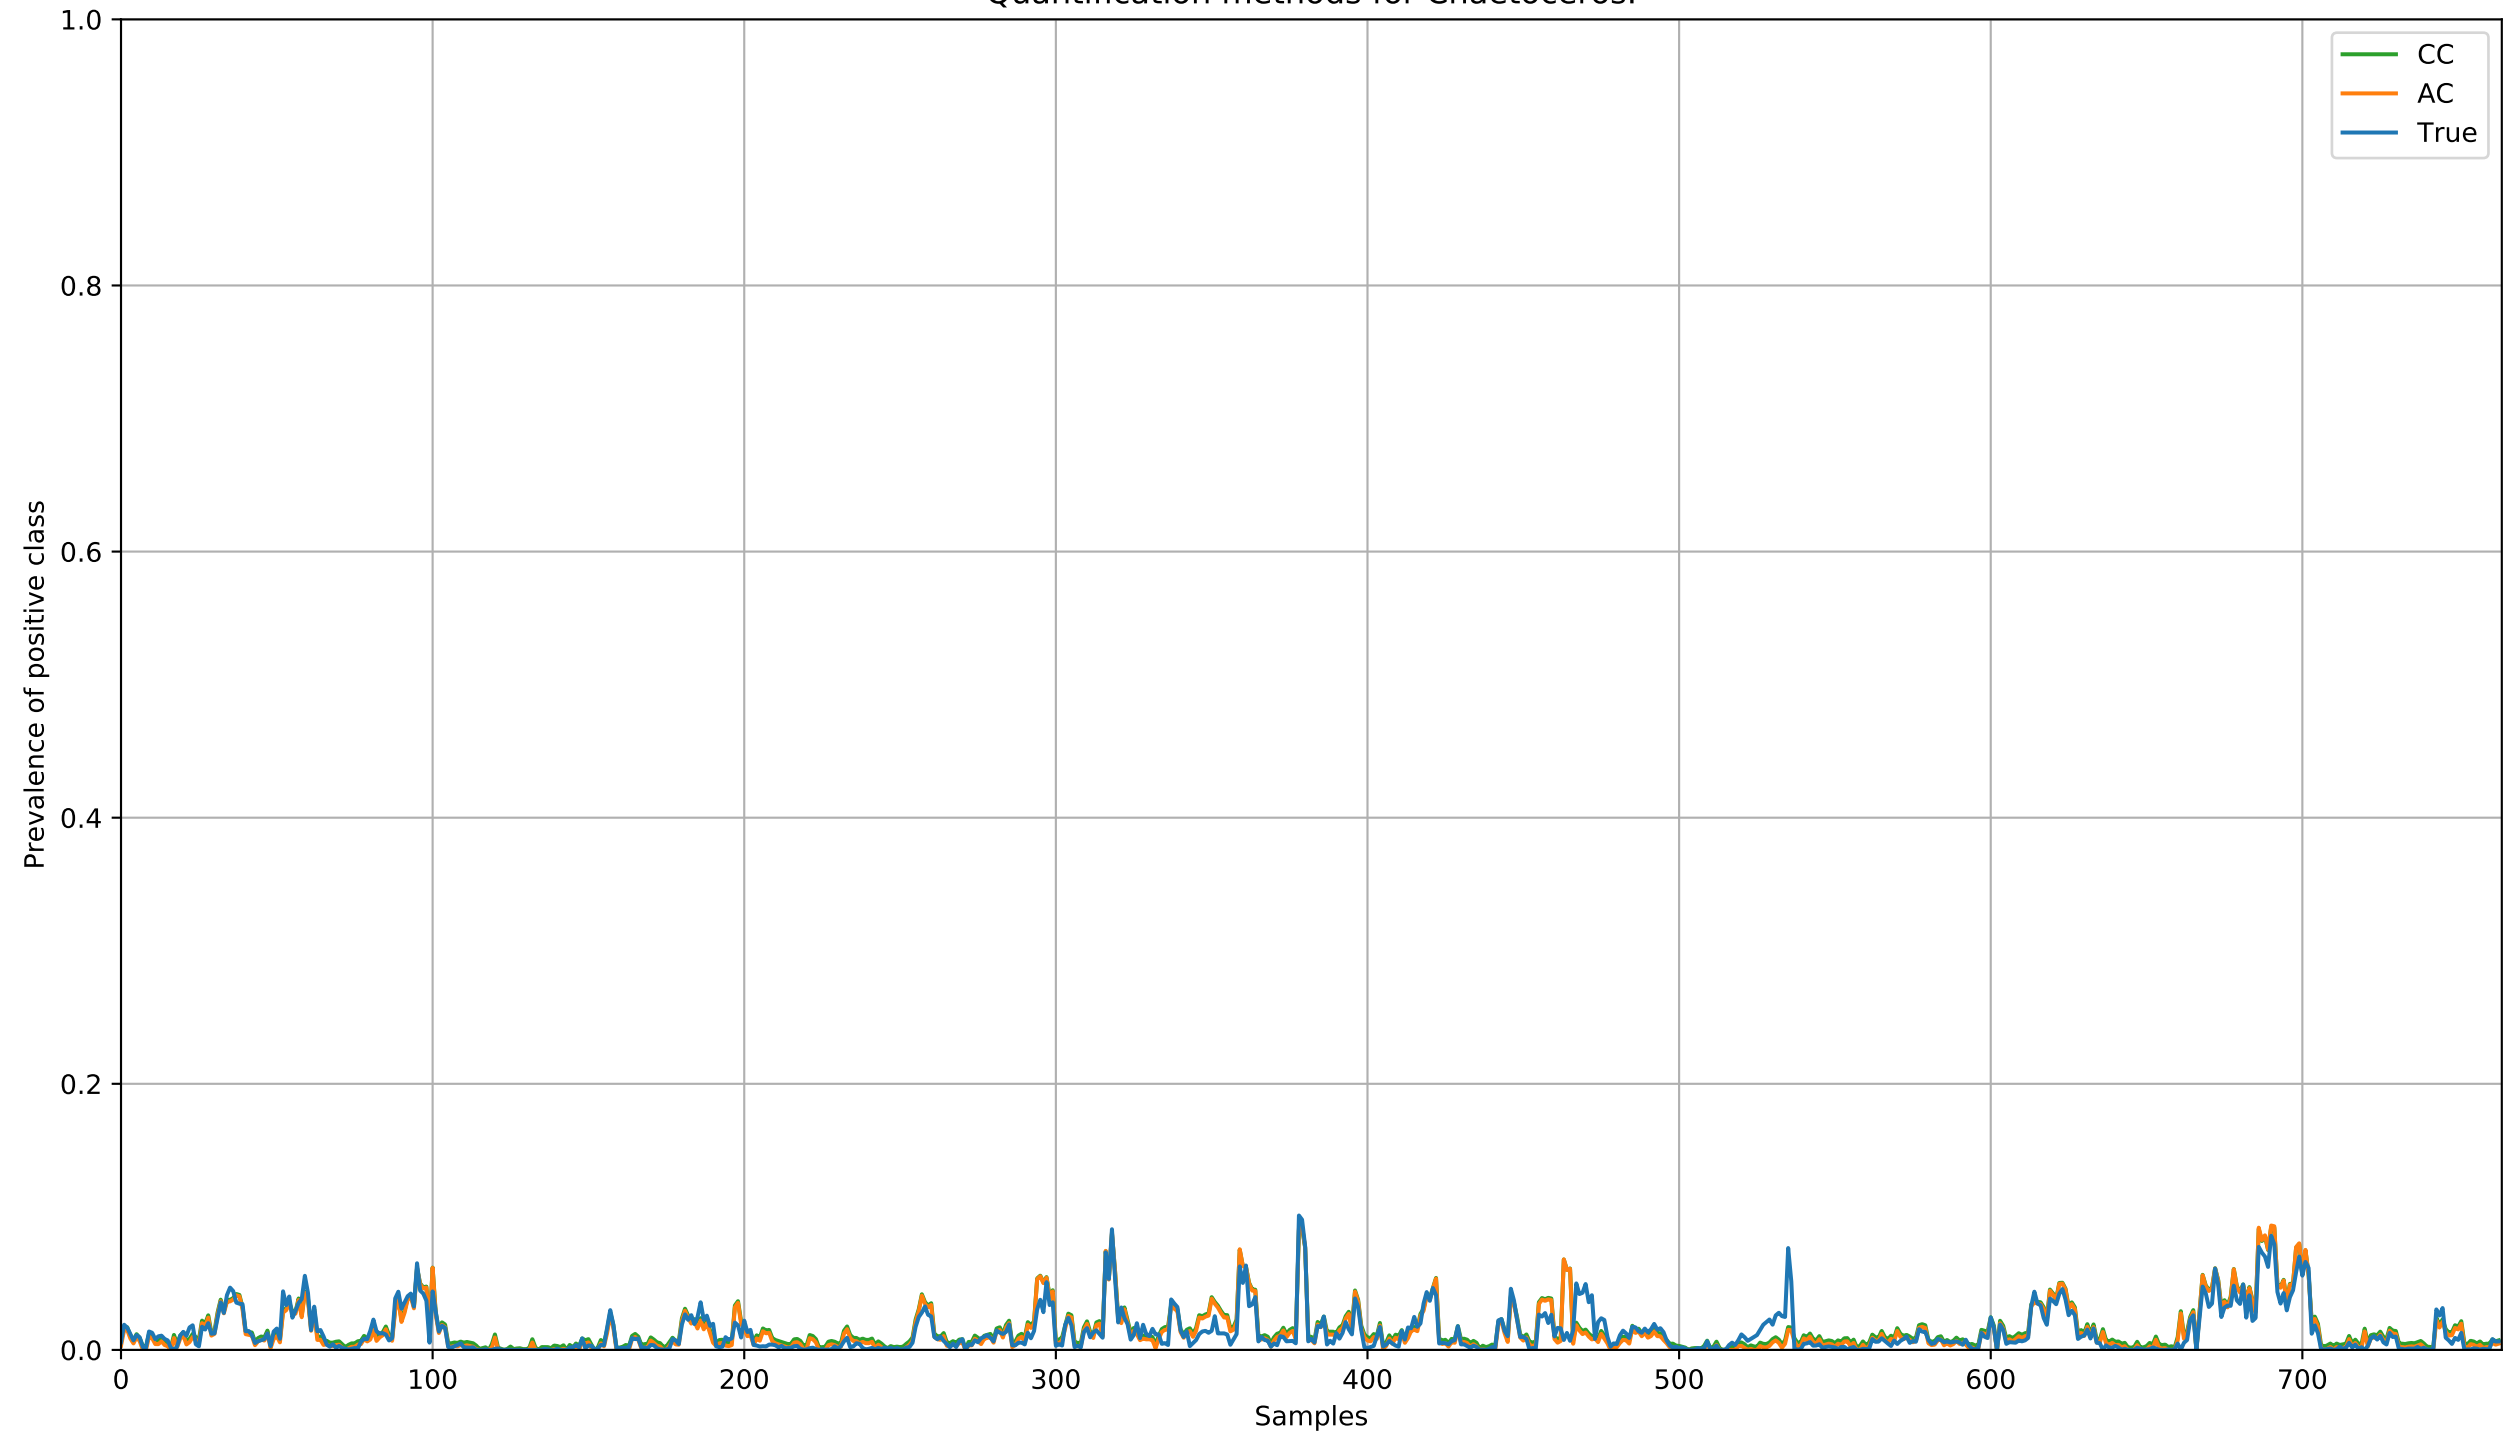

Quantification methods for Eucampia.
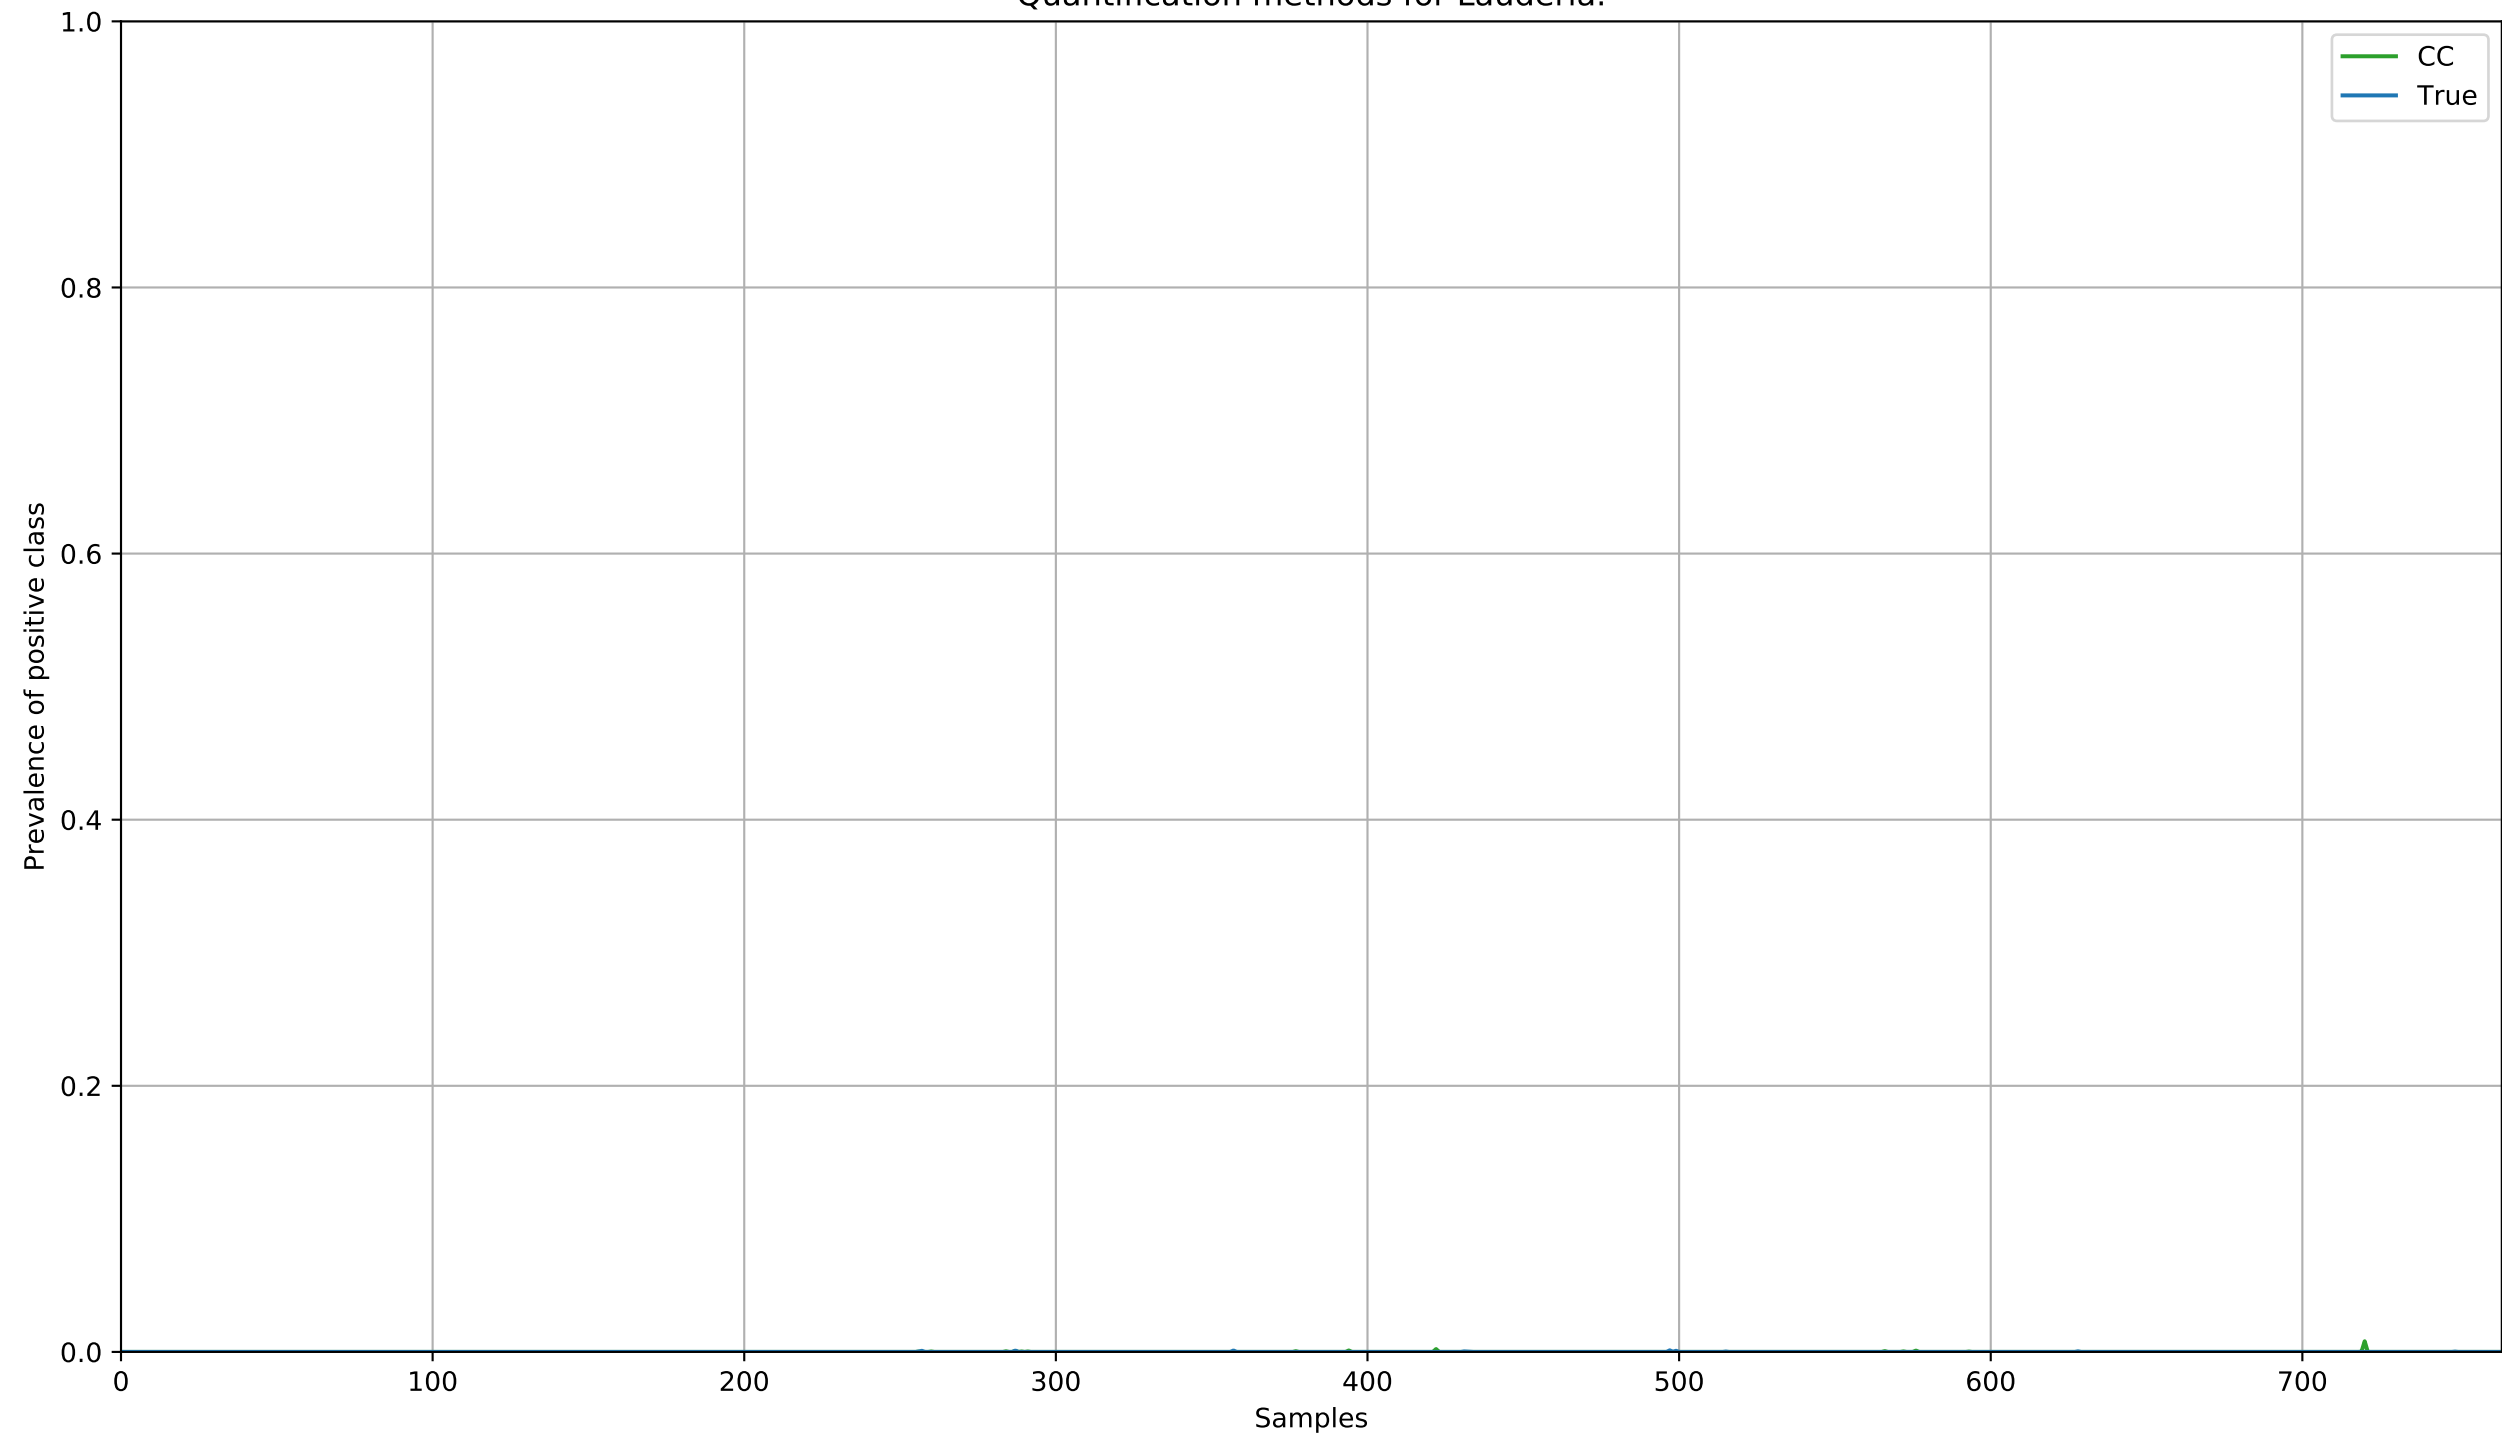

Quantification methods for Corethron.
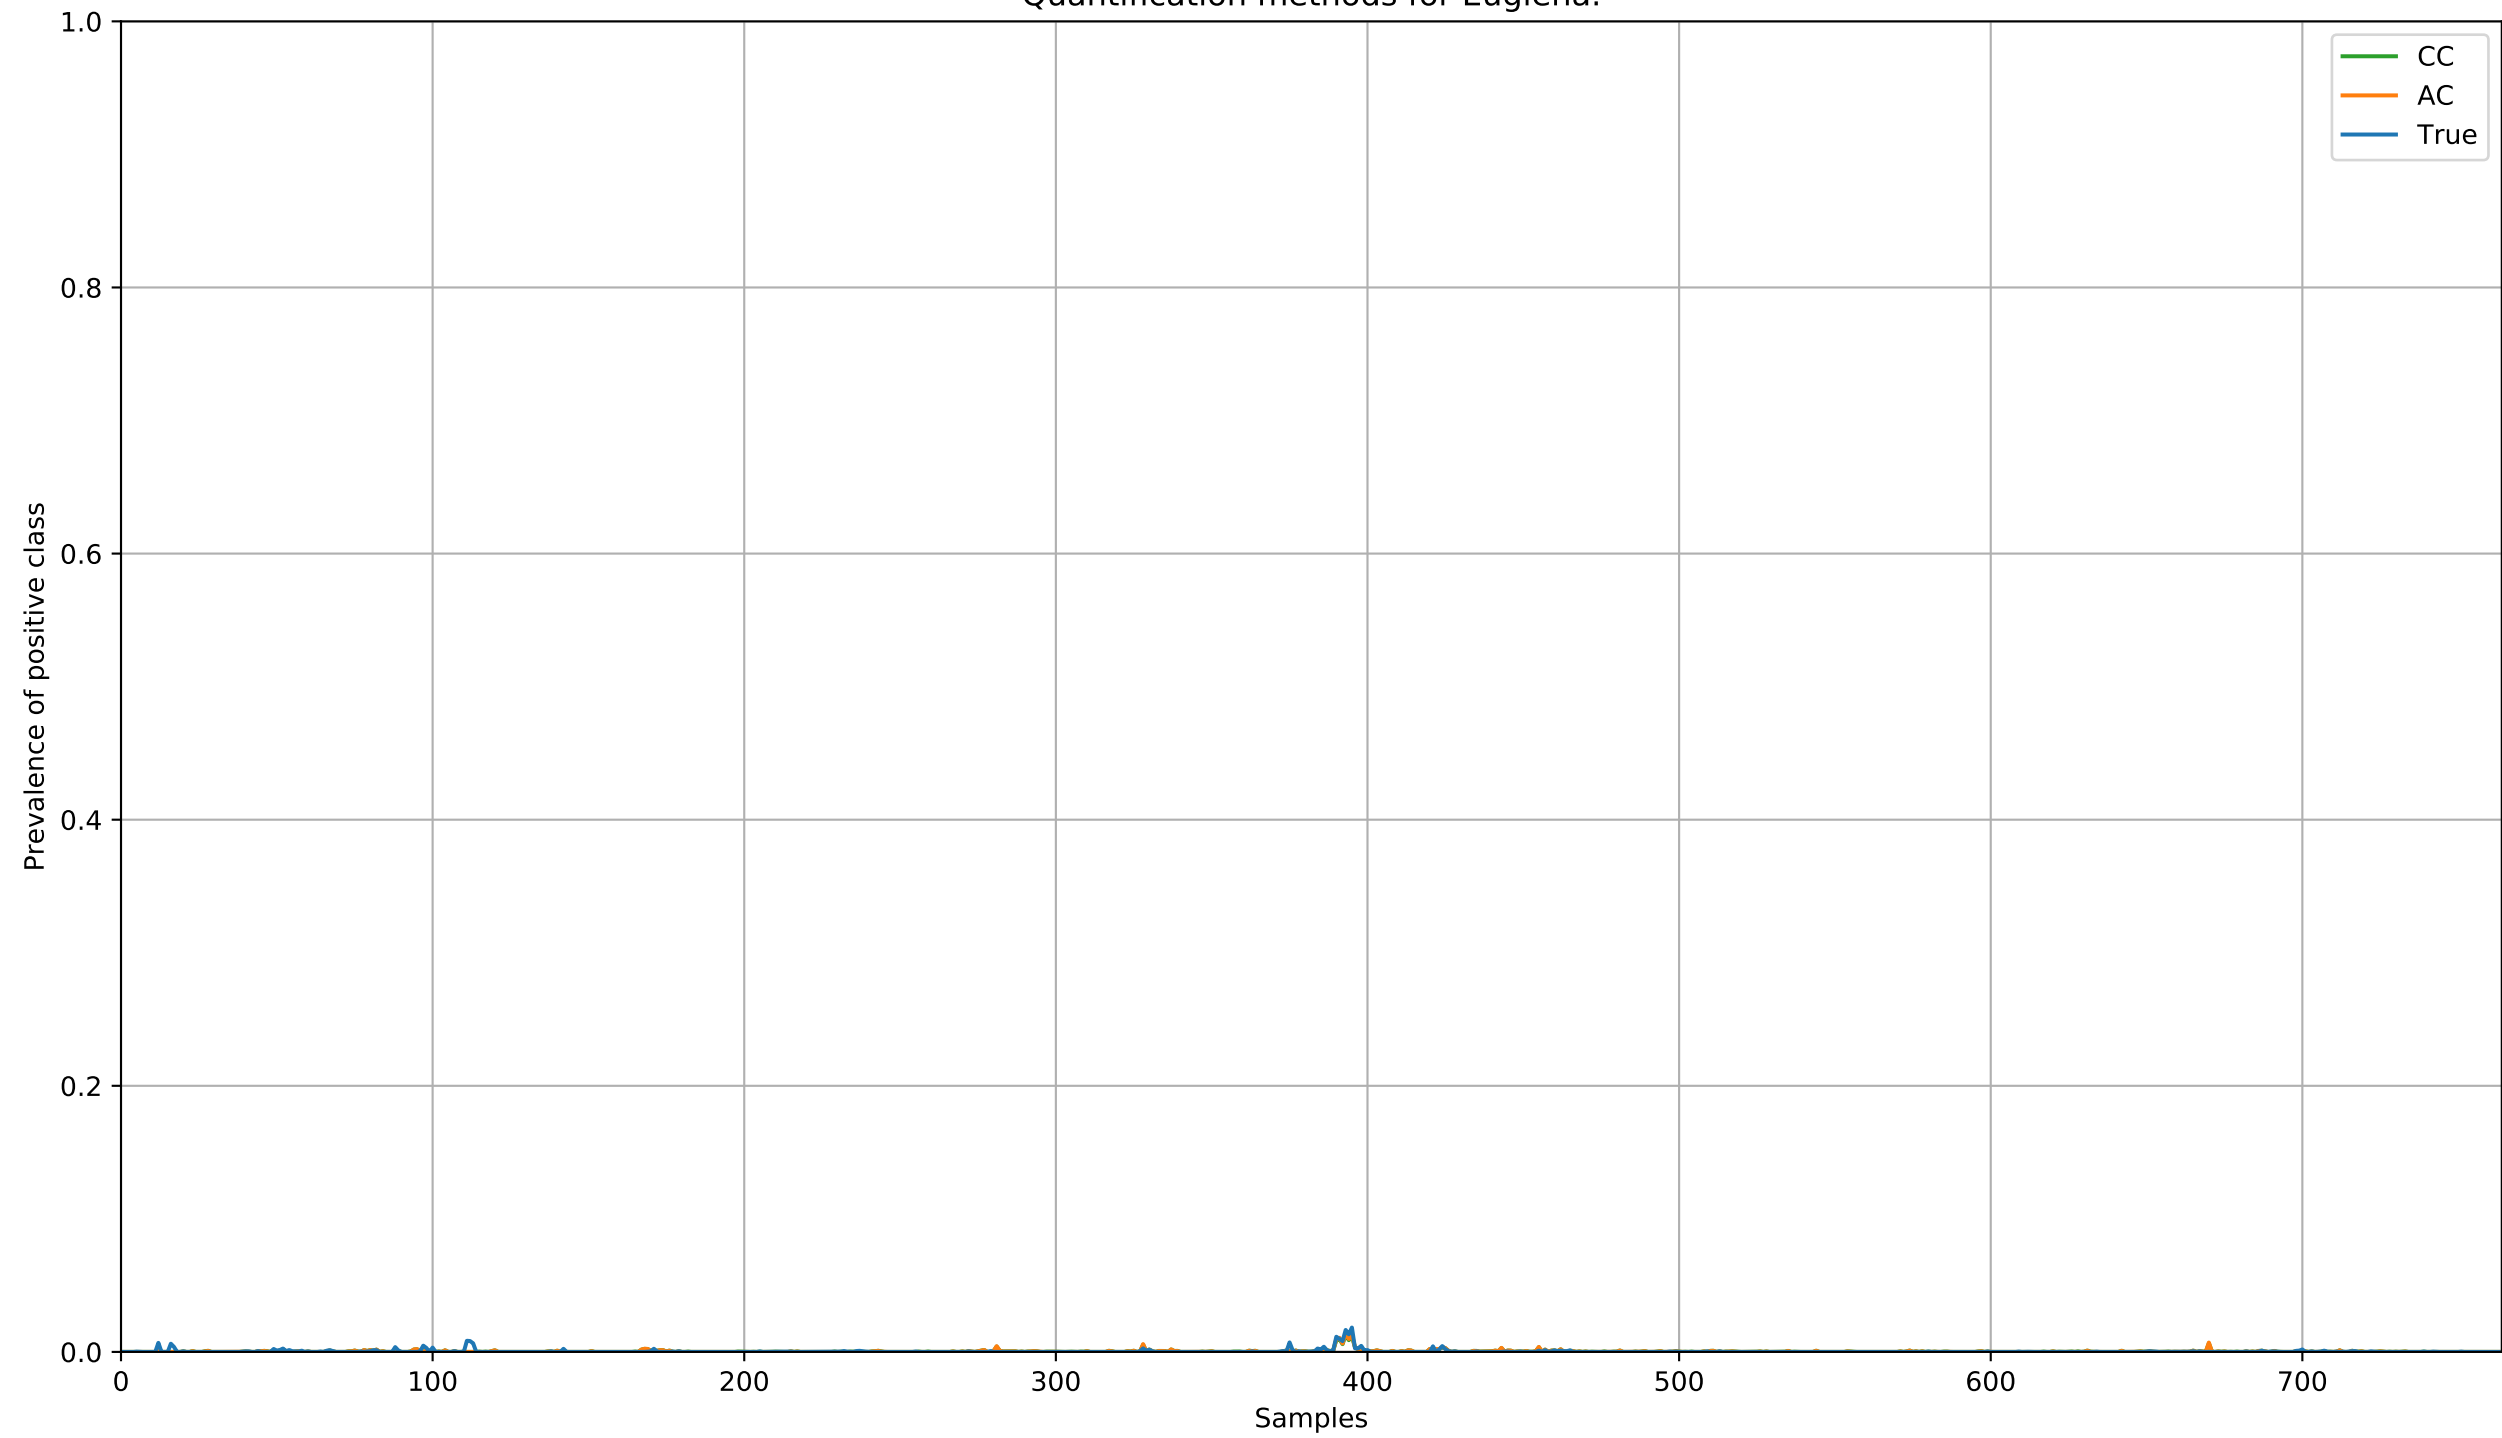

Quantification methods for Cylindrotheca.

Quantification methods for Chaetoceros.

Quantification methods for Lauderia.

Quantification methods for Euglena.

Quantification methods for Leptocylindrus.
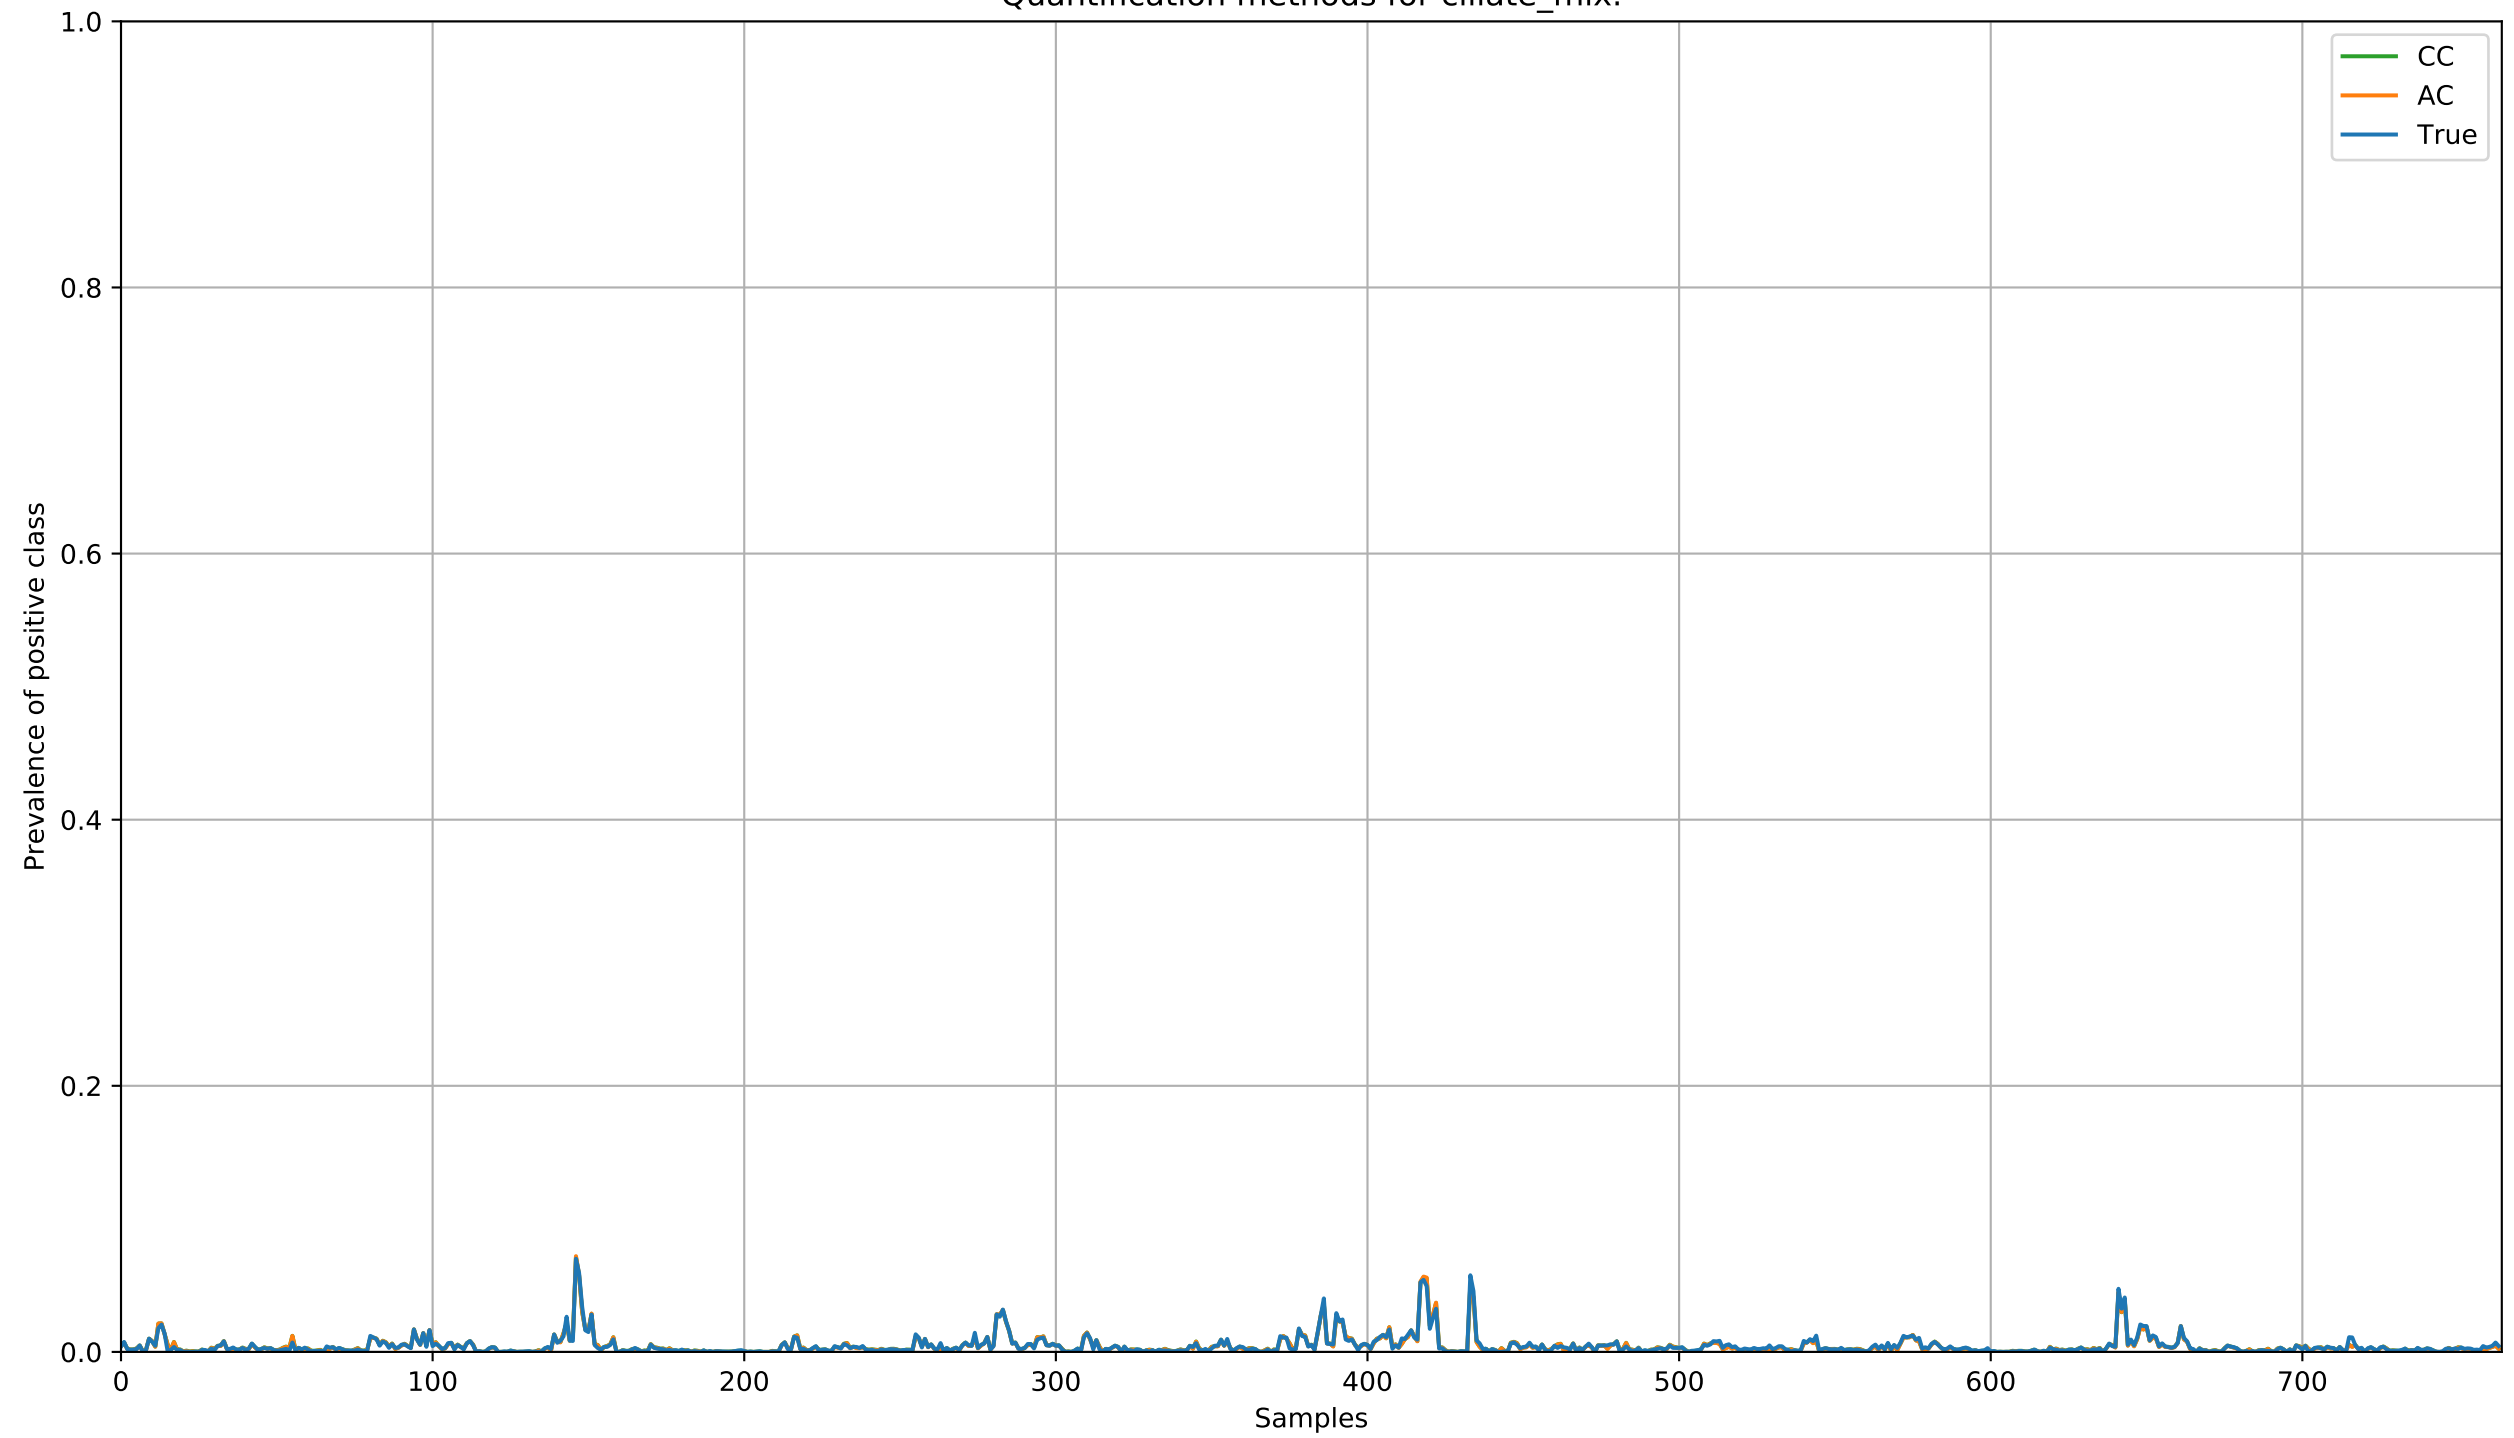

Quantification methods for Pleurosigma.

Quantification methods for Pyramimonas.

Quantification methods for ciliate_mix.

Quantification methods for tintinnid.

Quantification methods for Dictyocha.

Quantification methods for Stephanopyxis.

Quantification methods for Prorocentrum.
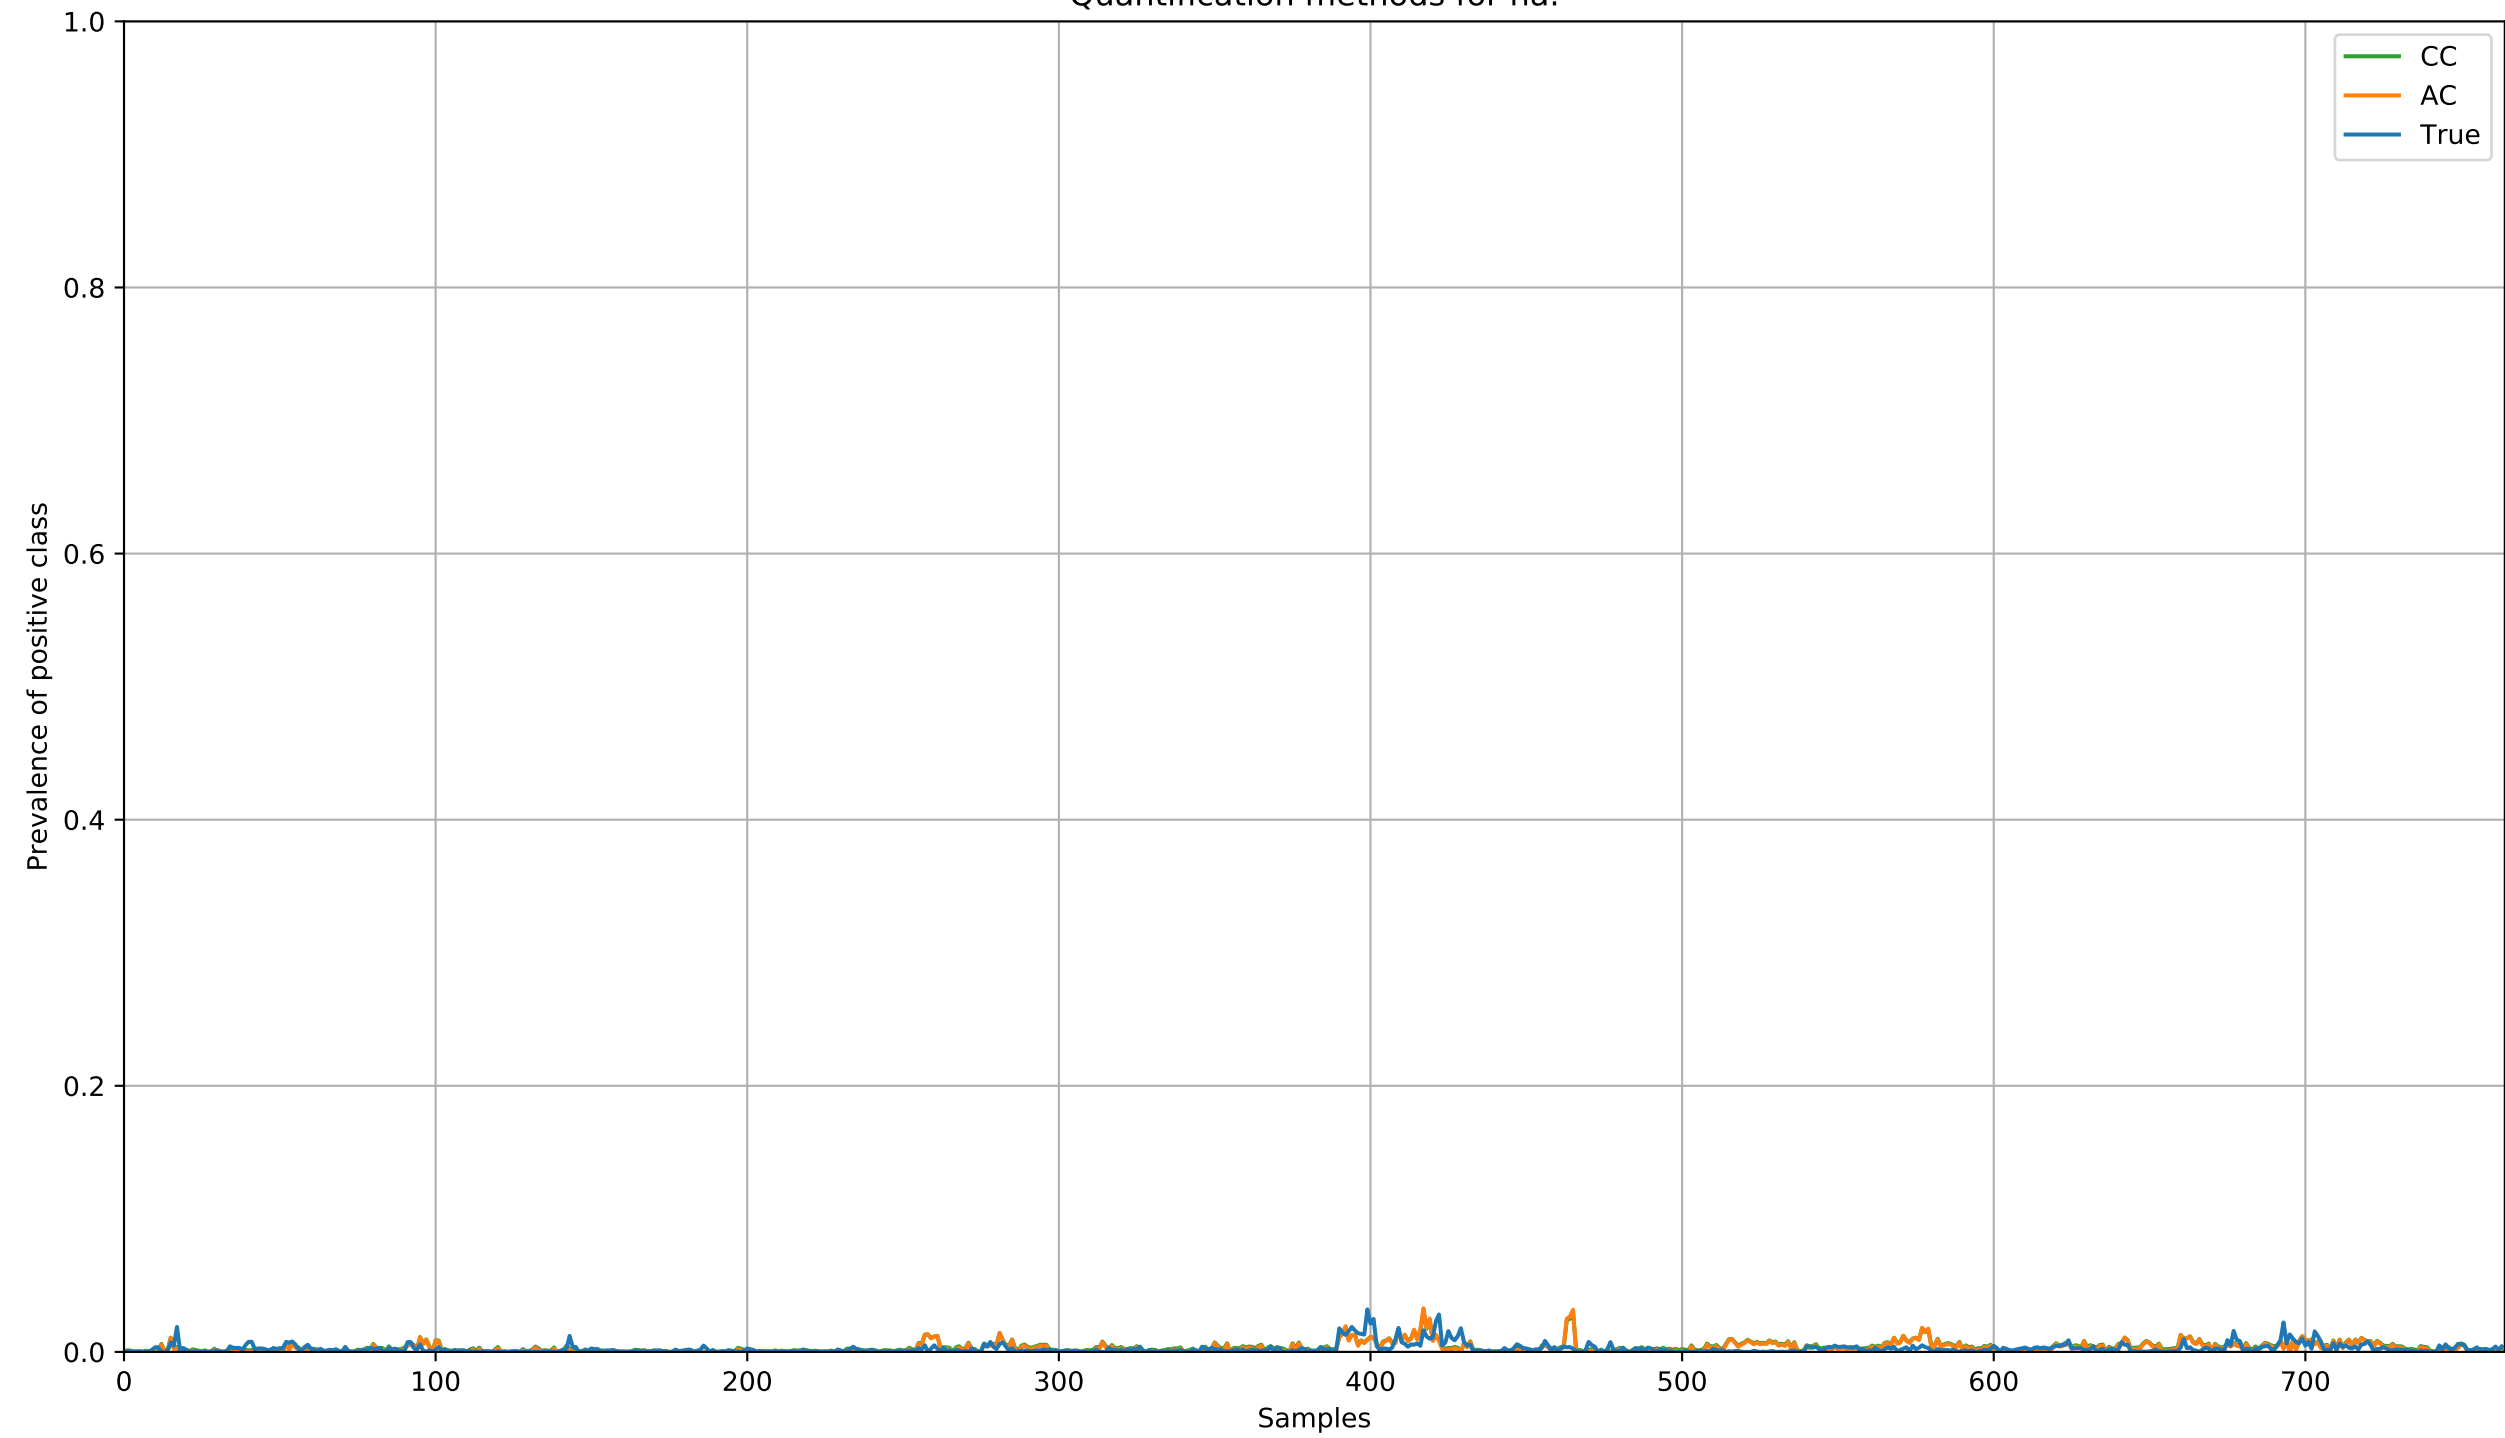

Quantification methods for Odontella.
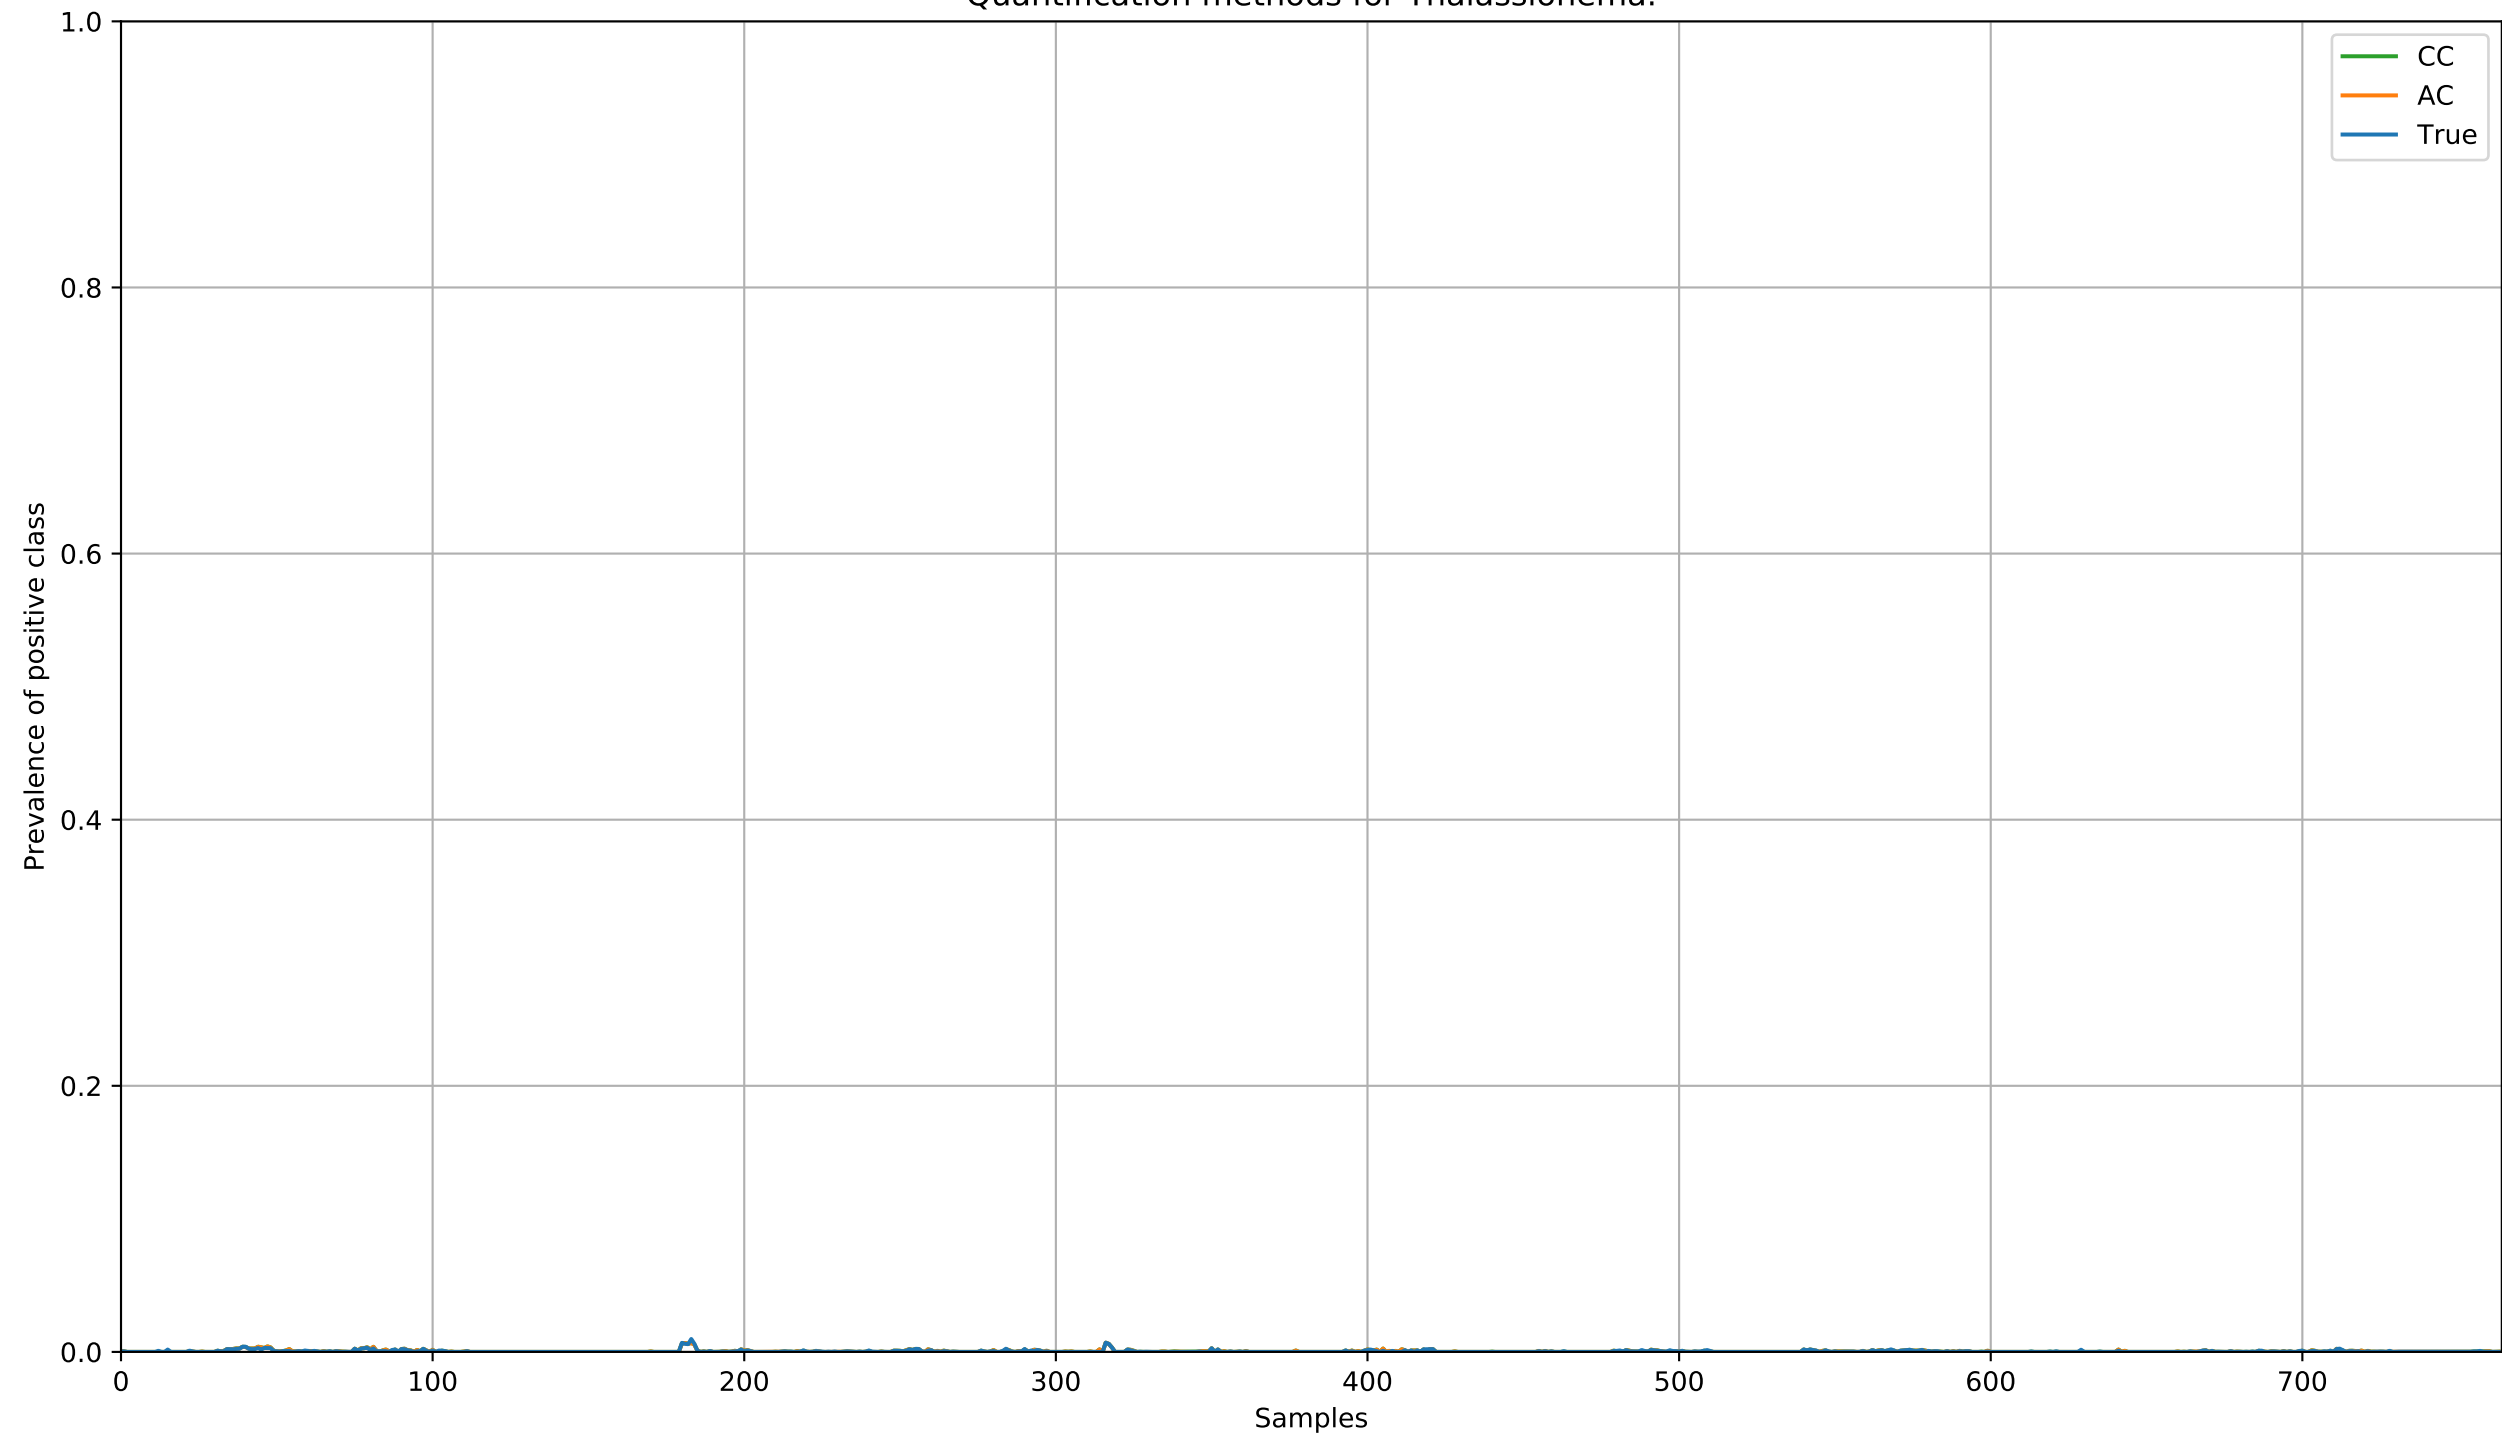

Quantification methods for Pseudonitzschia.
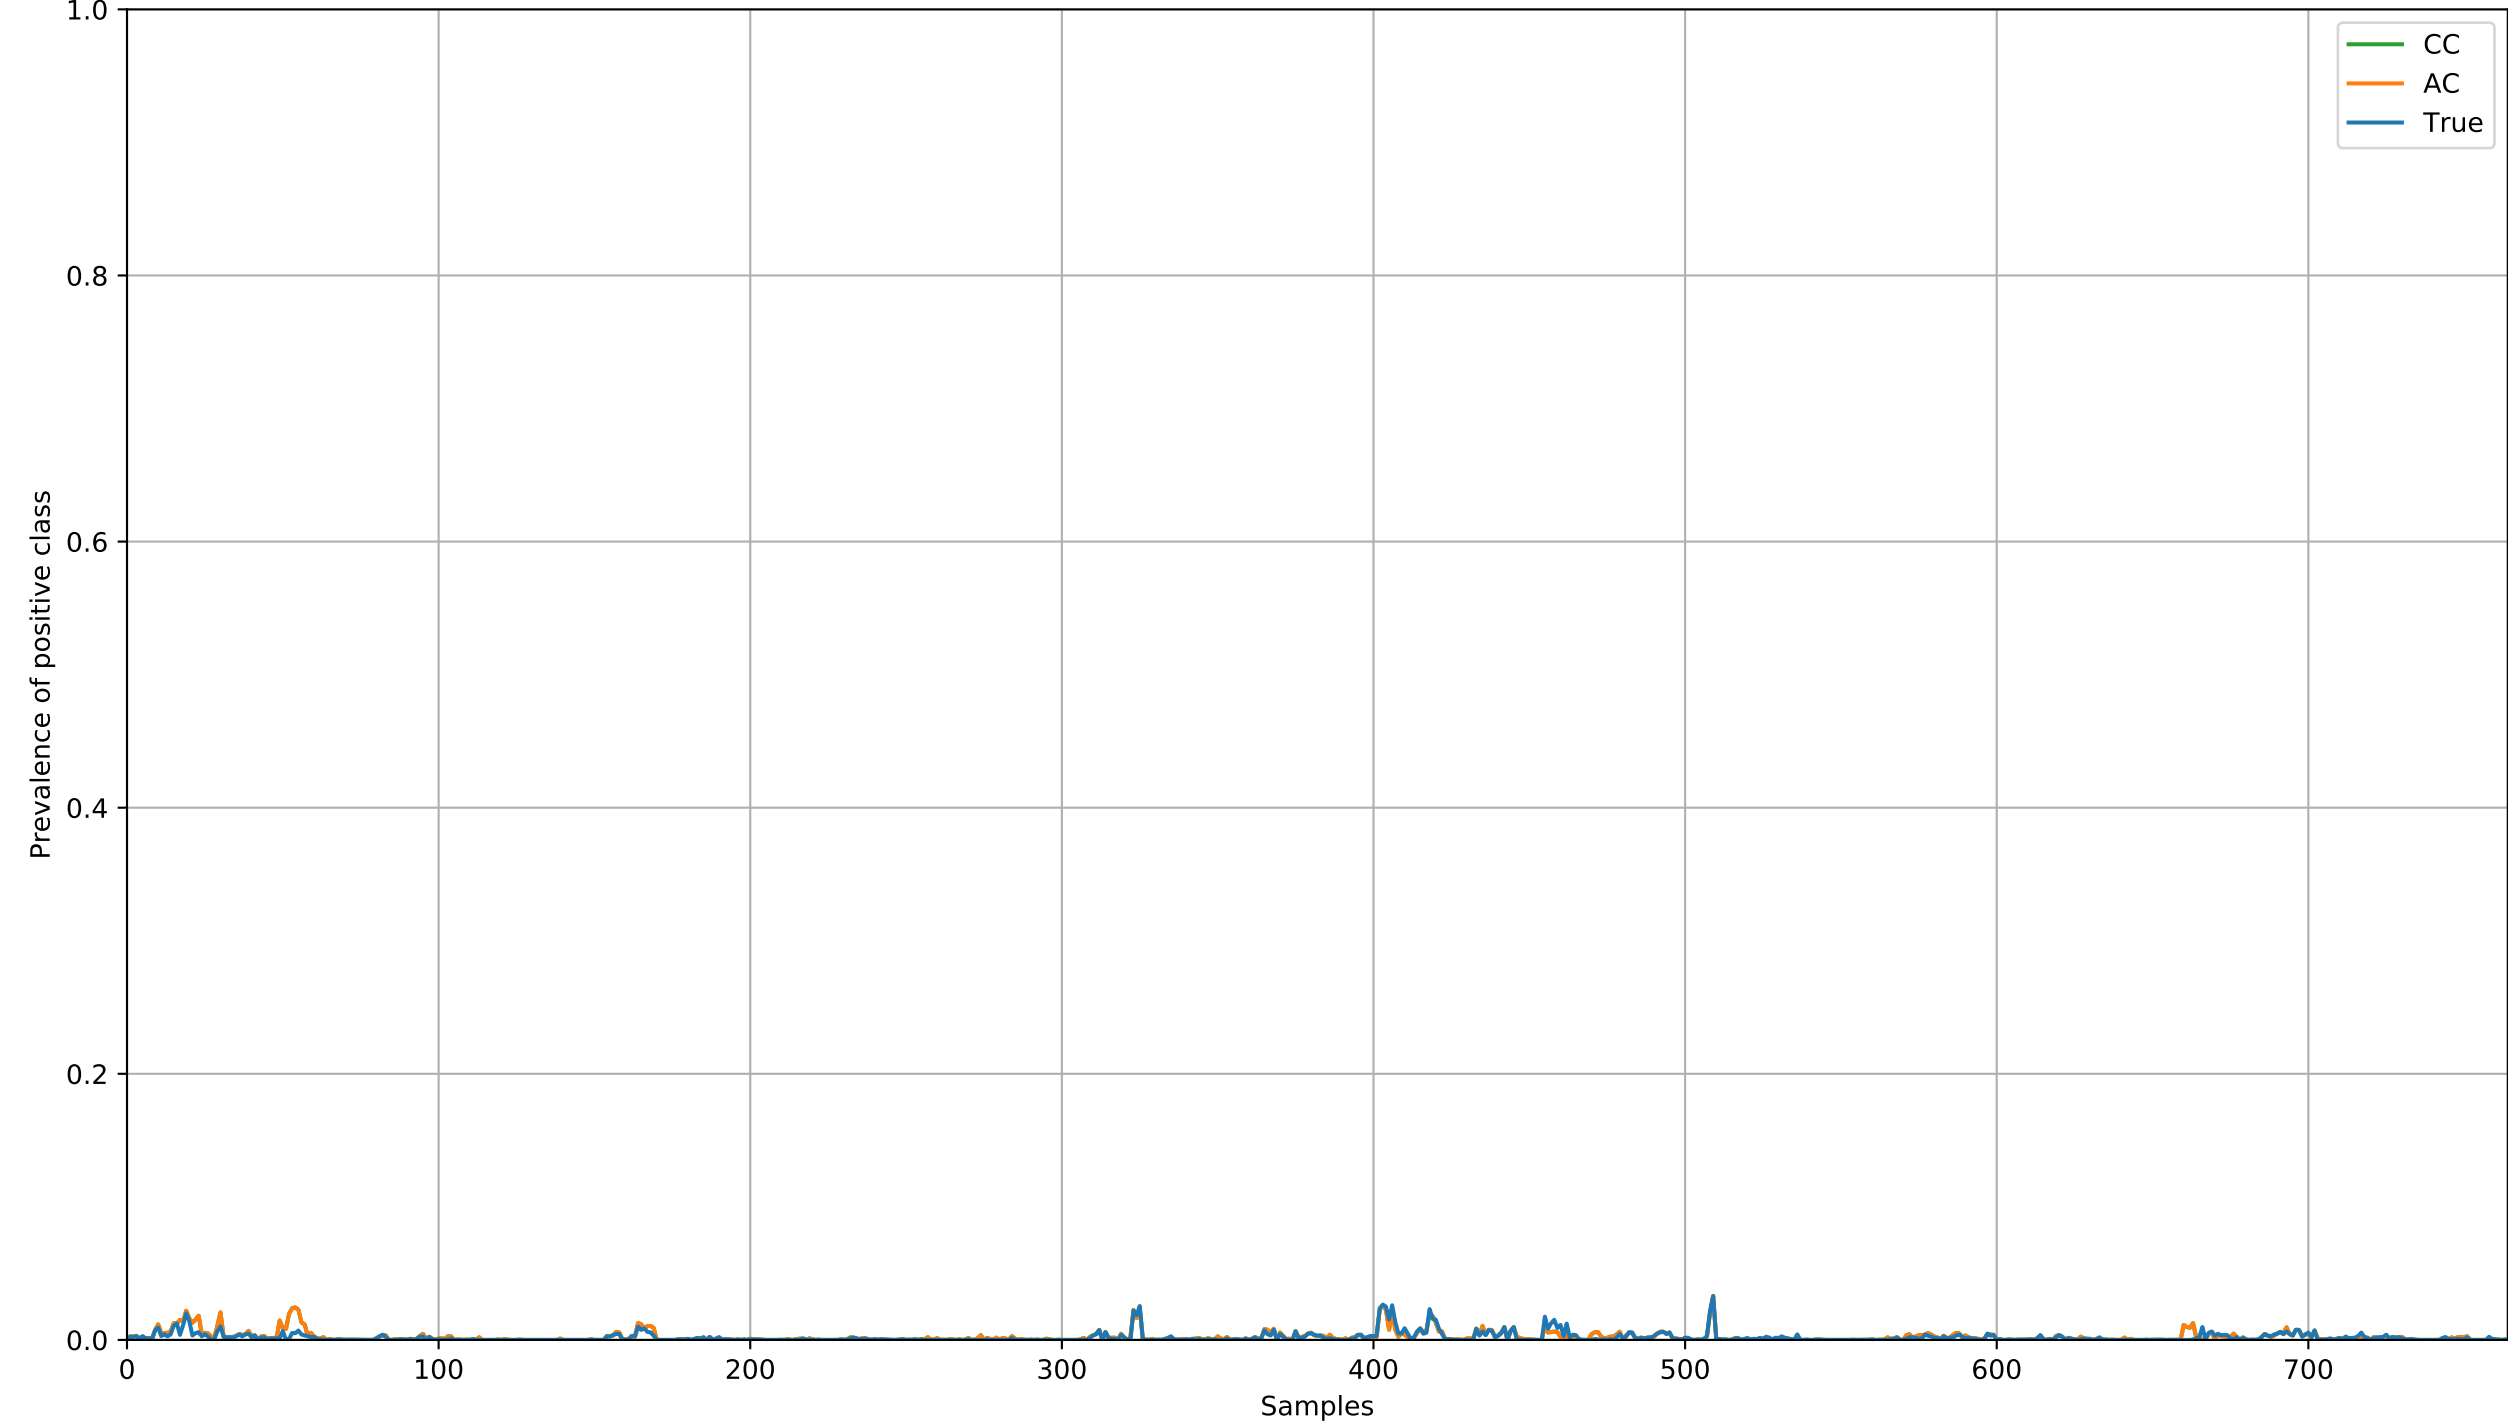

Quantification methods for Ditylum.

Quantification methods for na.
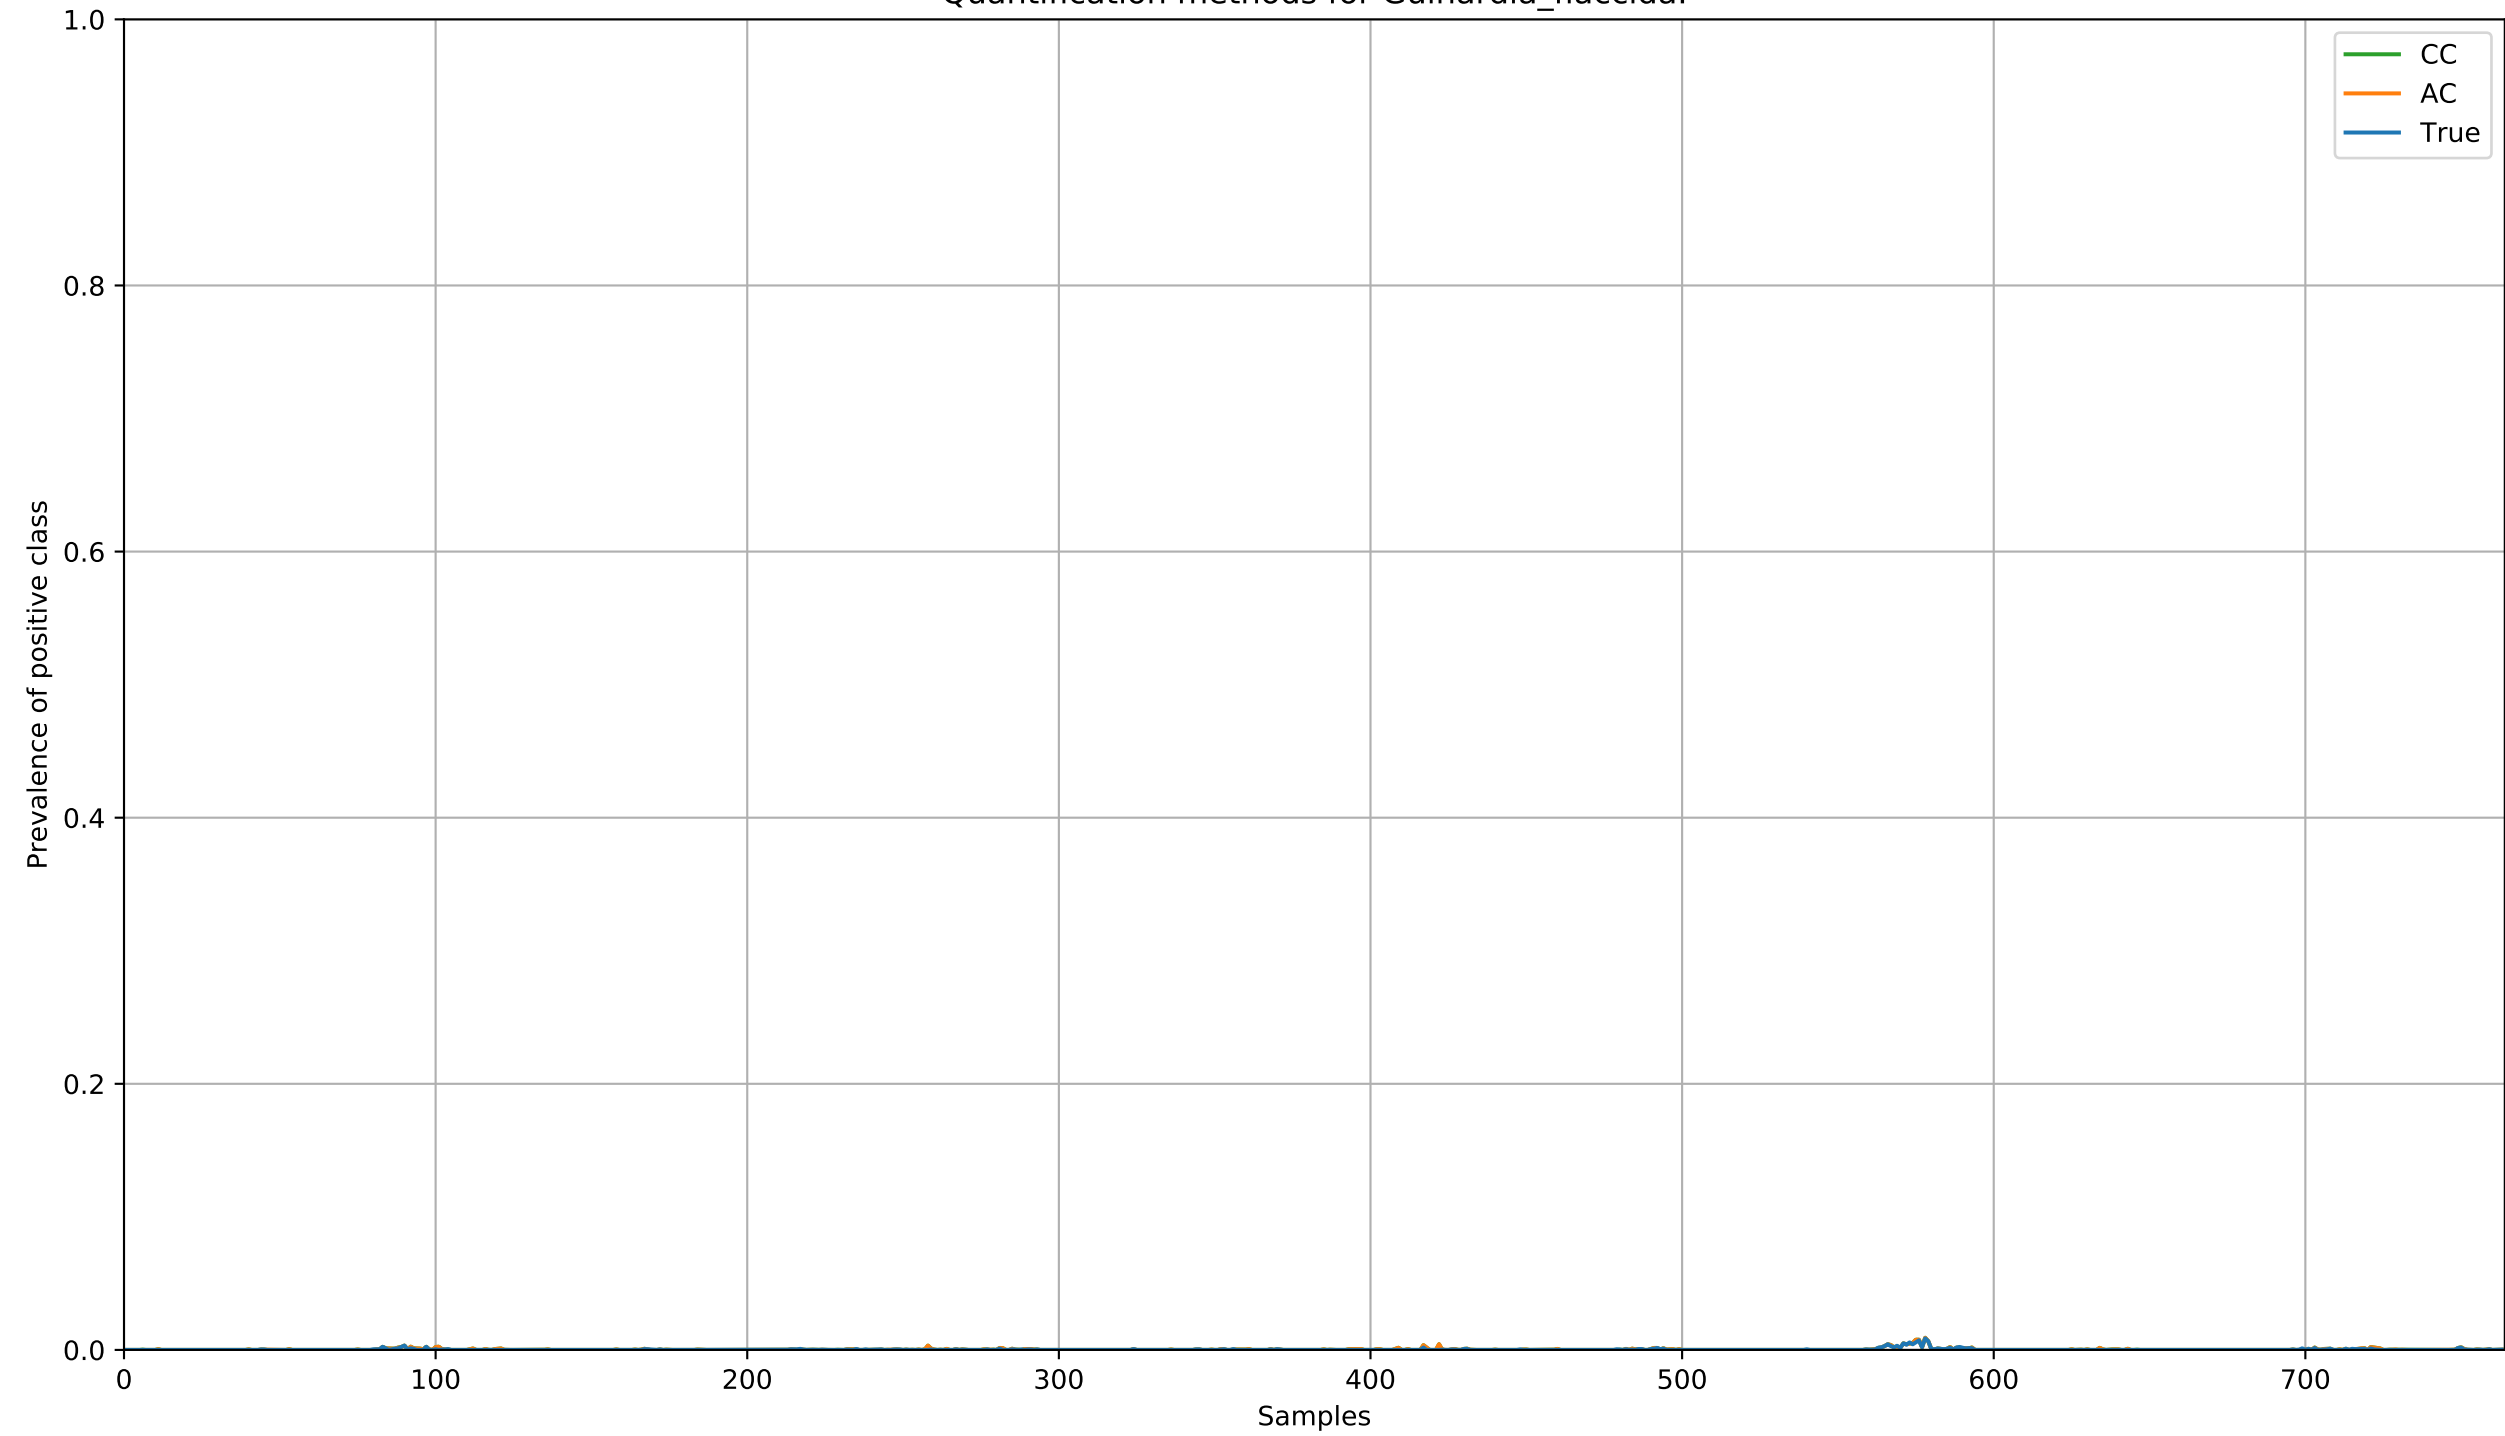

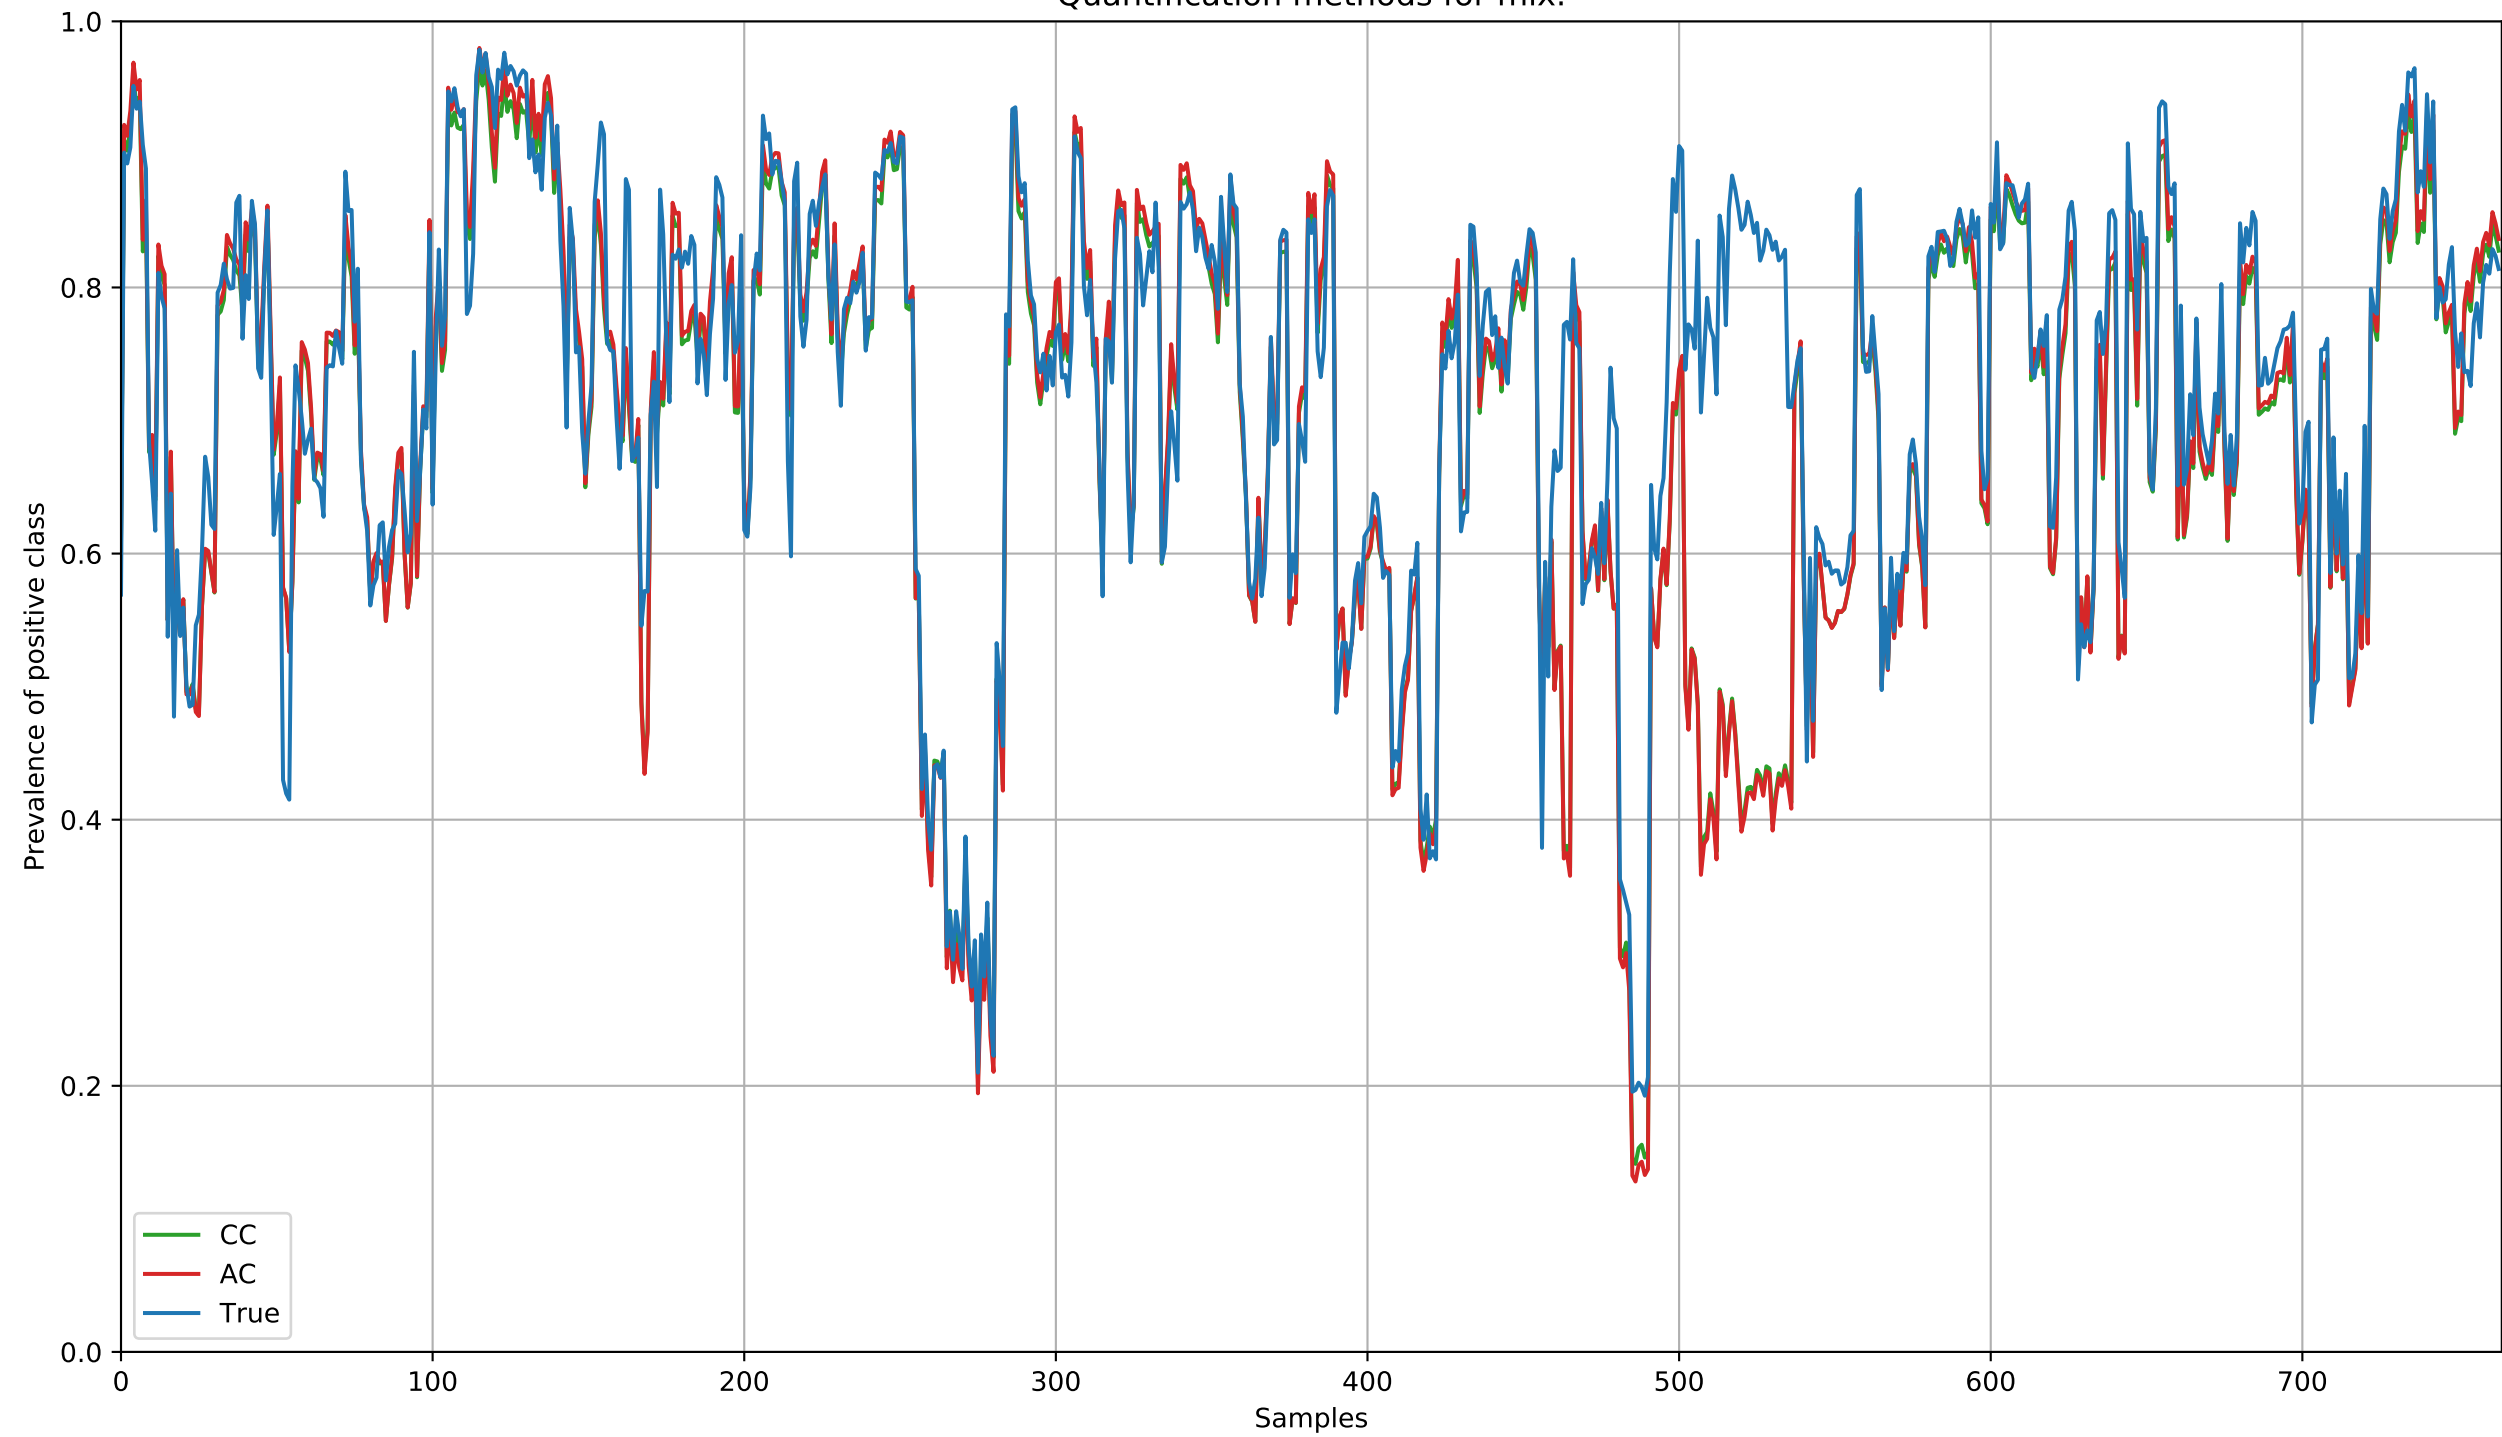

Quantification methods for Thalassionema.
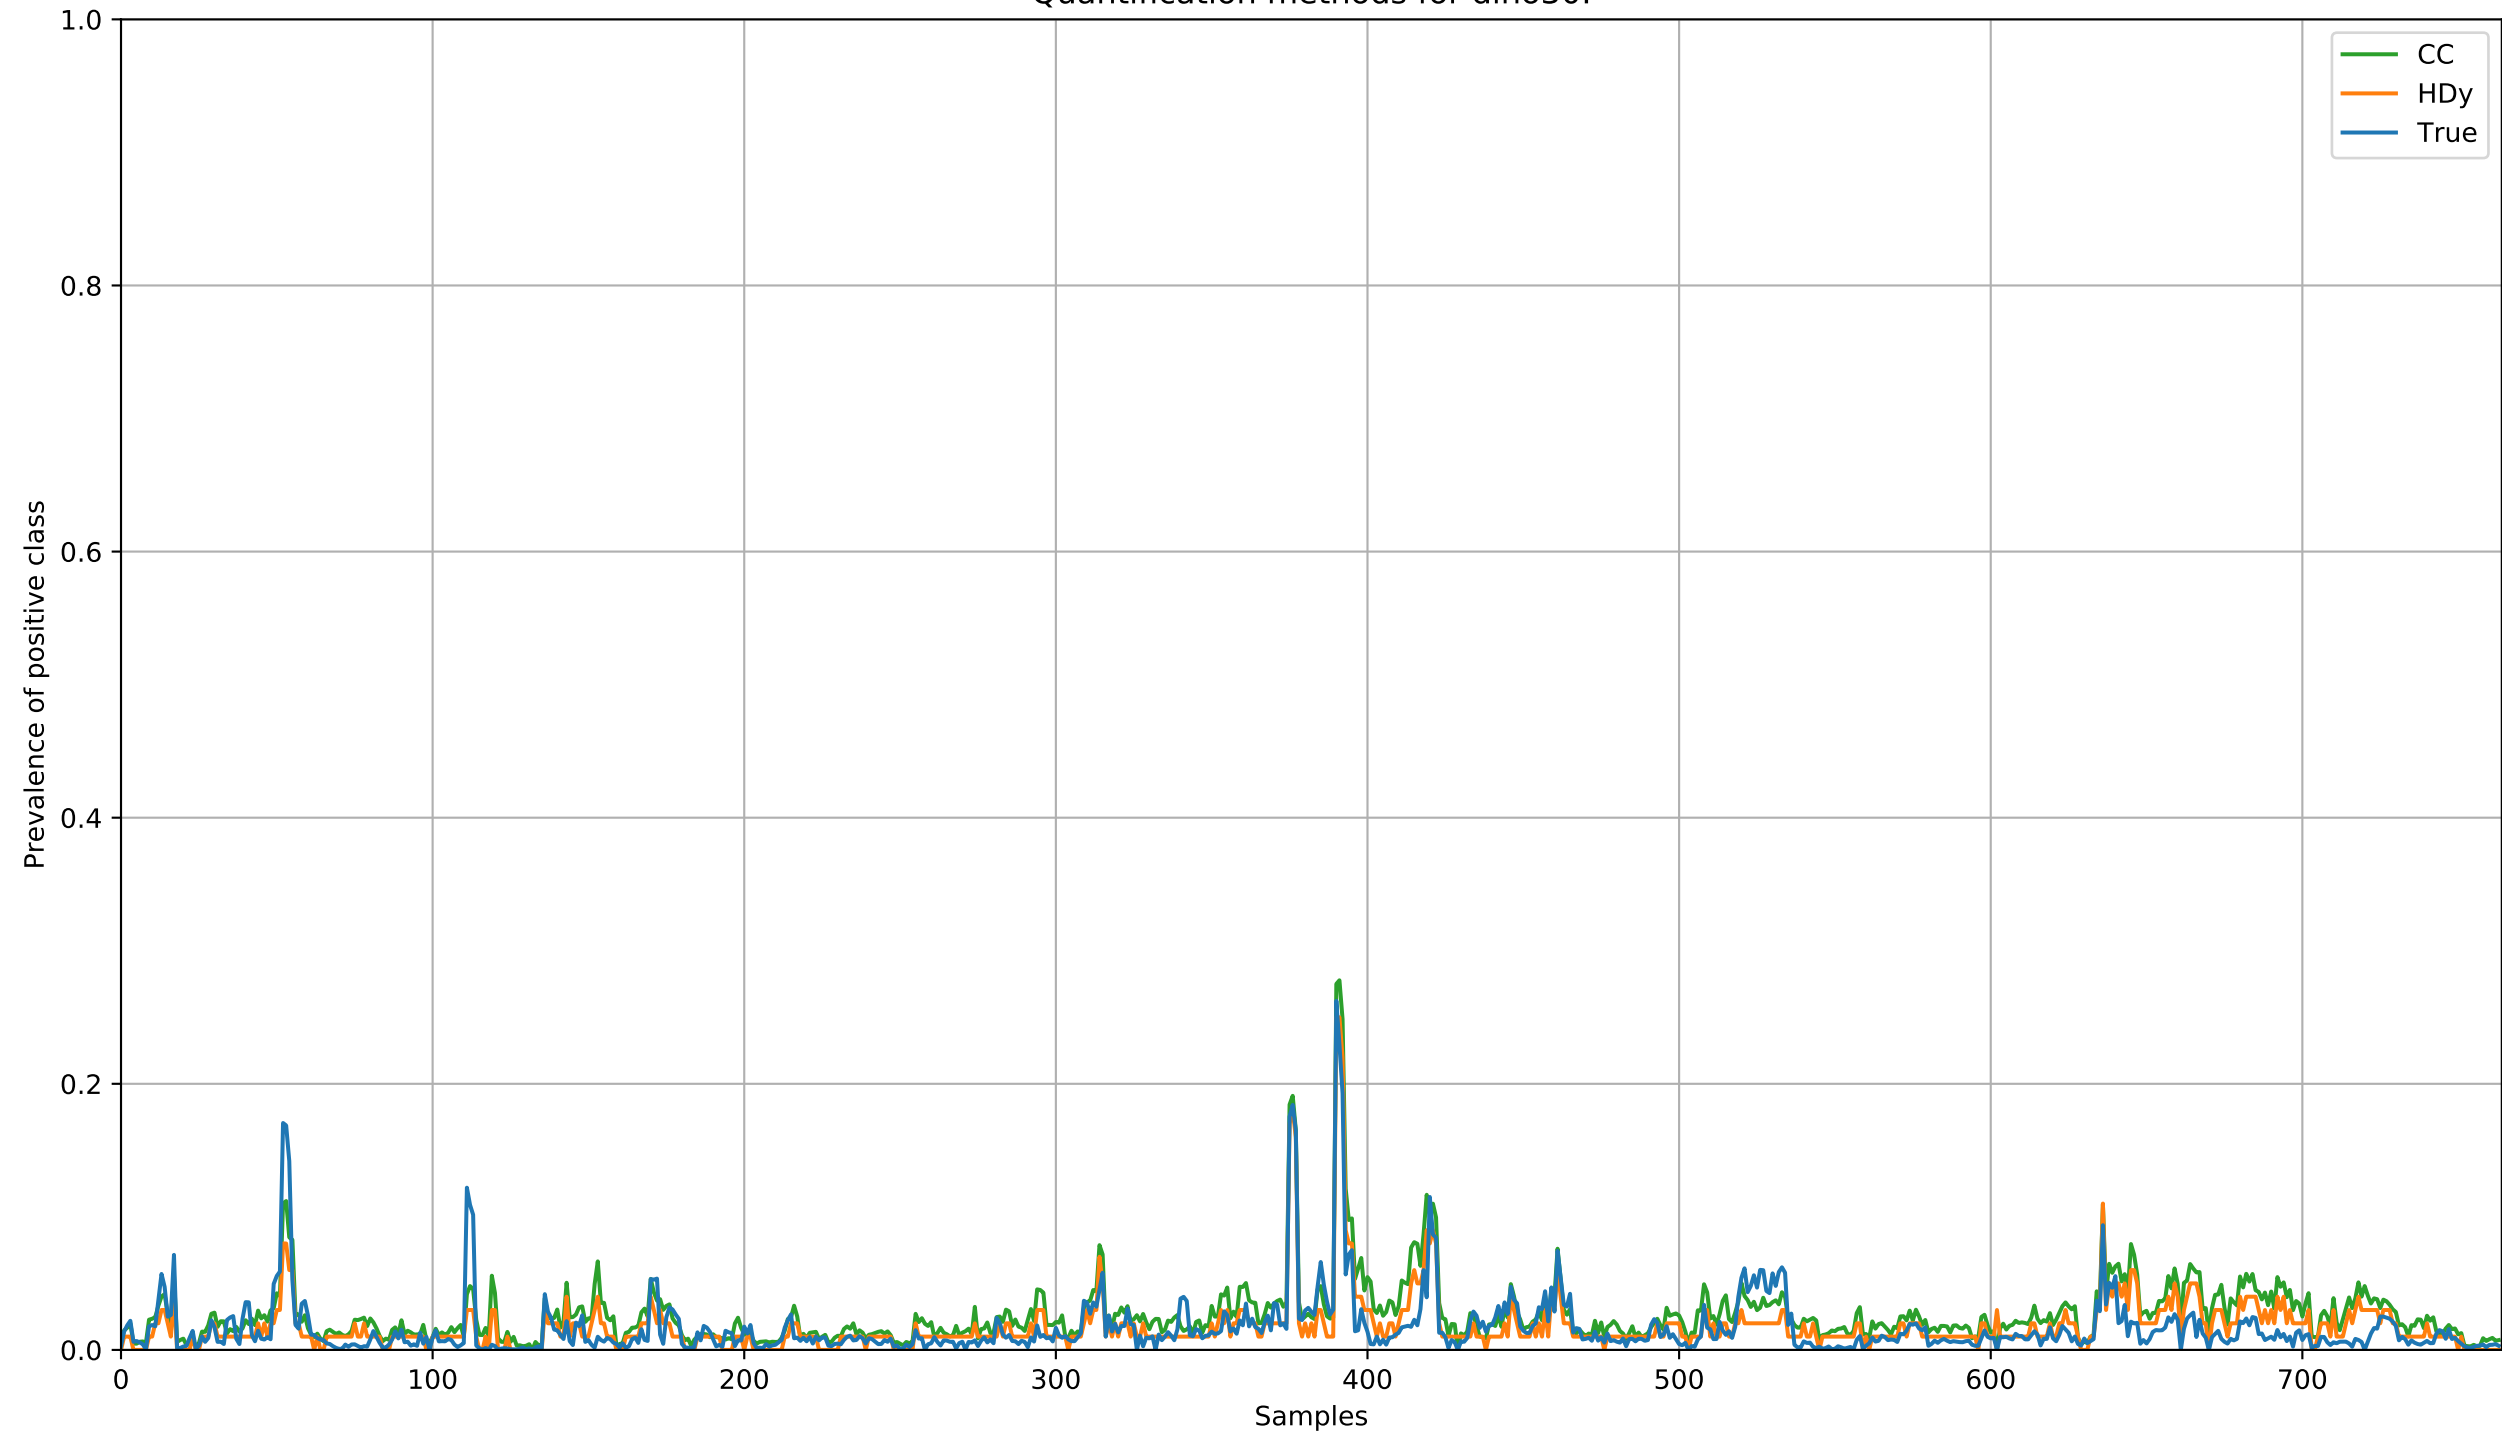

Quantification methods for Dactyliosolen.
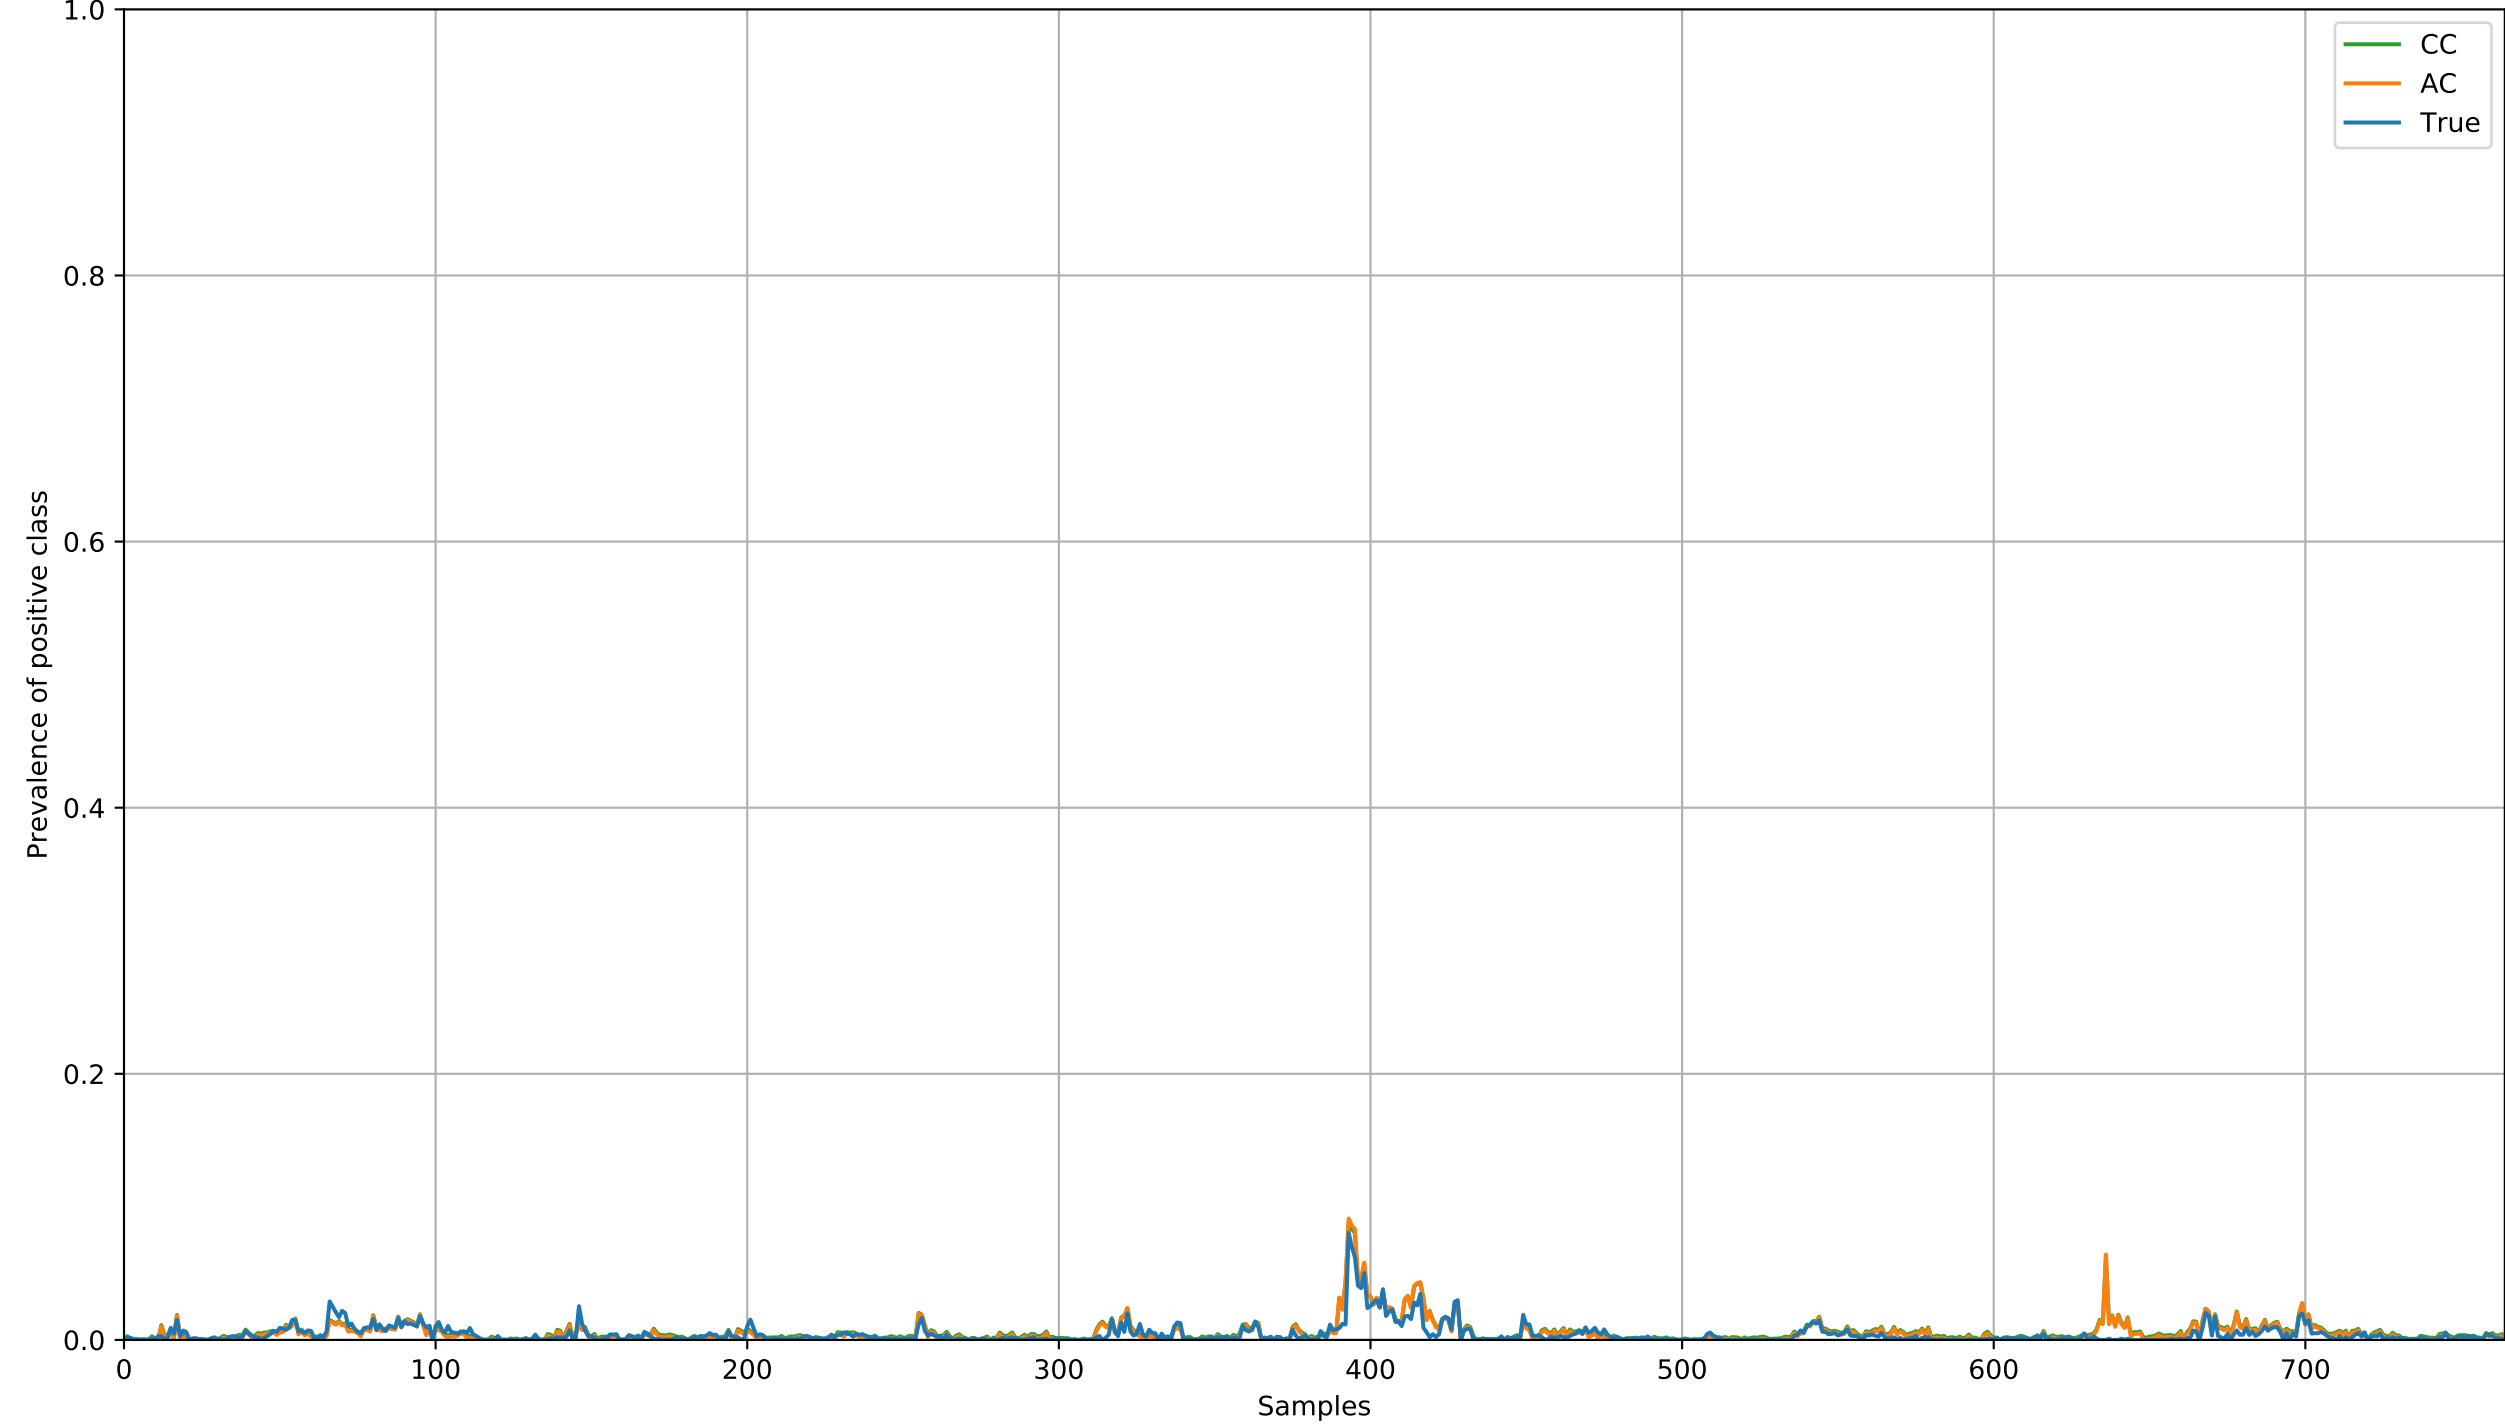

Quantification methods for Guinardia_flaccida.

Quantification methods for mix.

Quantification methods for dino30.

Quantification methods for Thalassiosira.
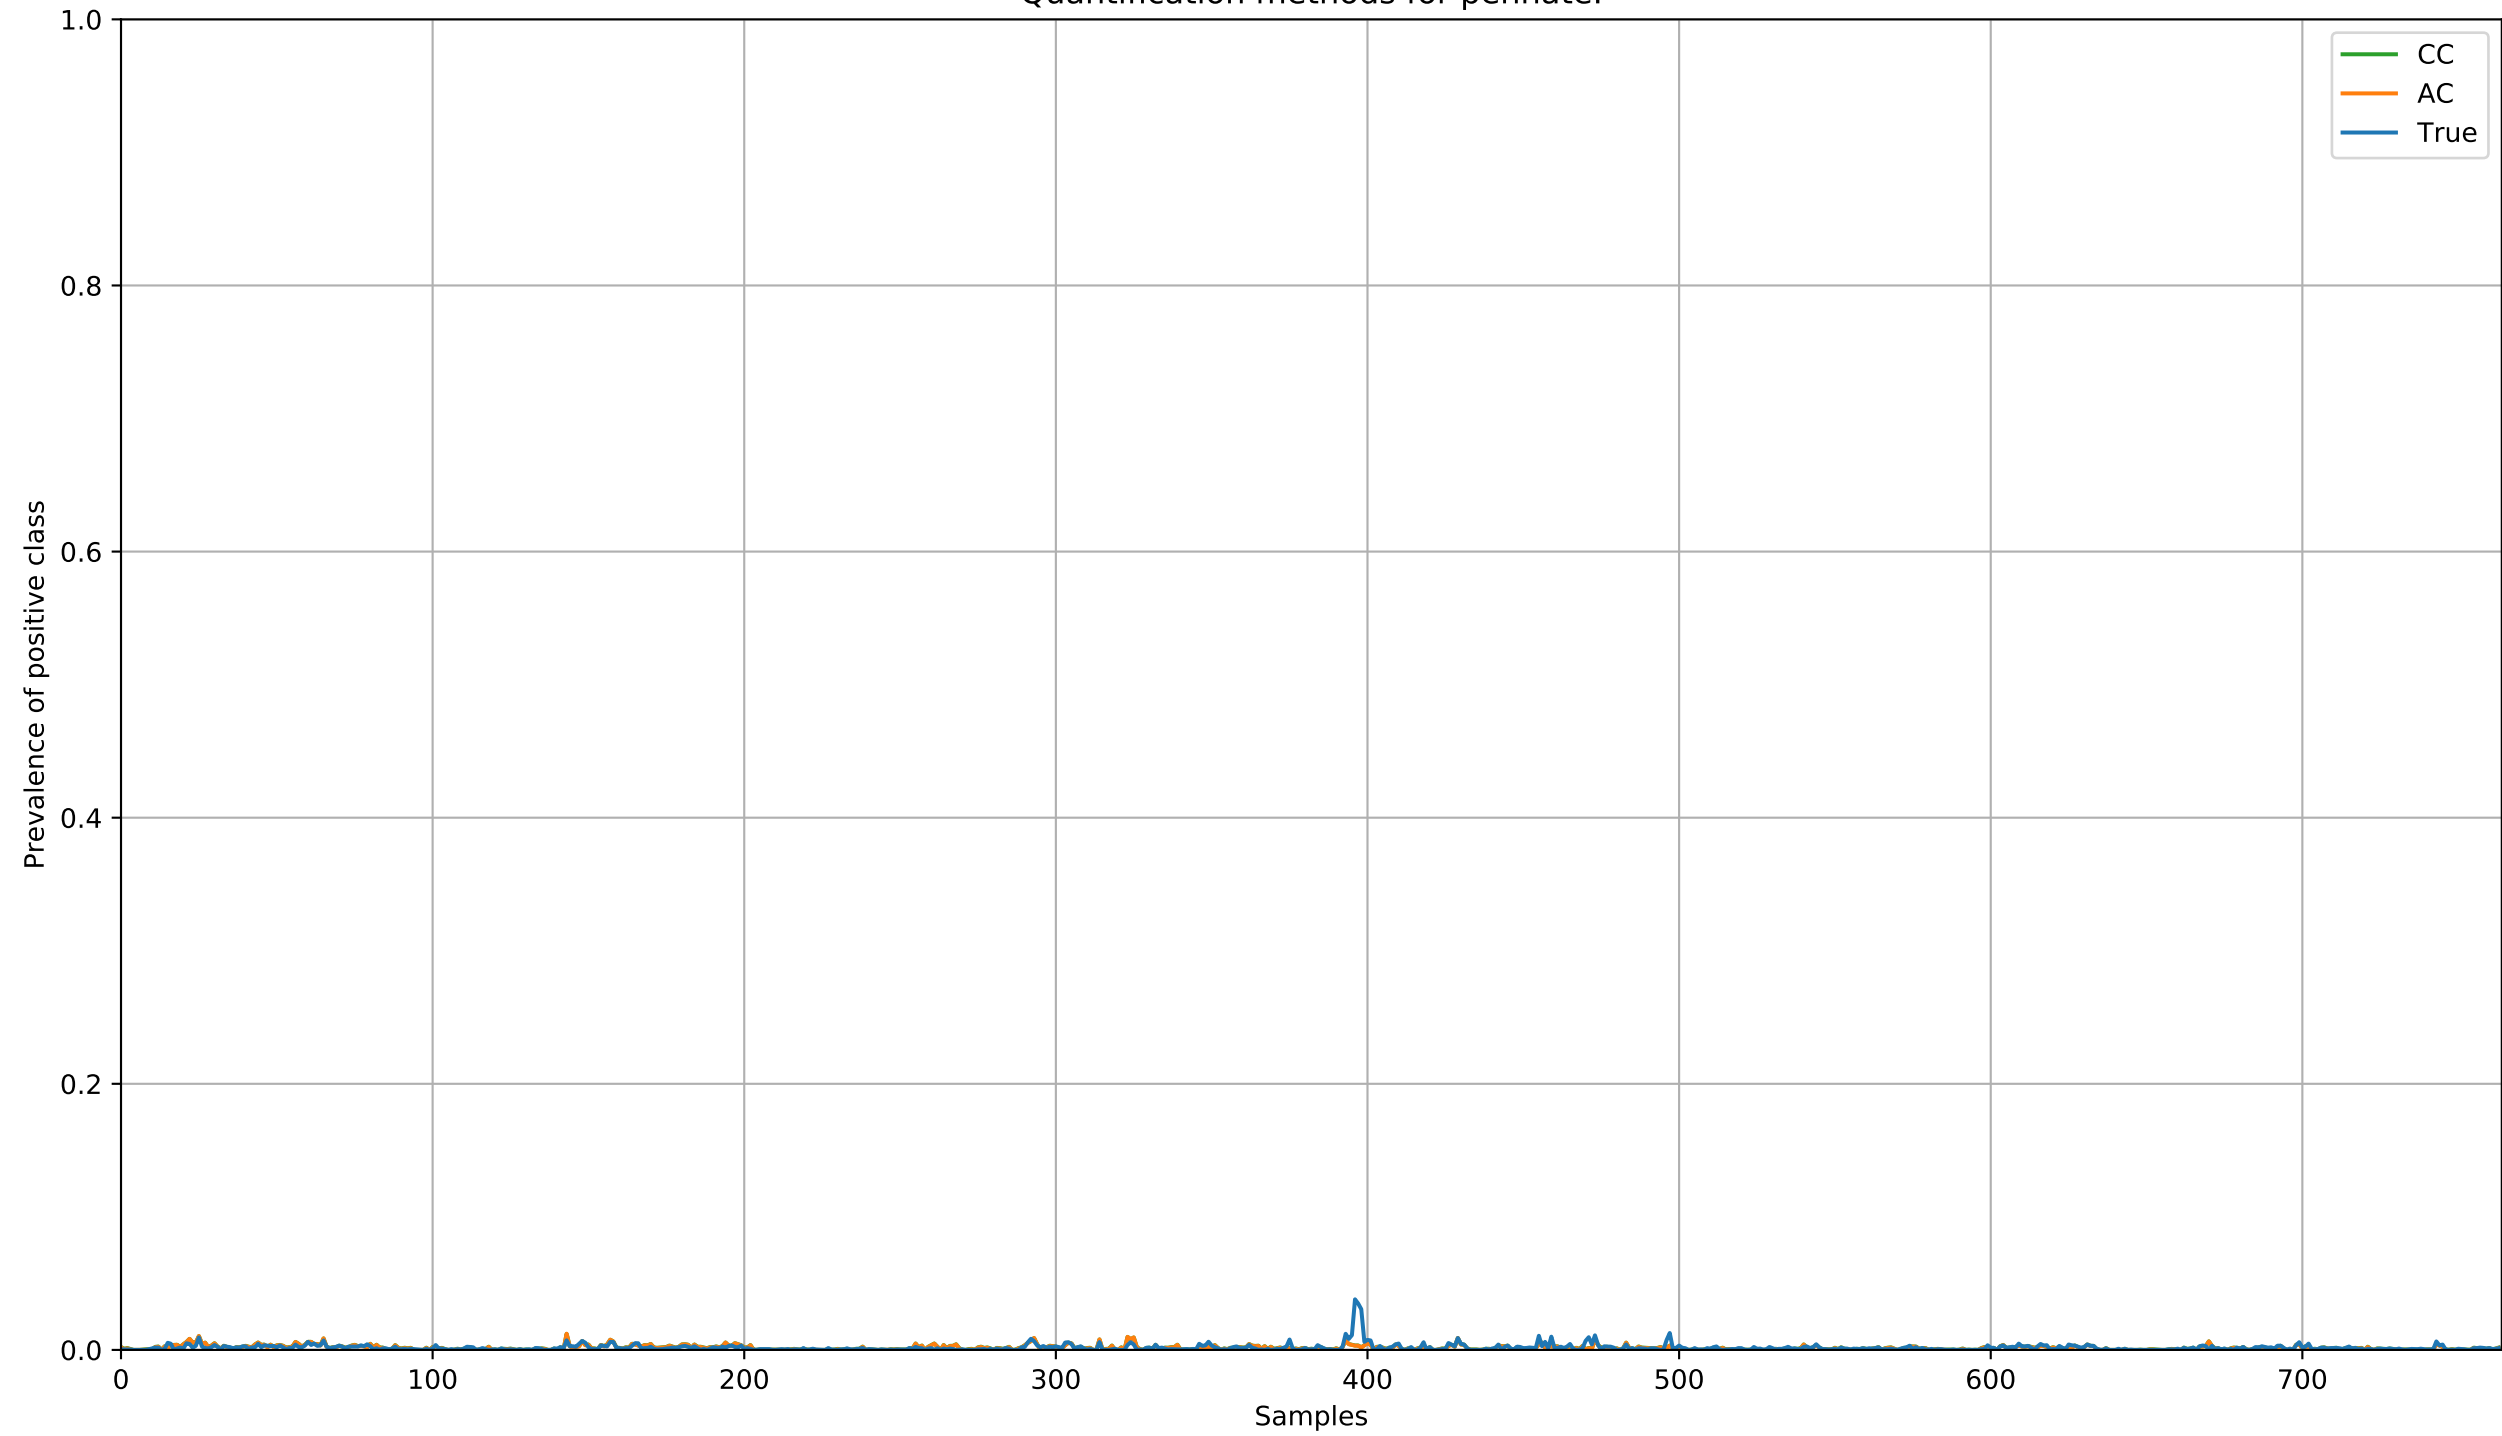

Quantification methods for Myrionecta.

Quantification methods for Coscinodiscus.

Quantification methods for Dinobryon.
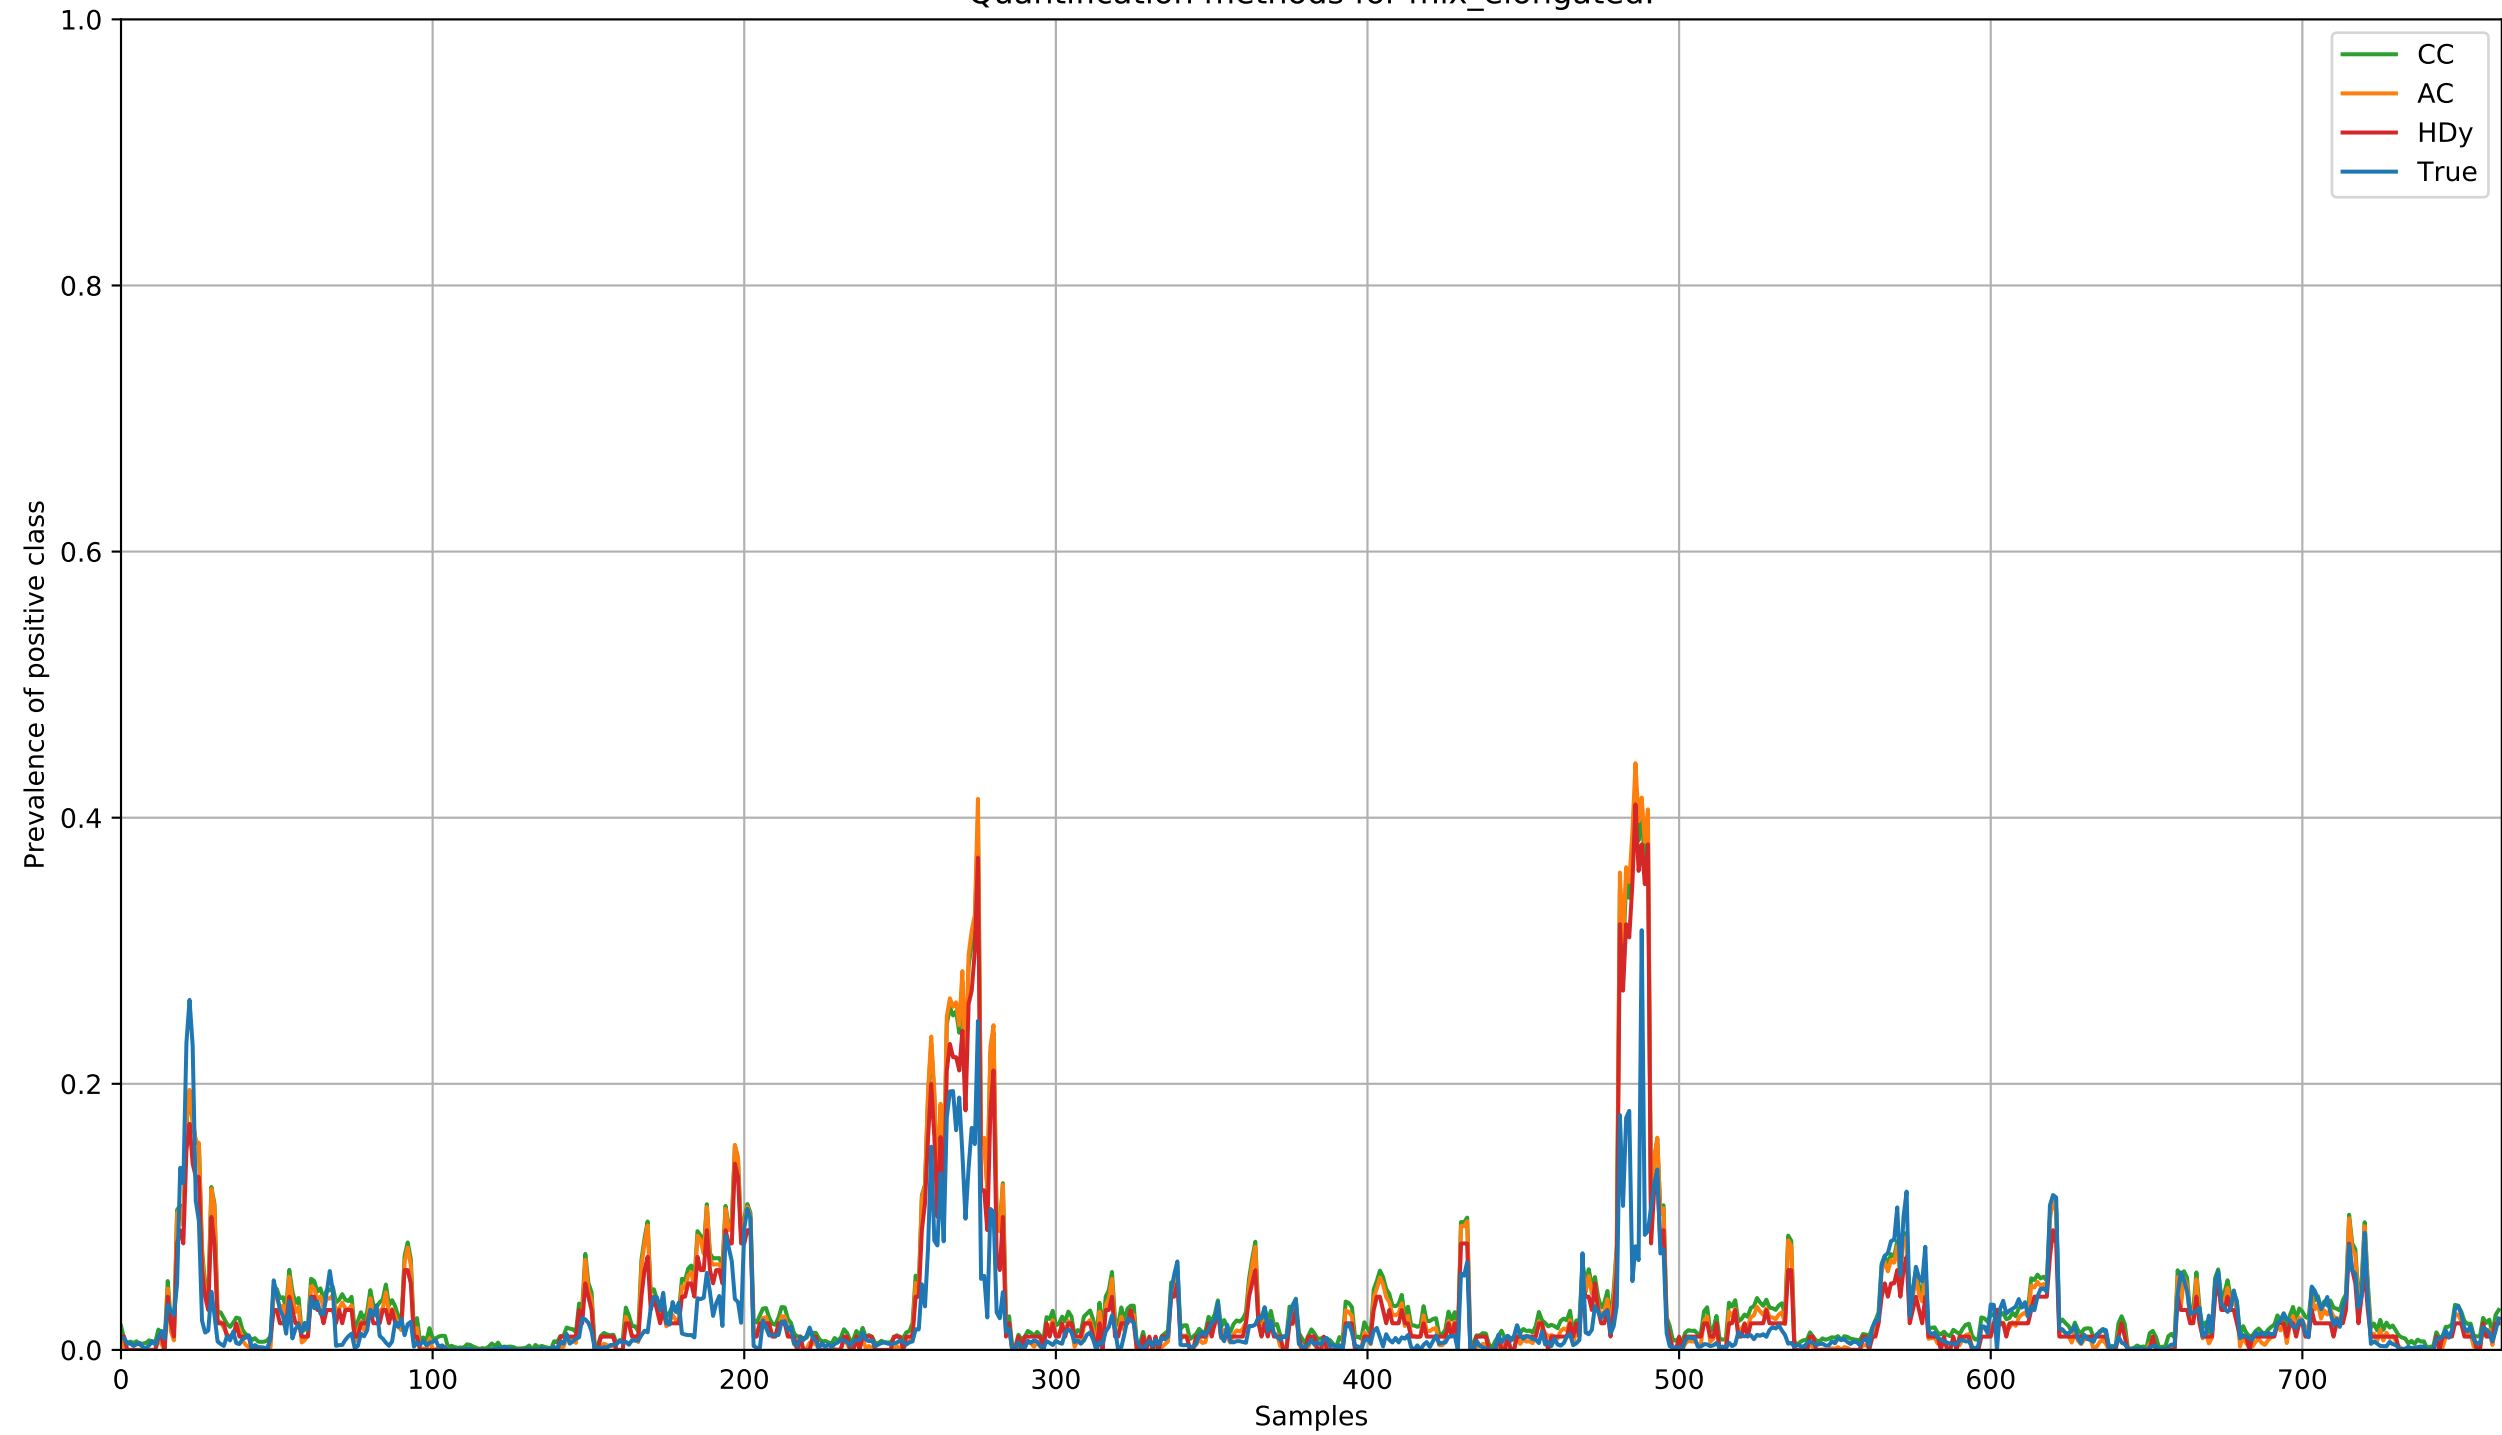

Quantification methods for pennate.

Quantification methods for Cerataulina.

Quantification methods for Paralia.

Quantification methods for mix_elongated.

Quantification methods for Licmophora.
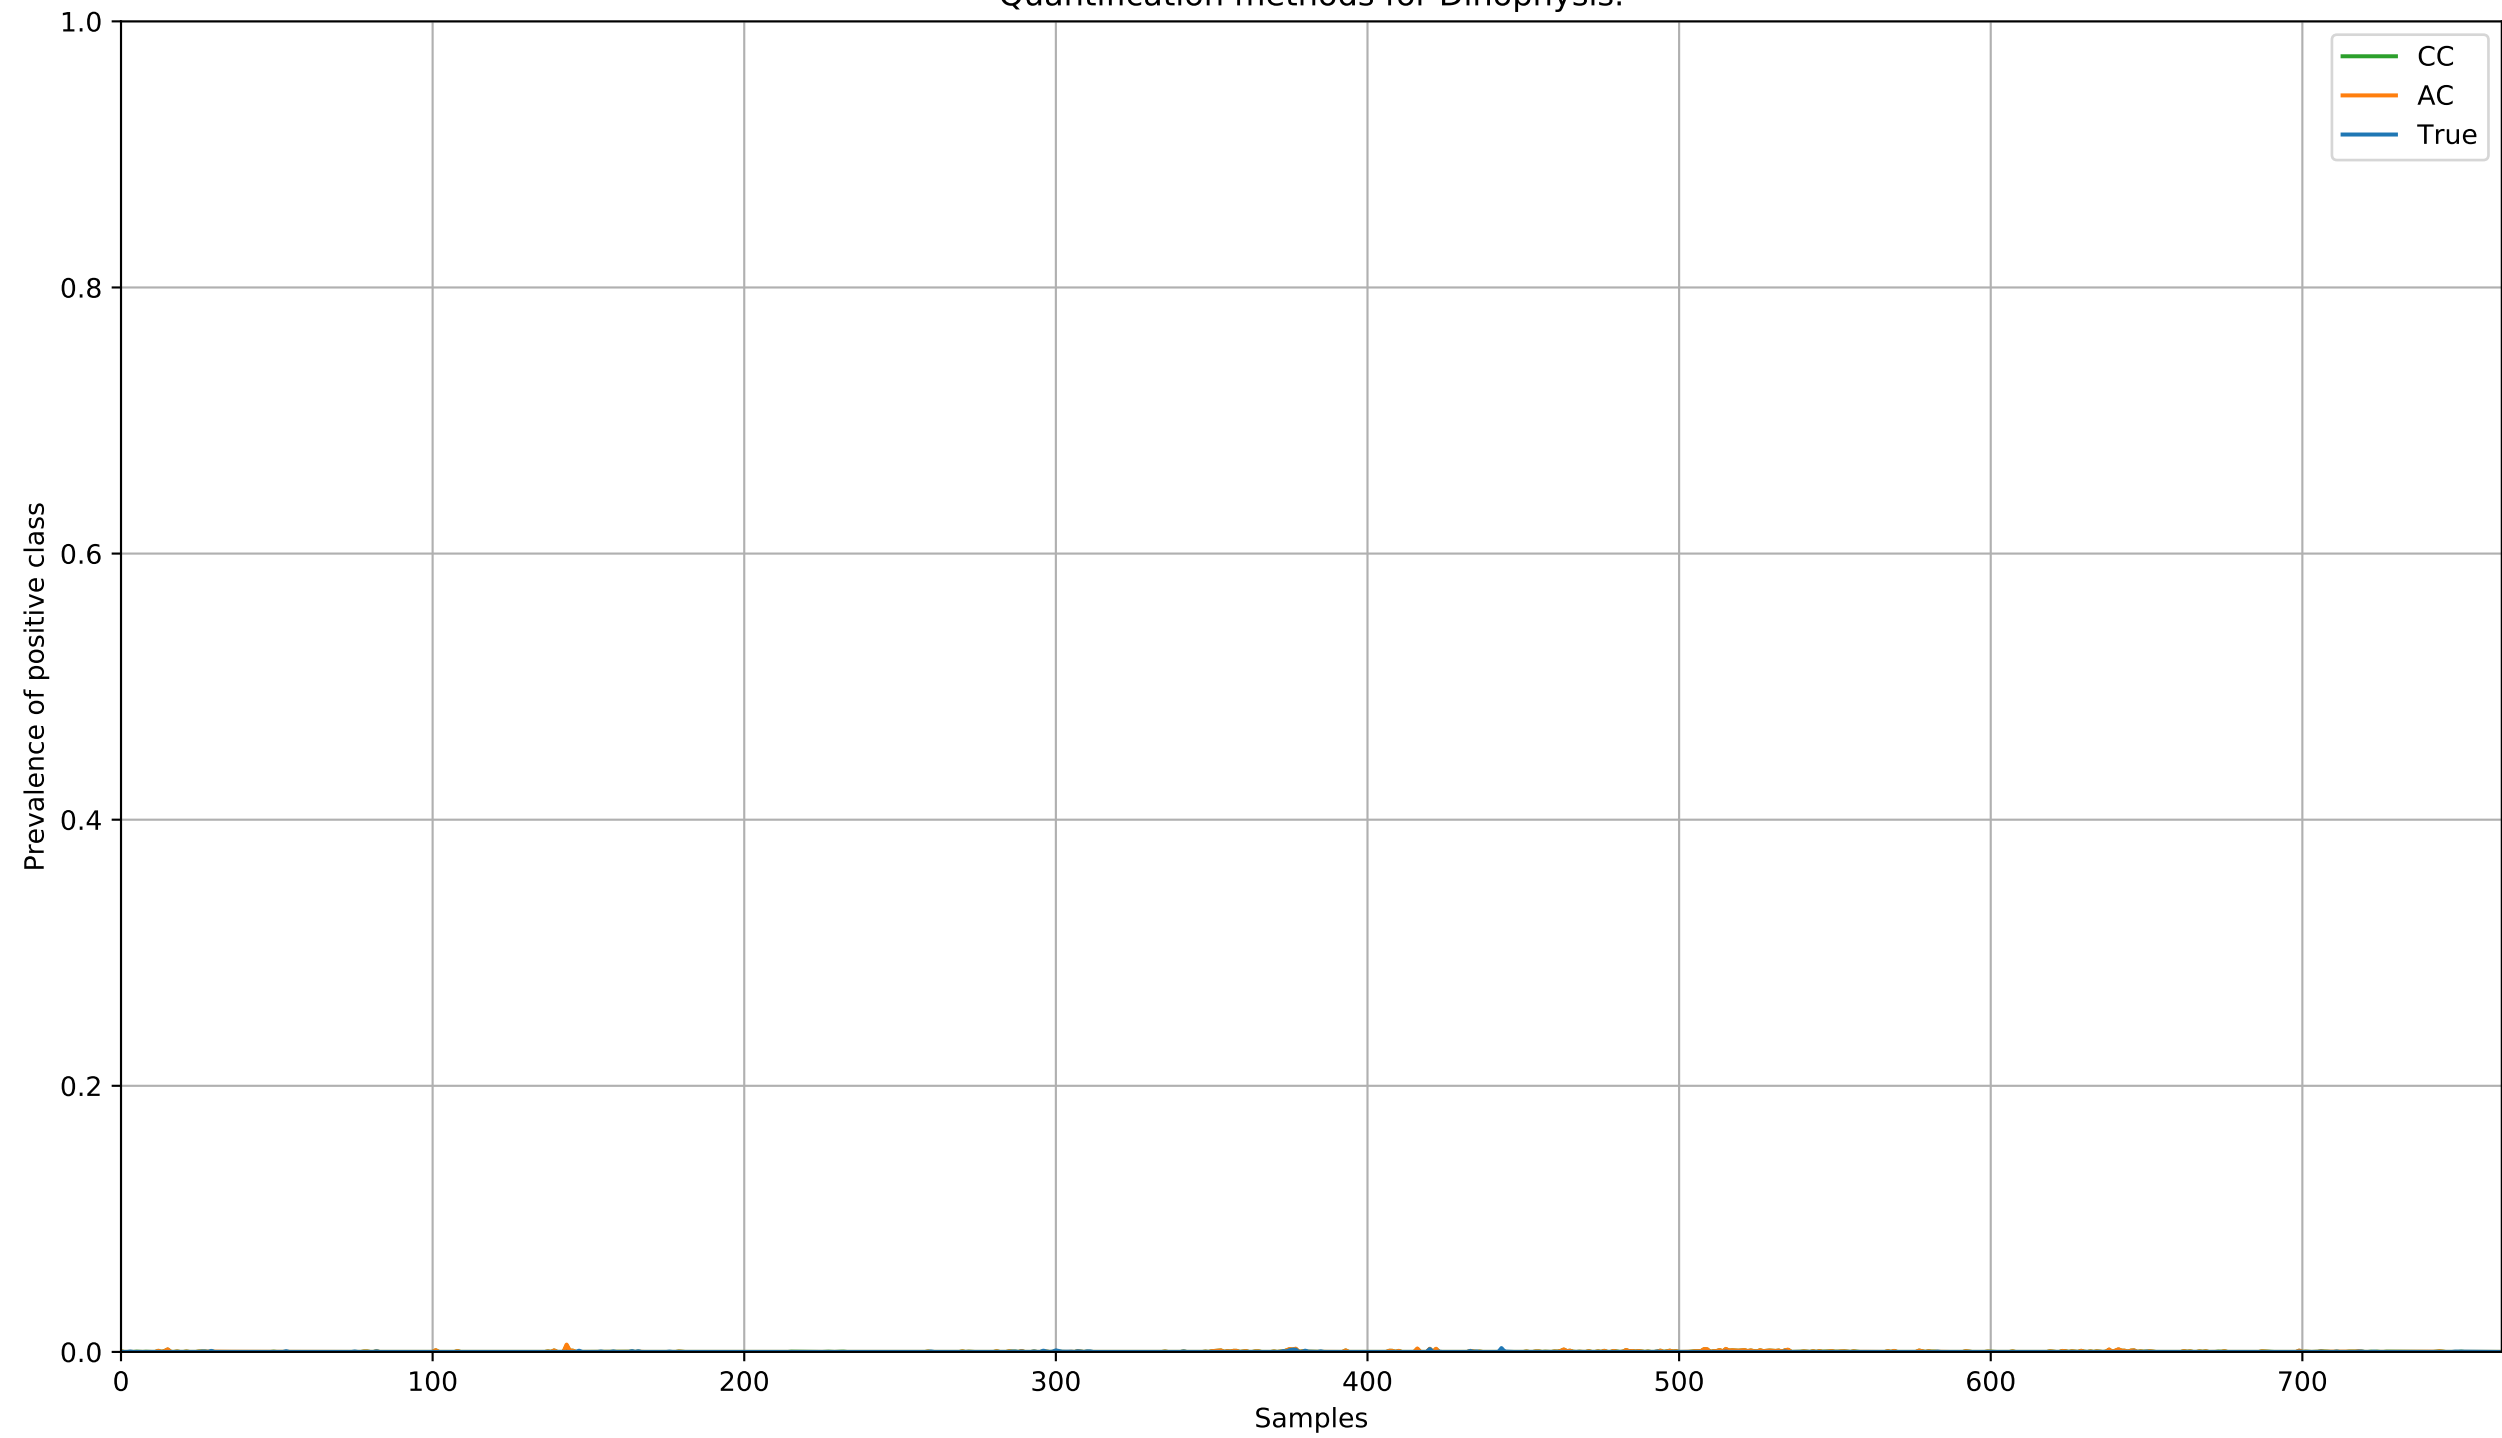

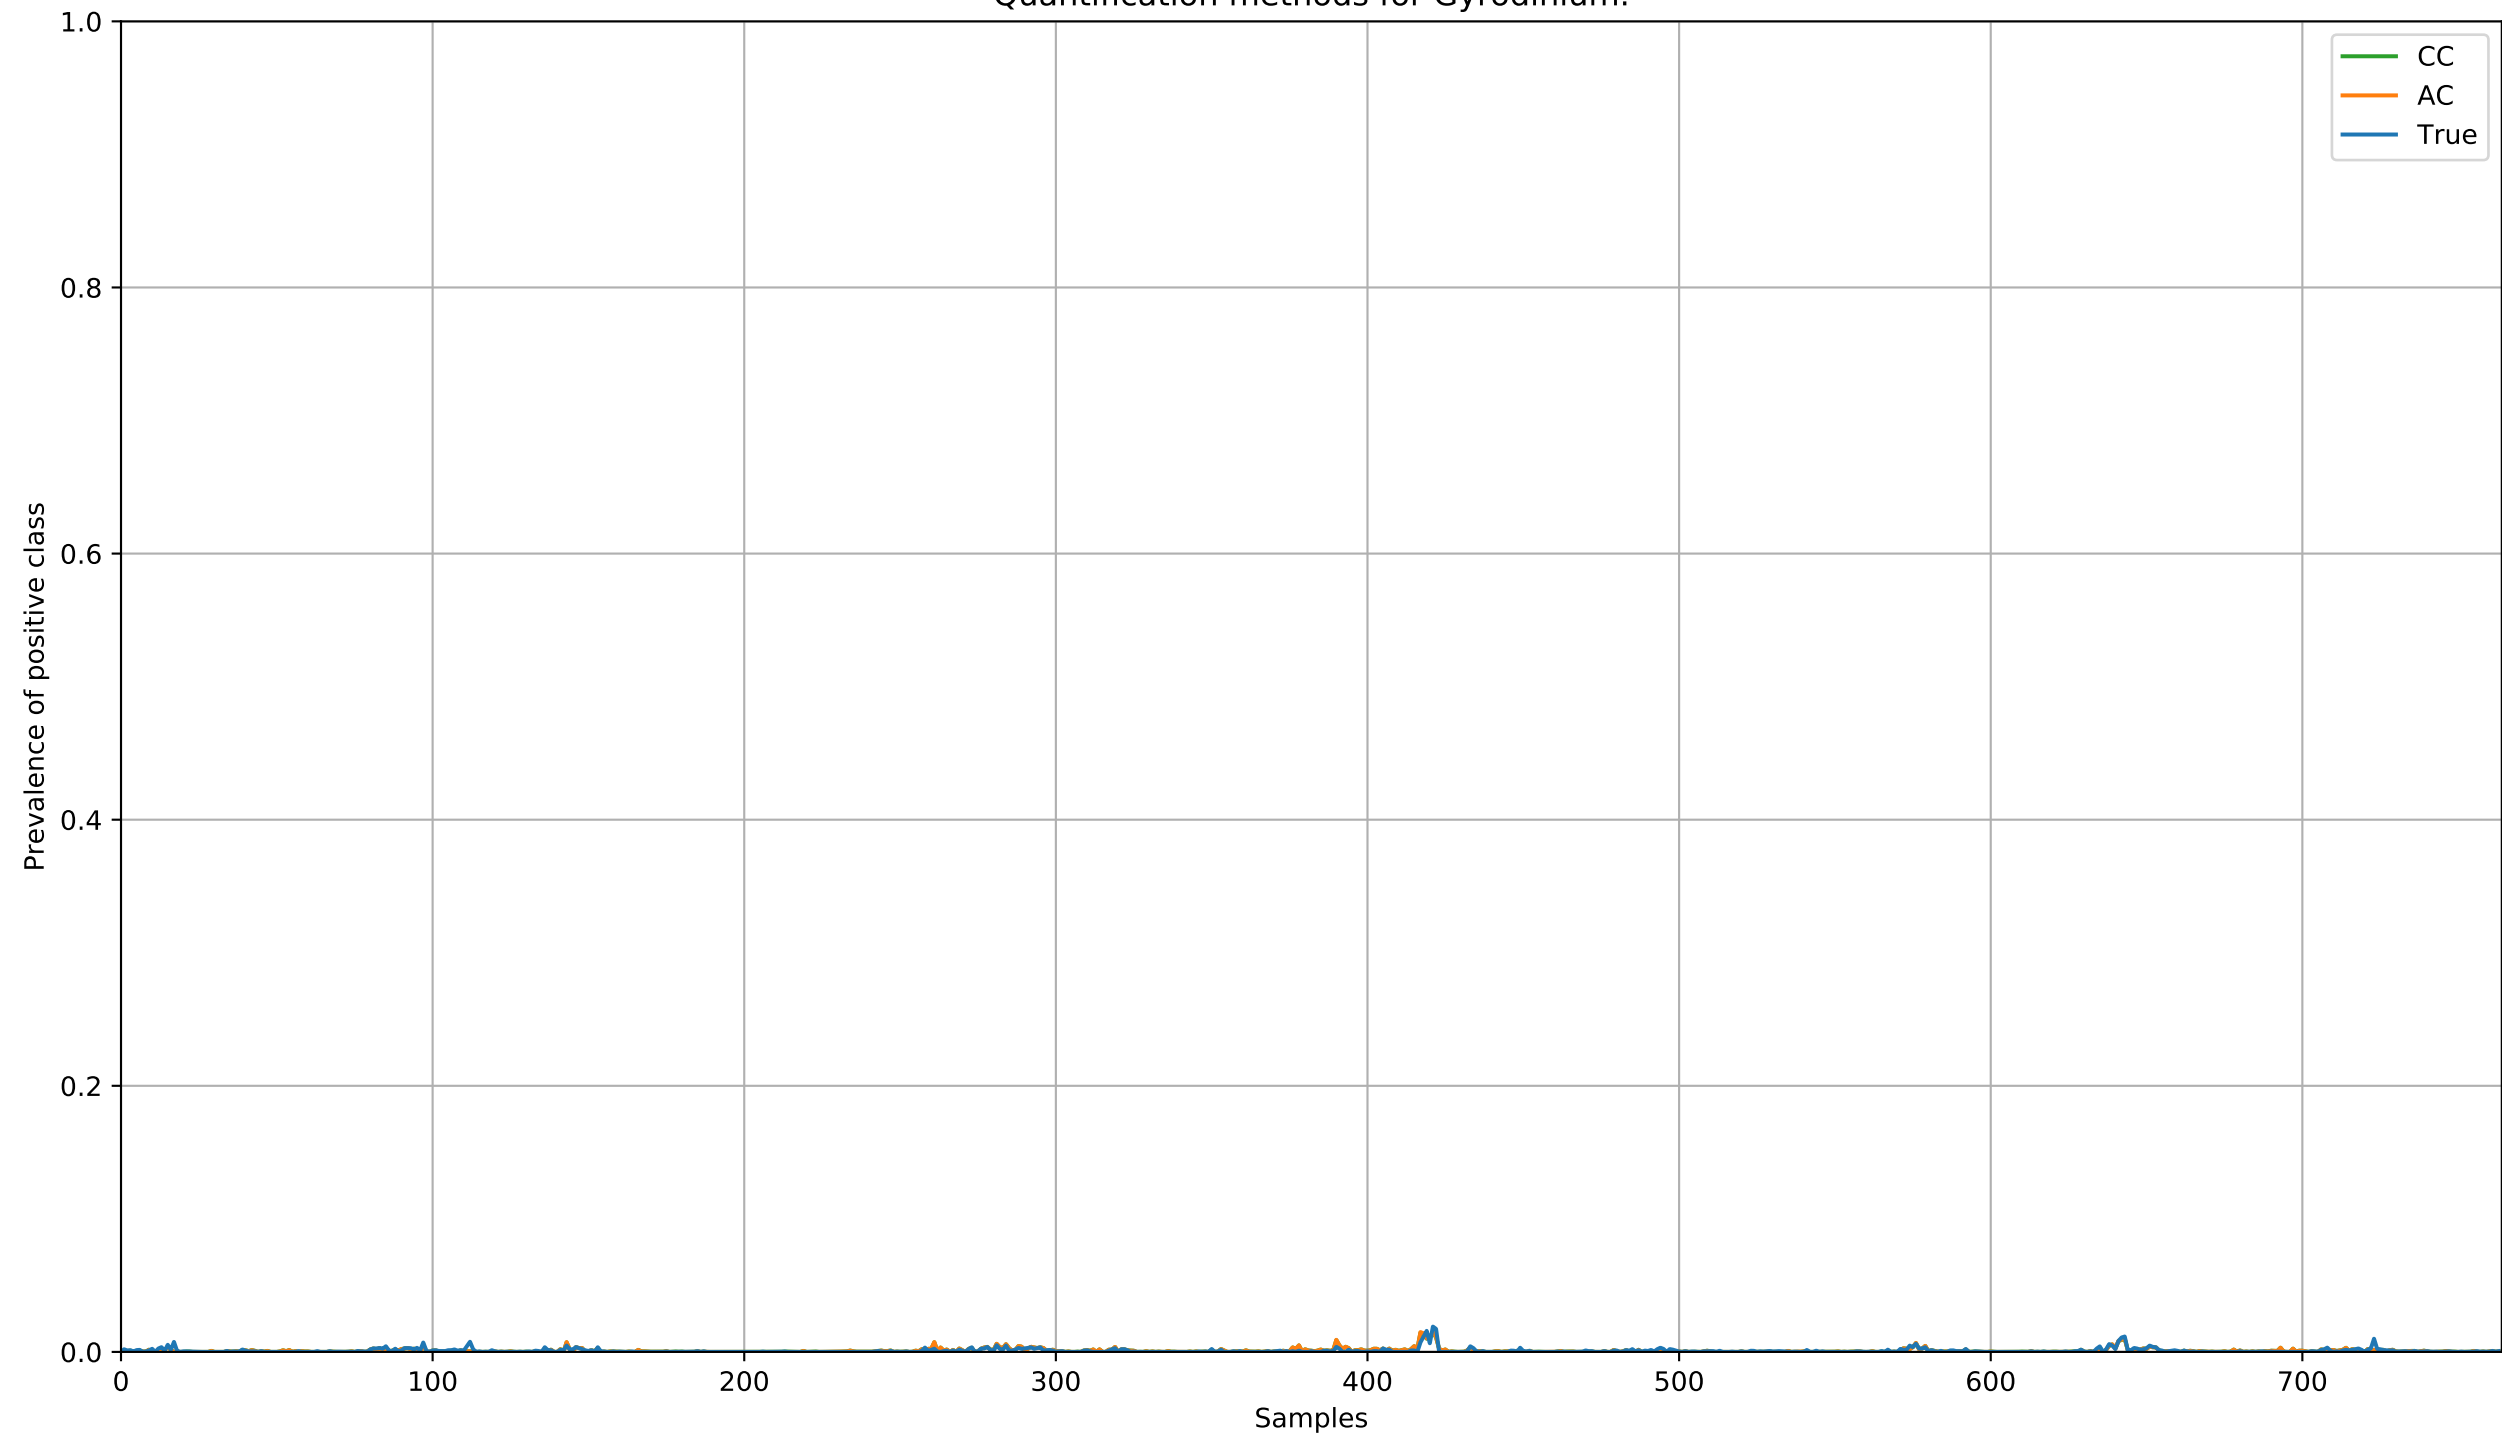

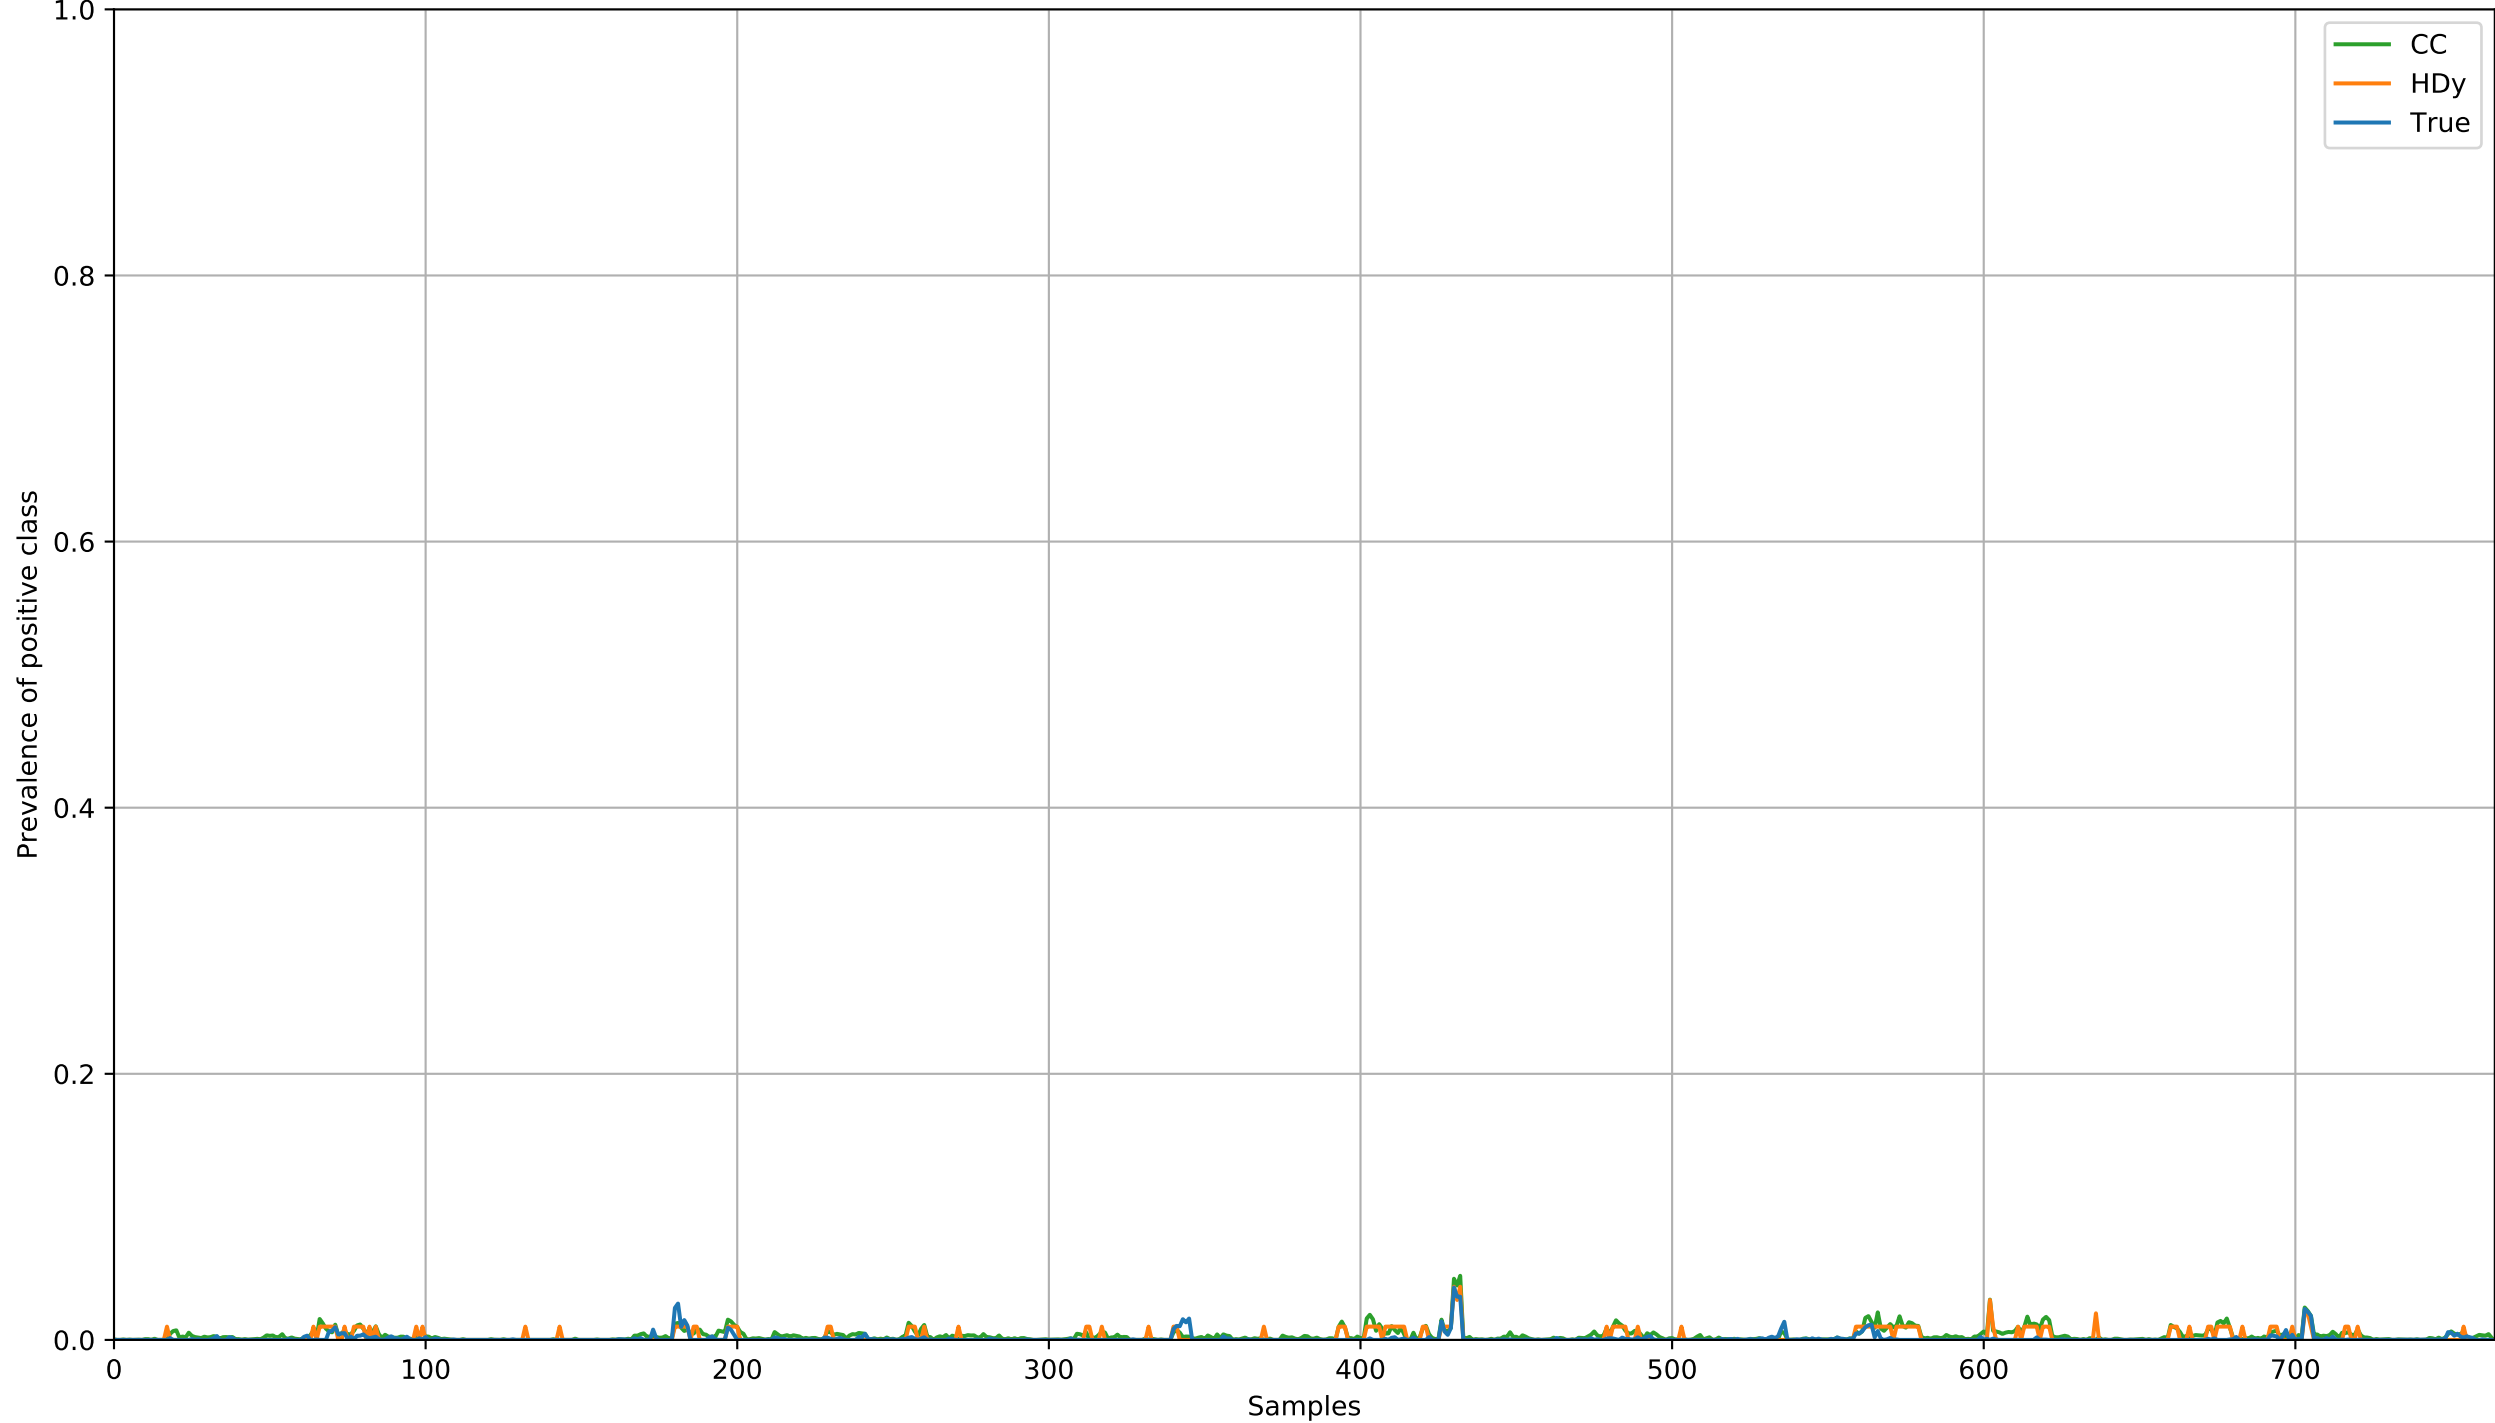

Quantification methods for Skeletonema.

Quantification methods for Dinophysis.
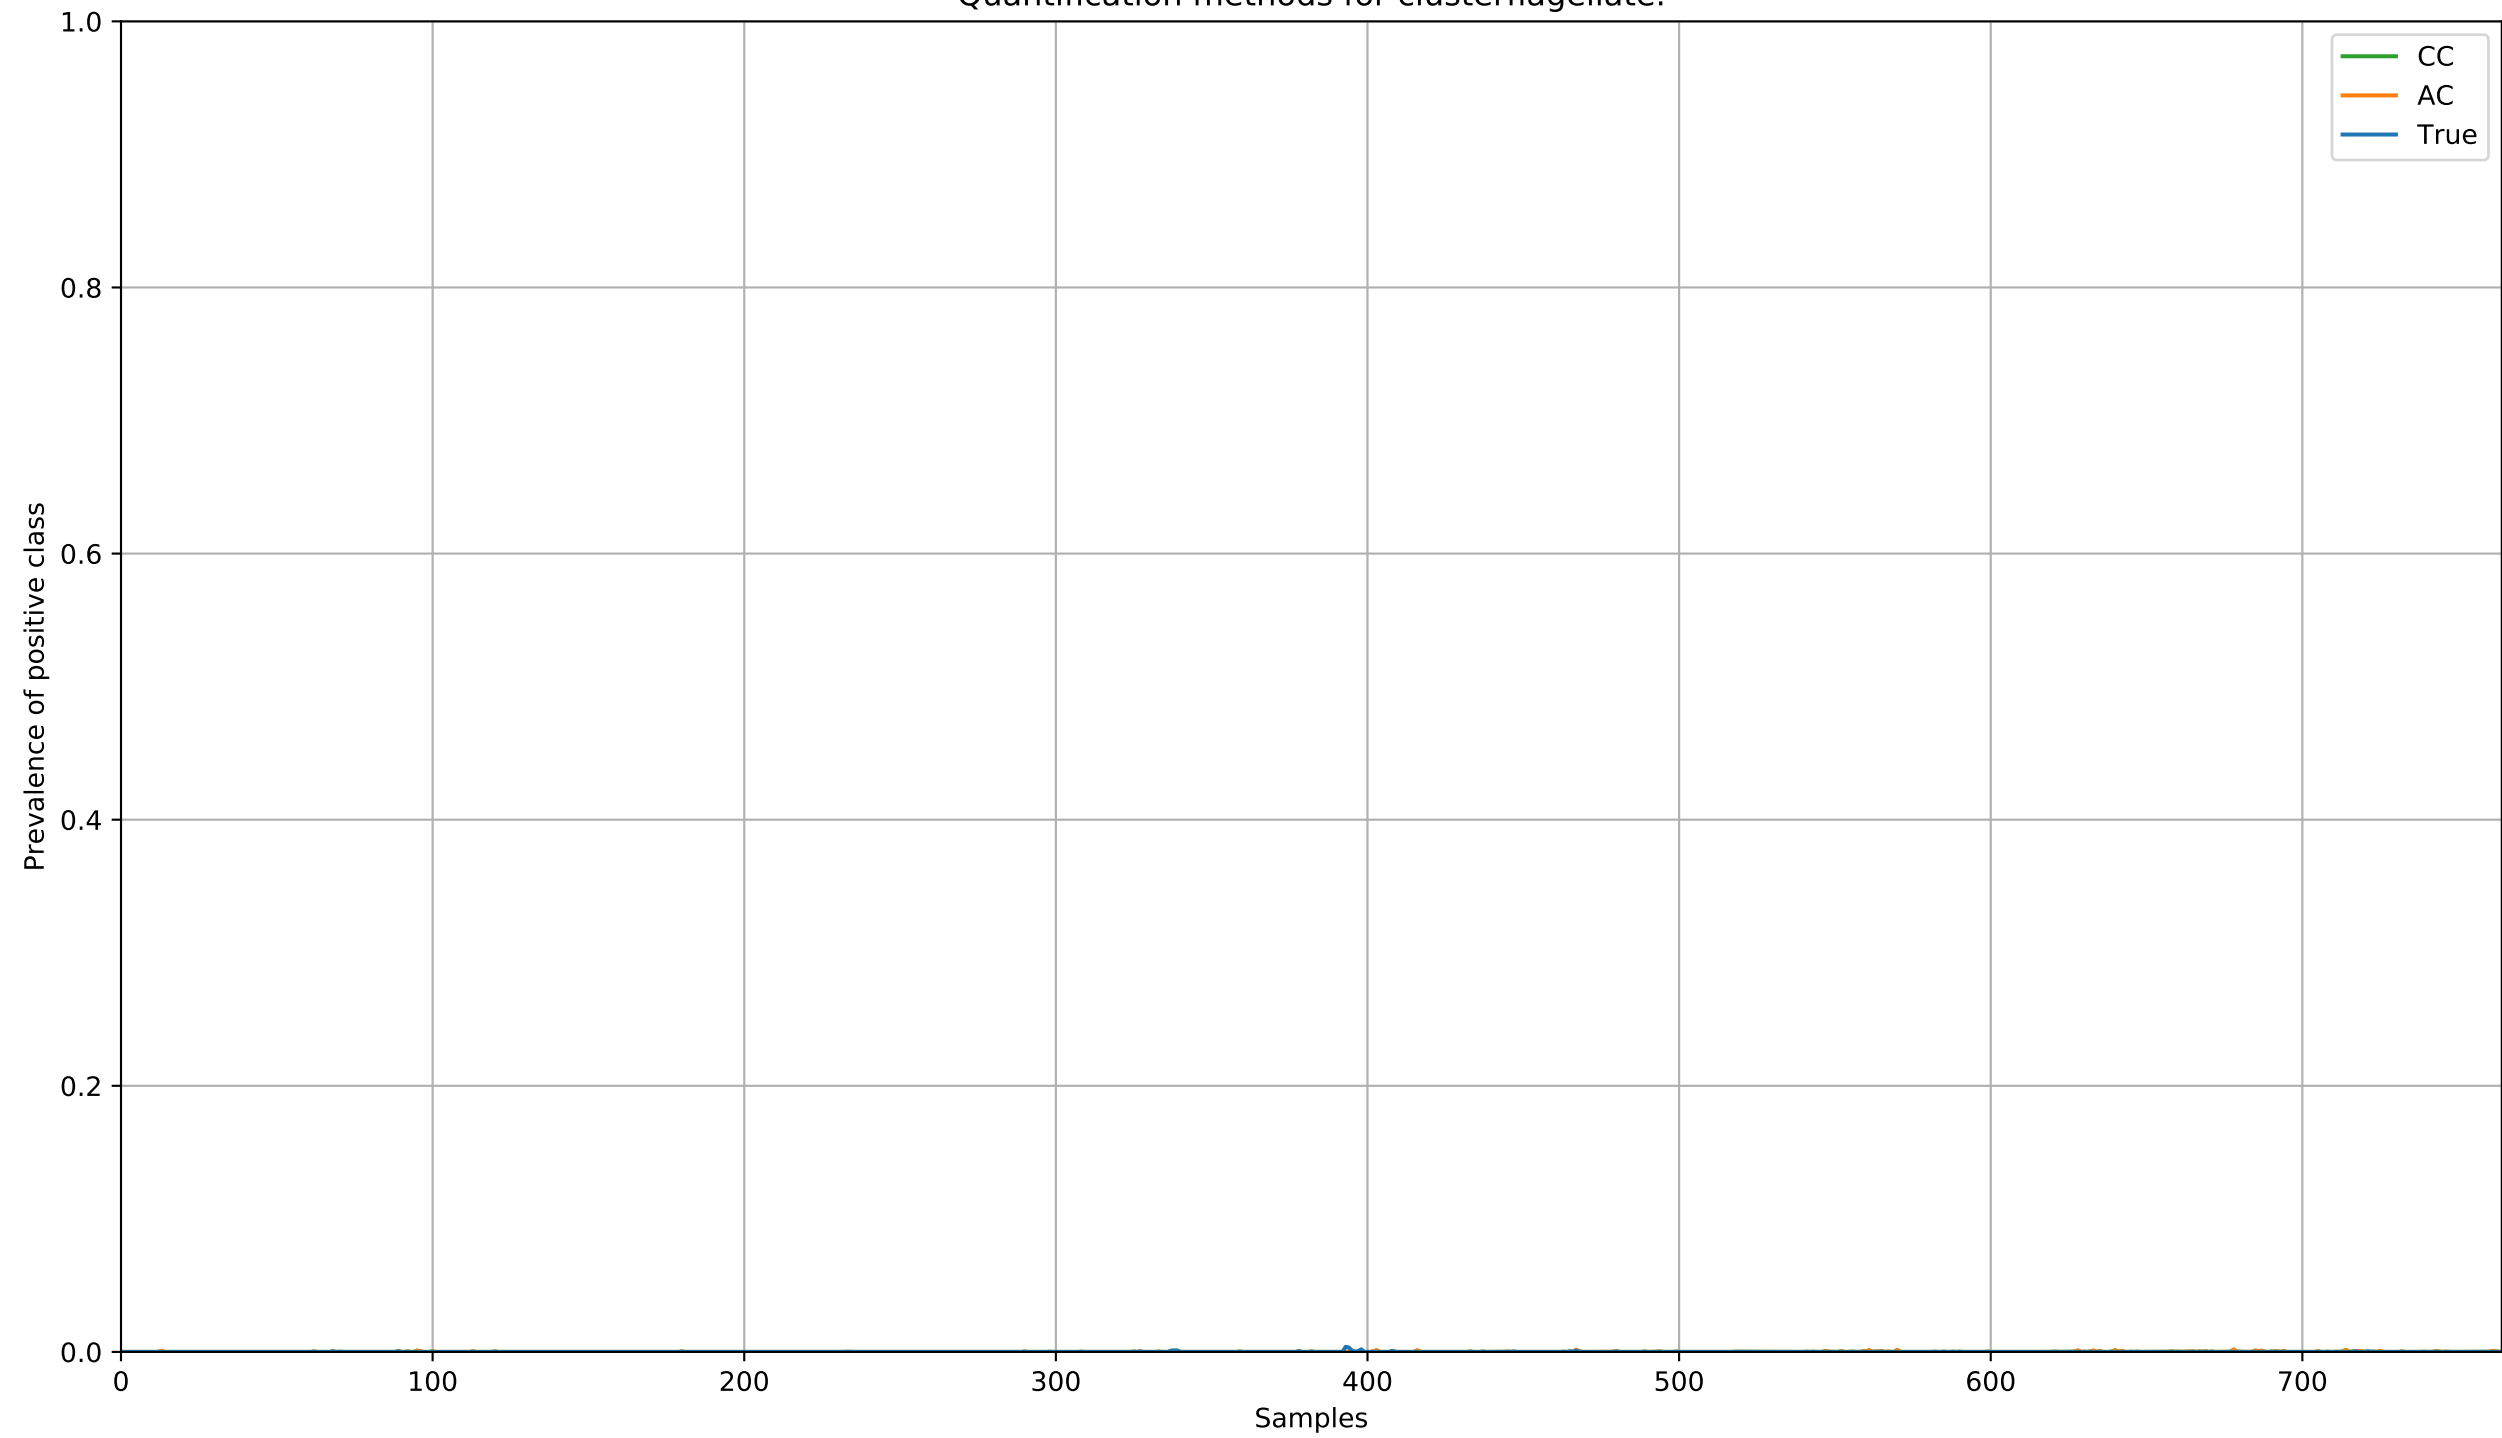

Quantification methods for Gyrodinium.

Quantification methods for DactFragCerataul.
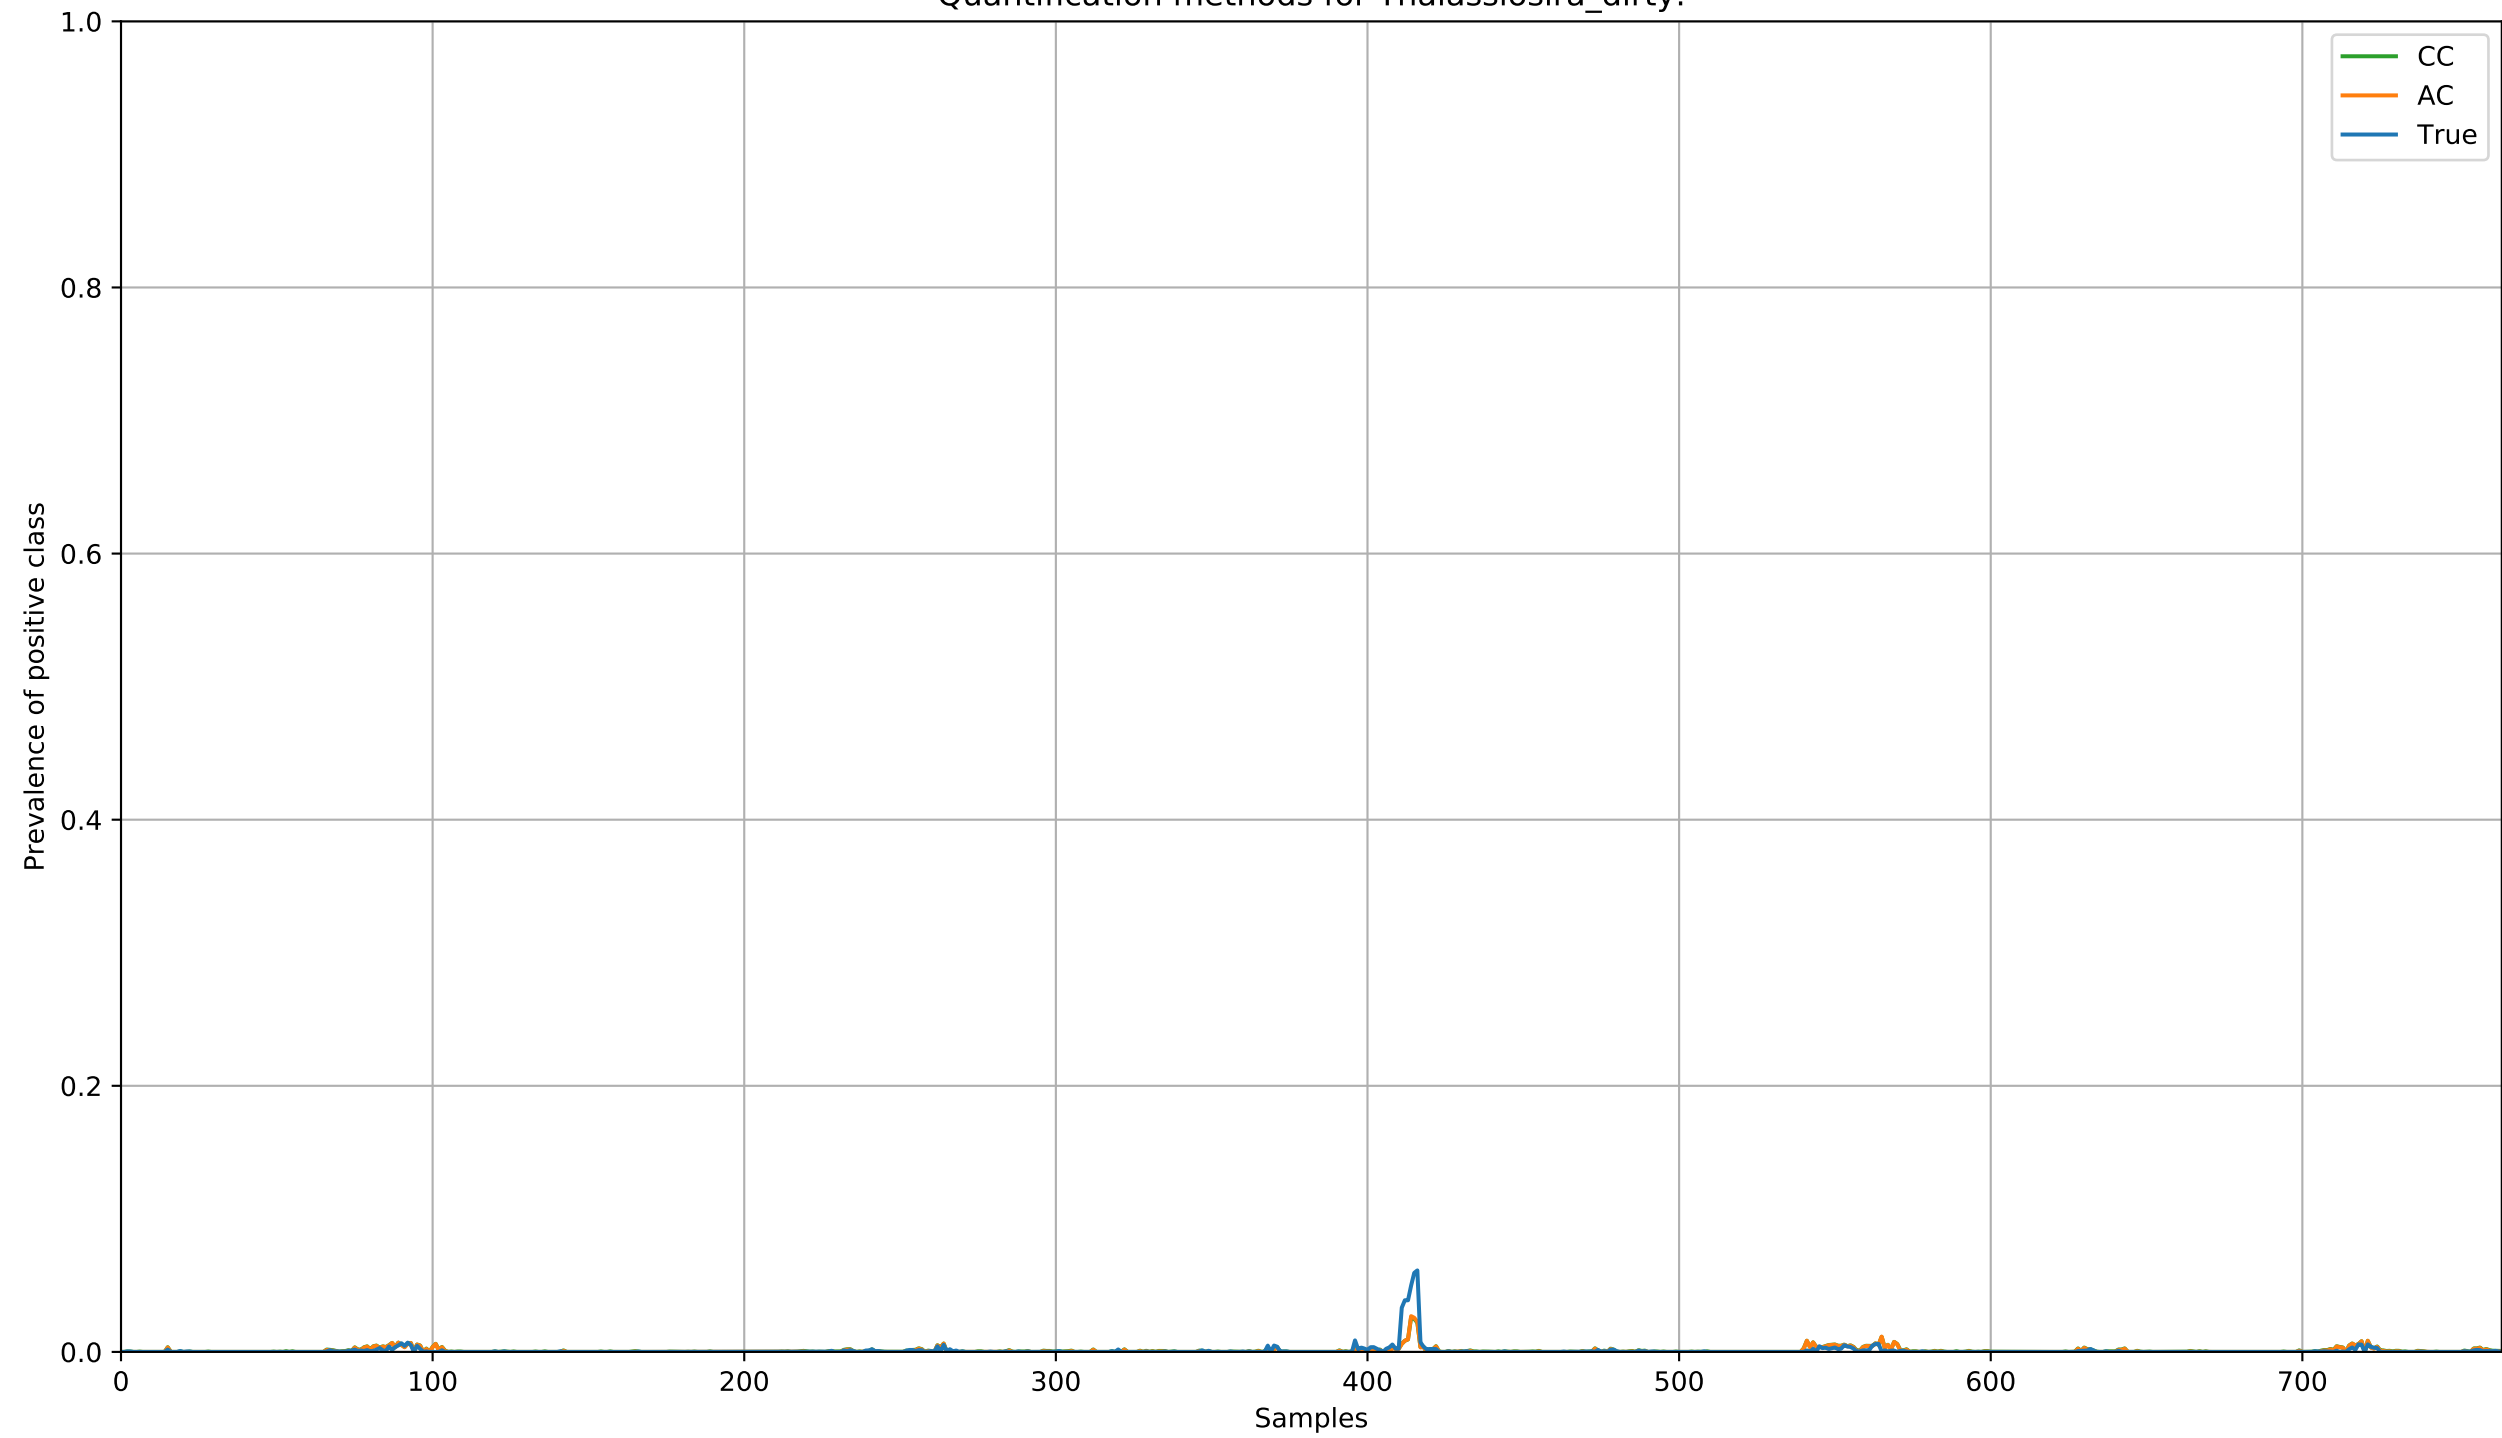

Quantification methods for Phaeocystis.
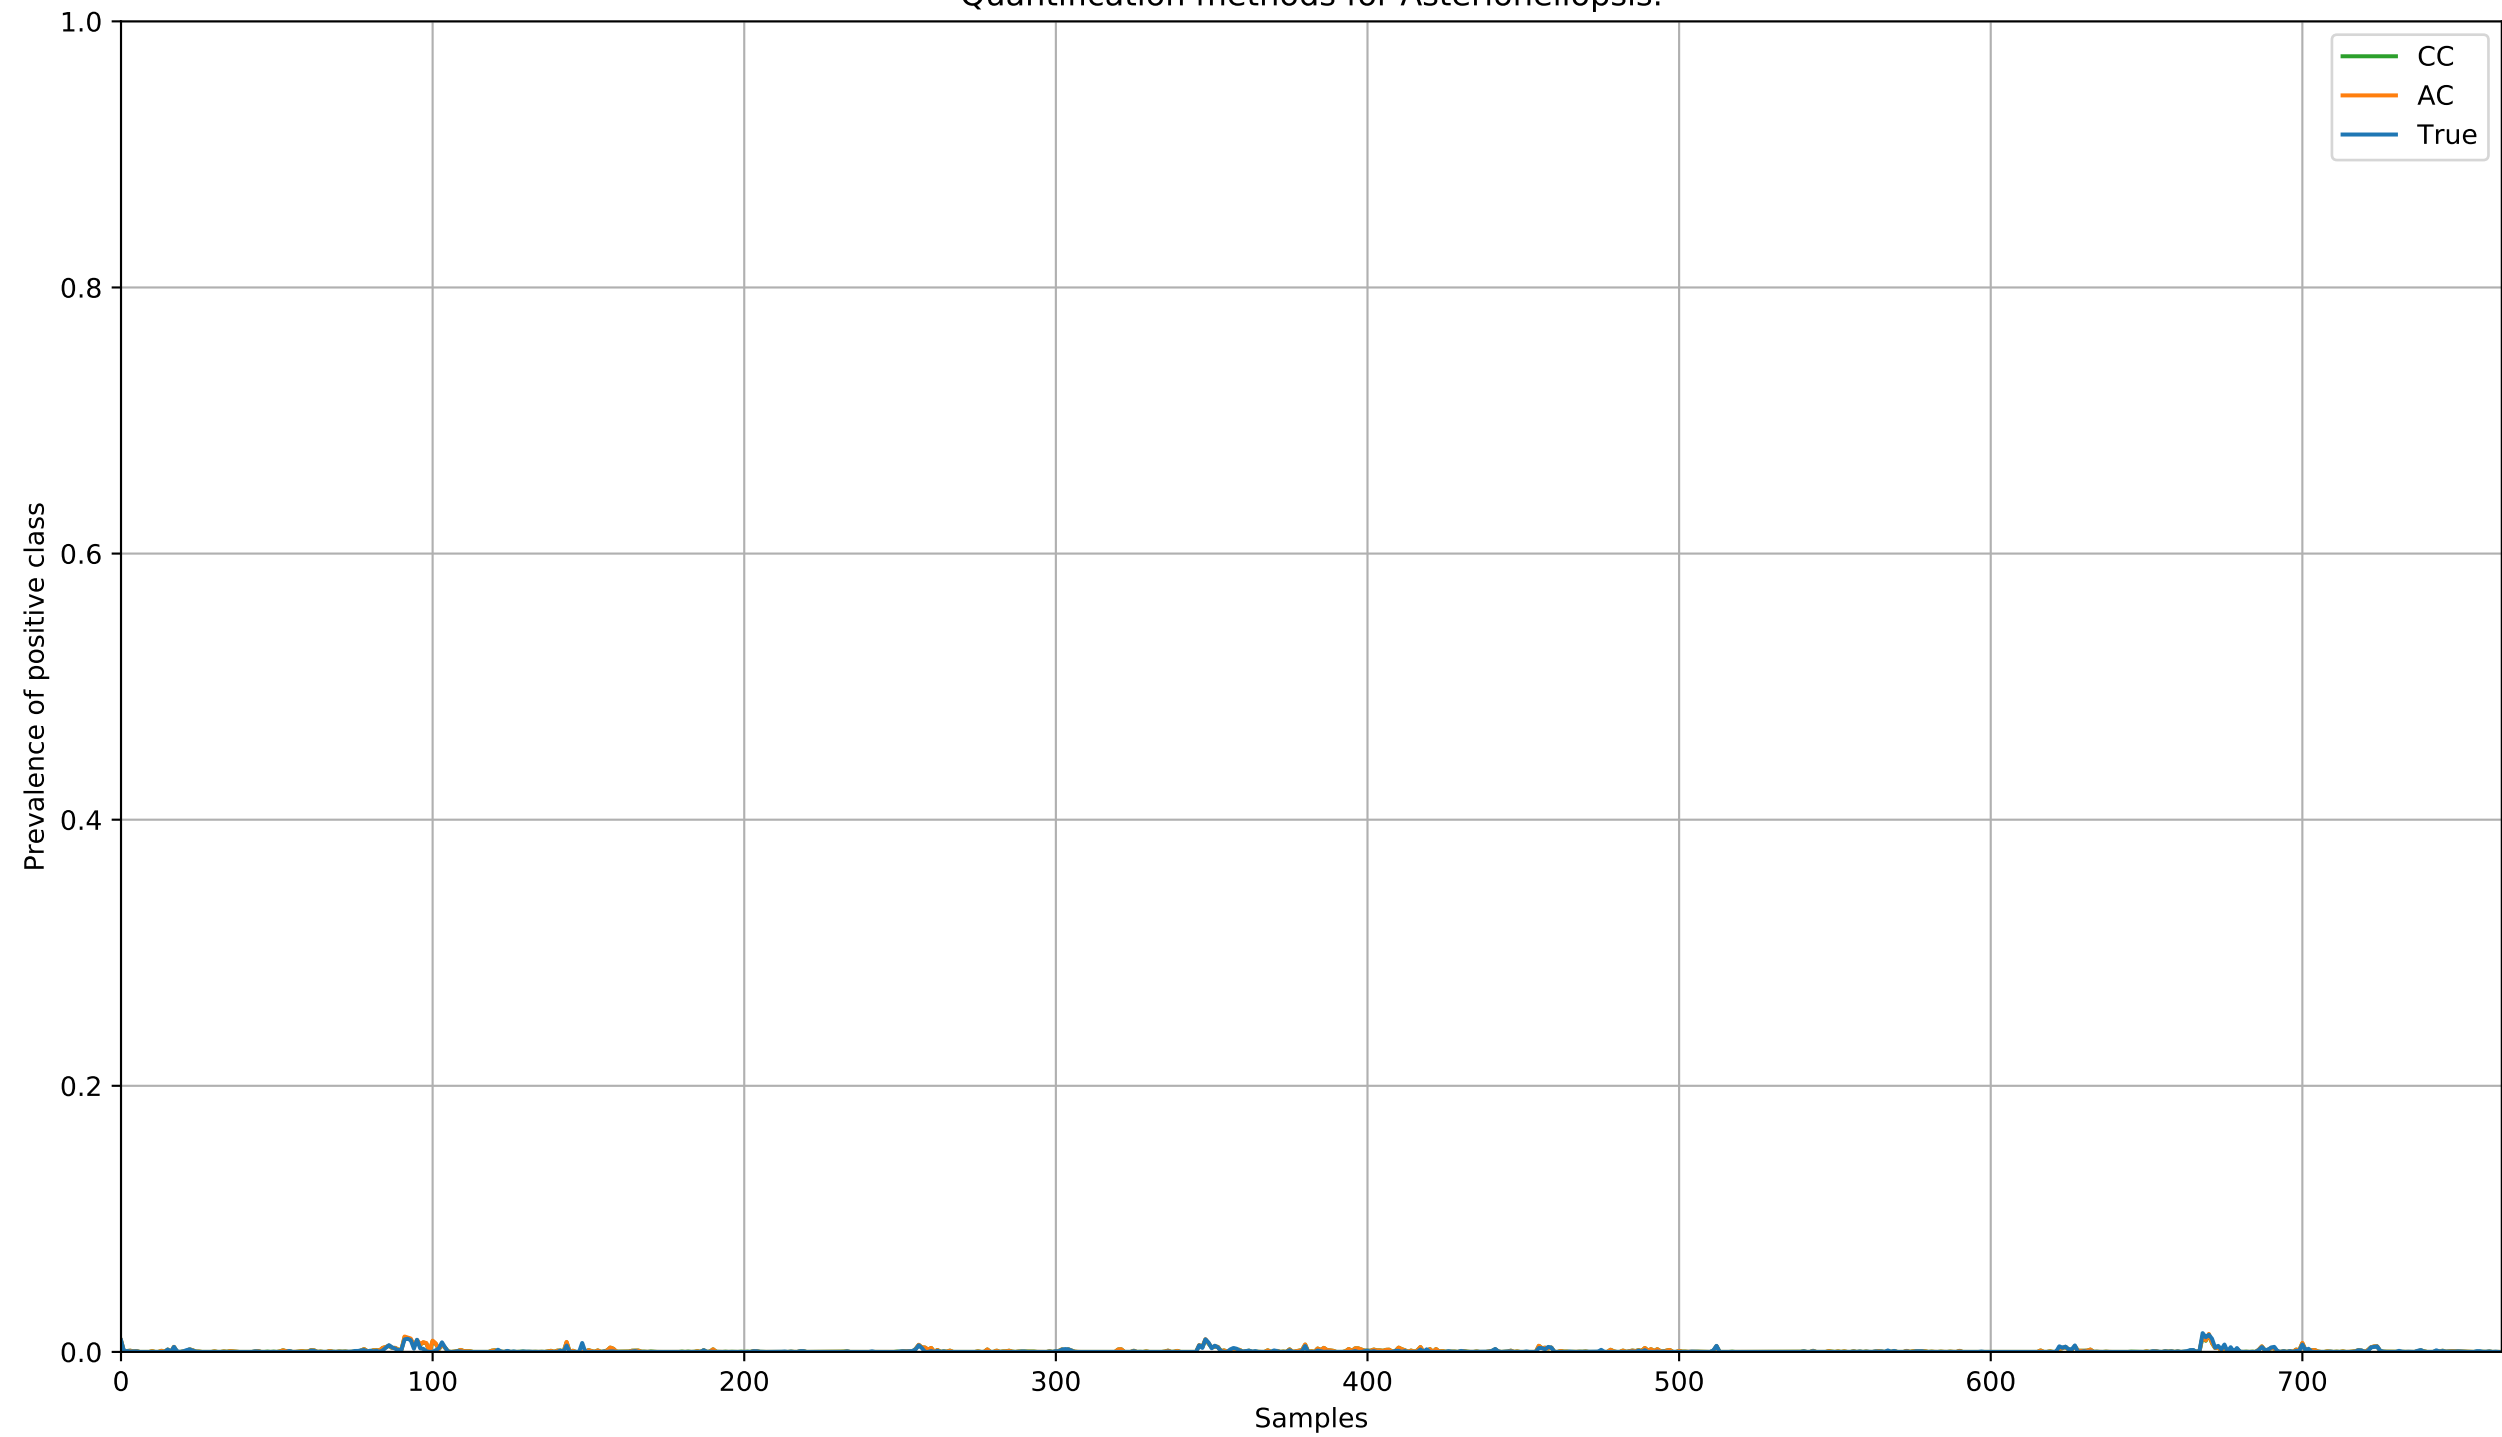

Quantification methods for clusterflagellate.
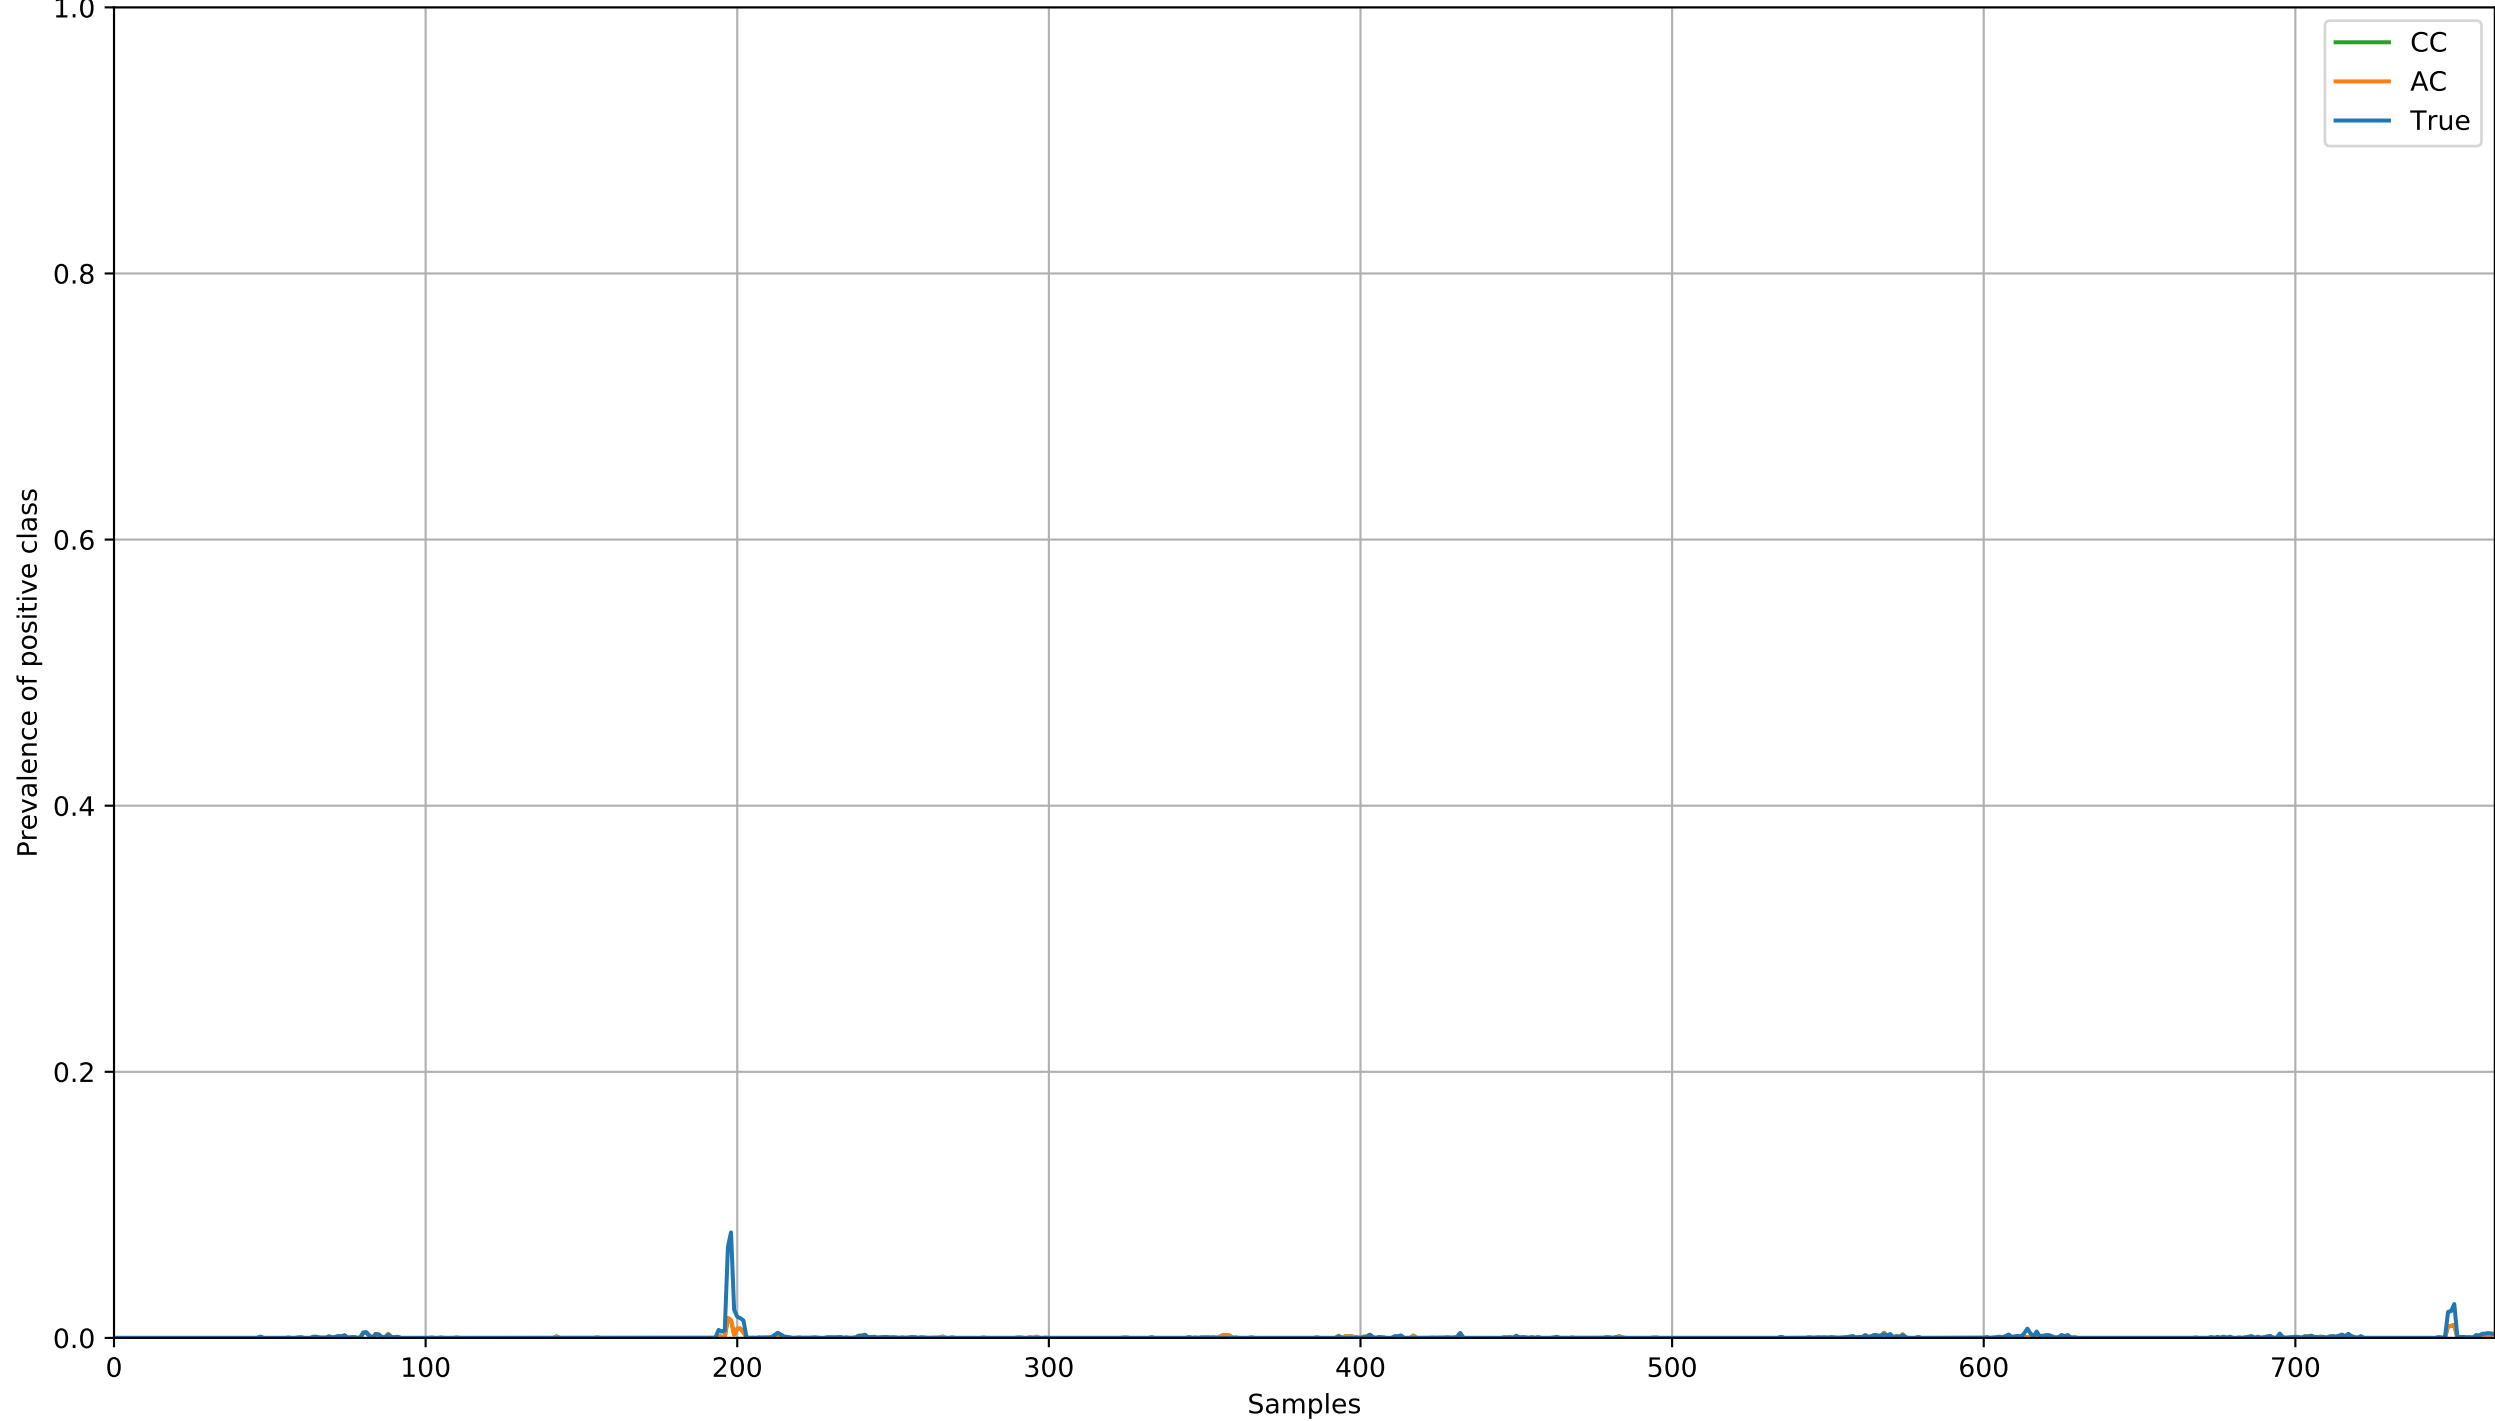

Quantification methods for Rhizosolenia.
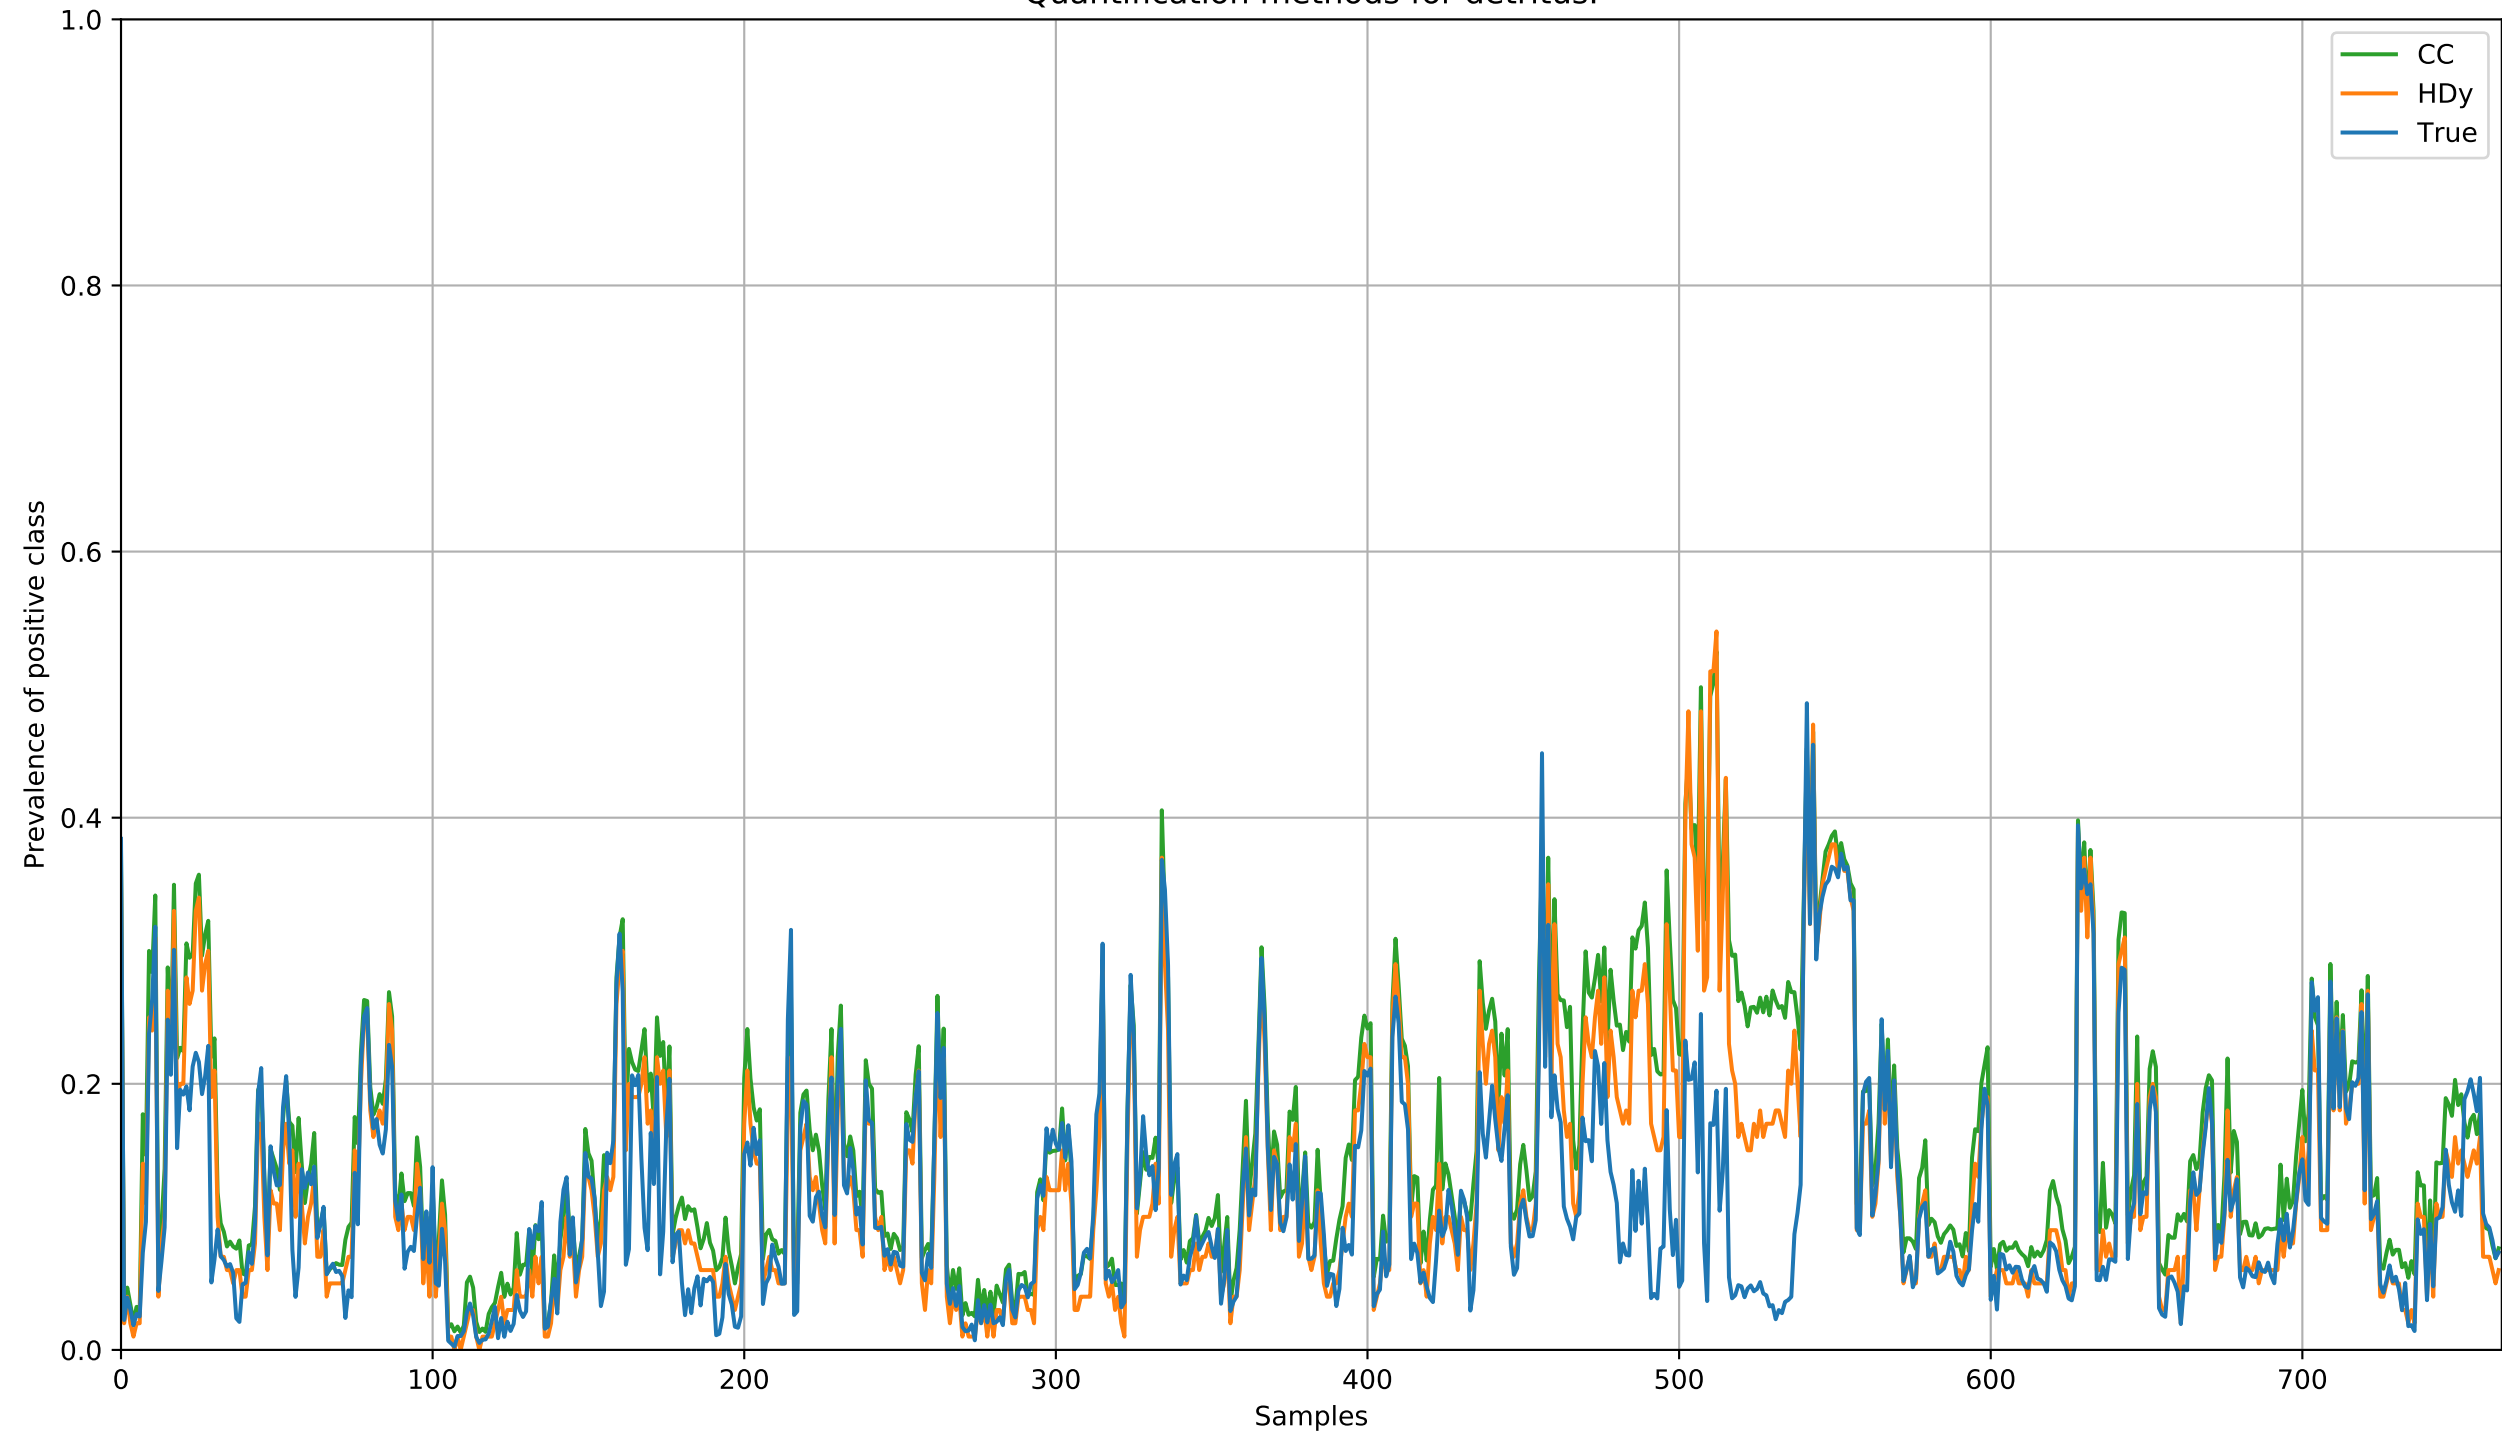

Quantification methods for Thalassiosira_dirty.
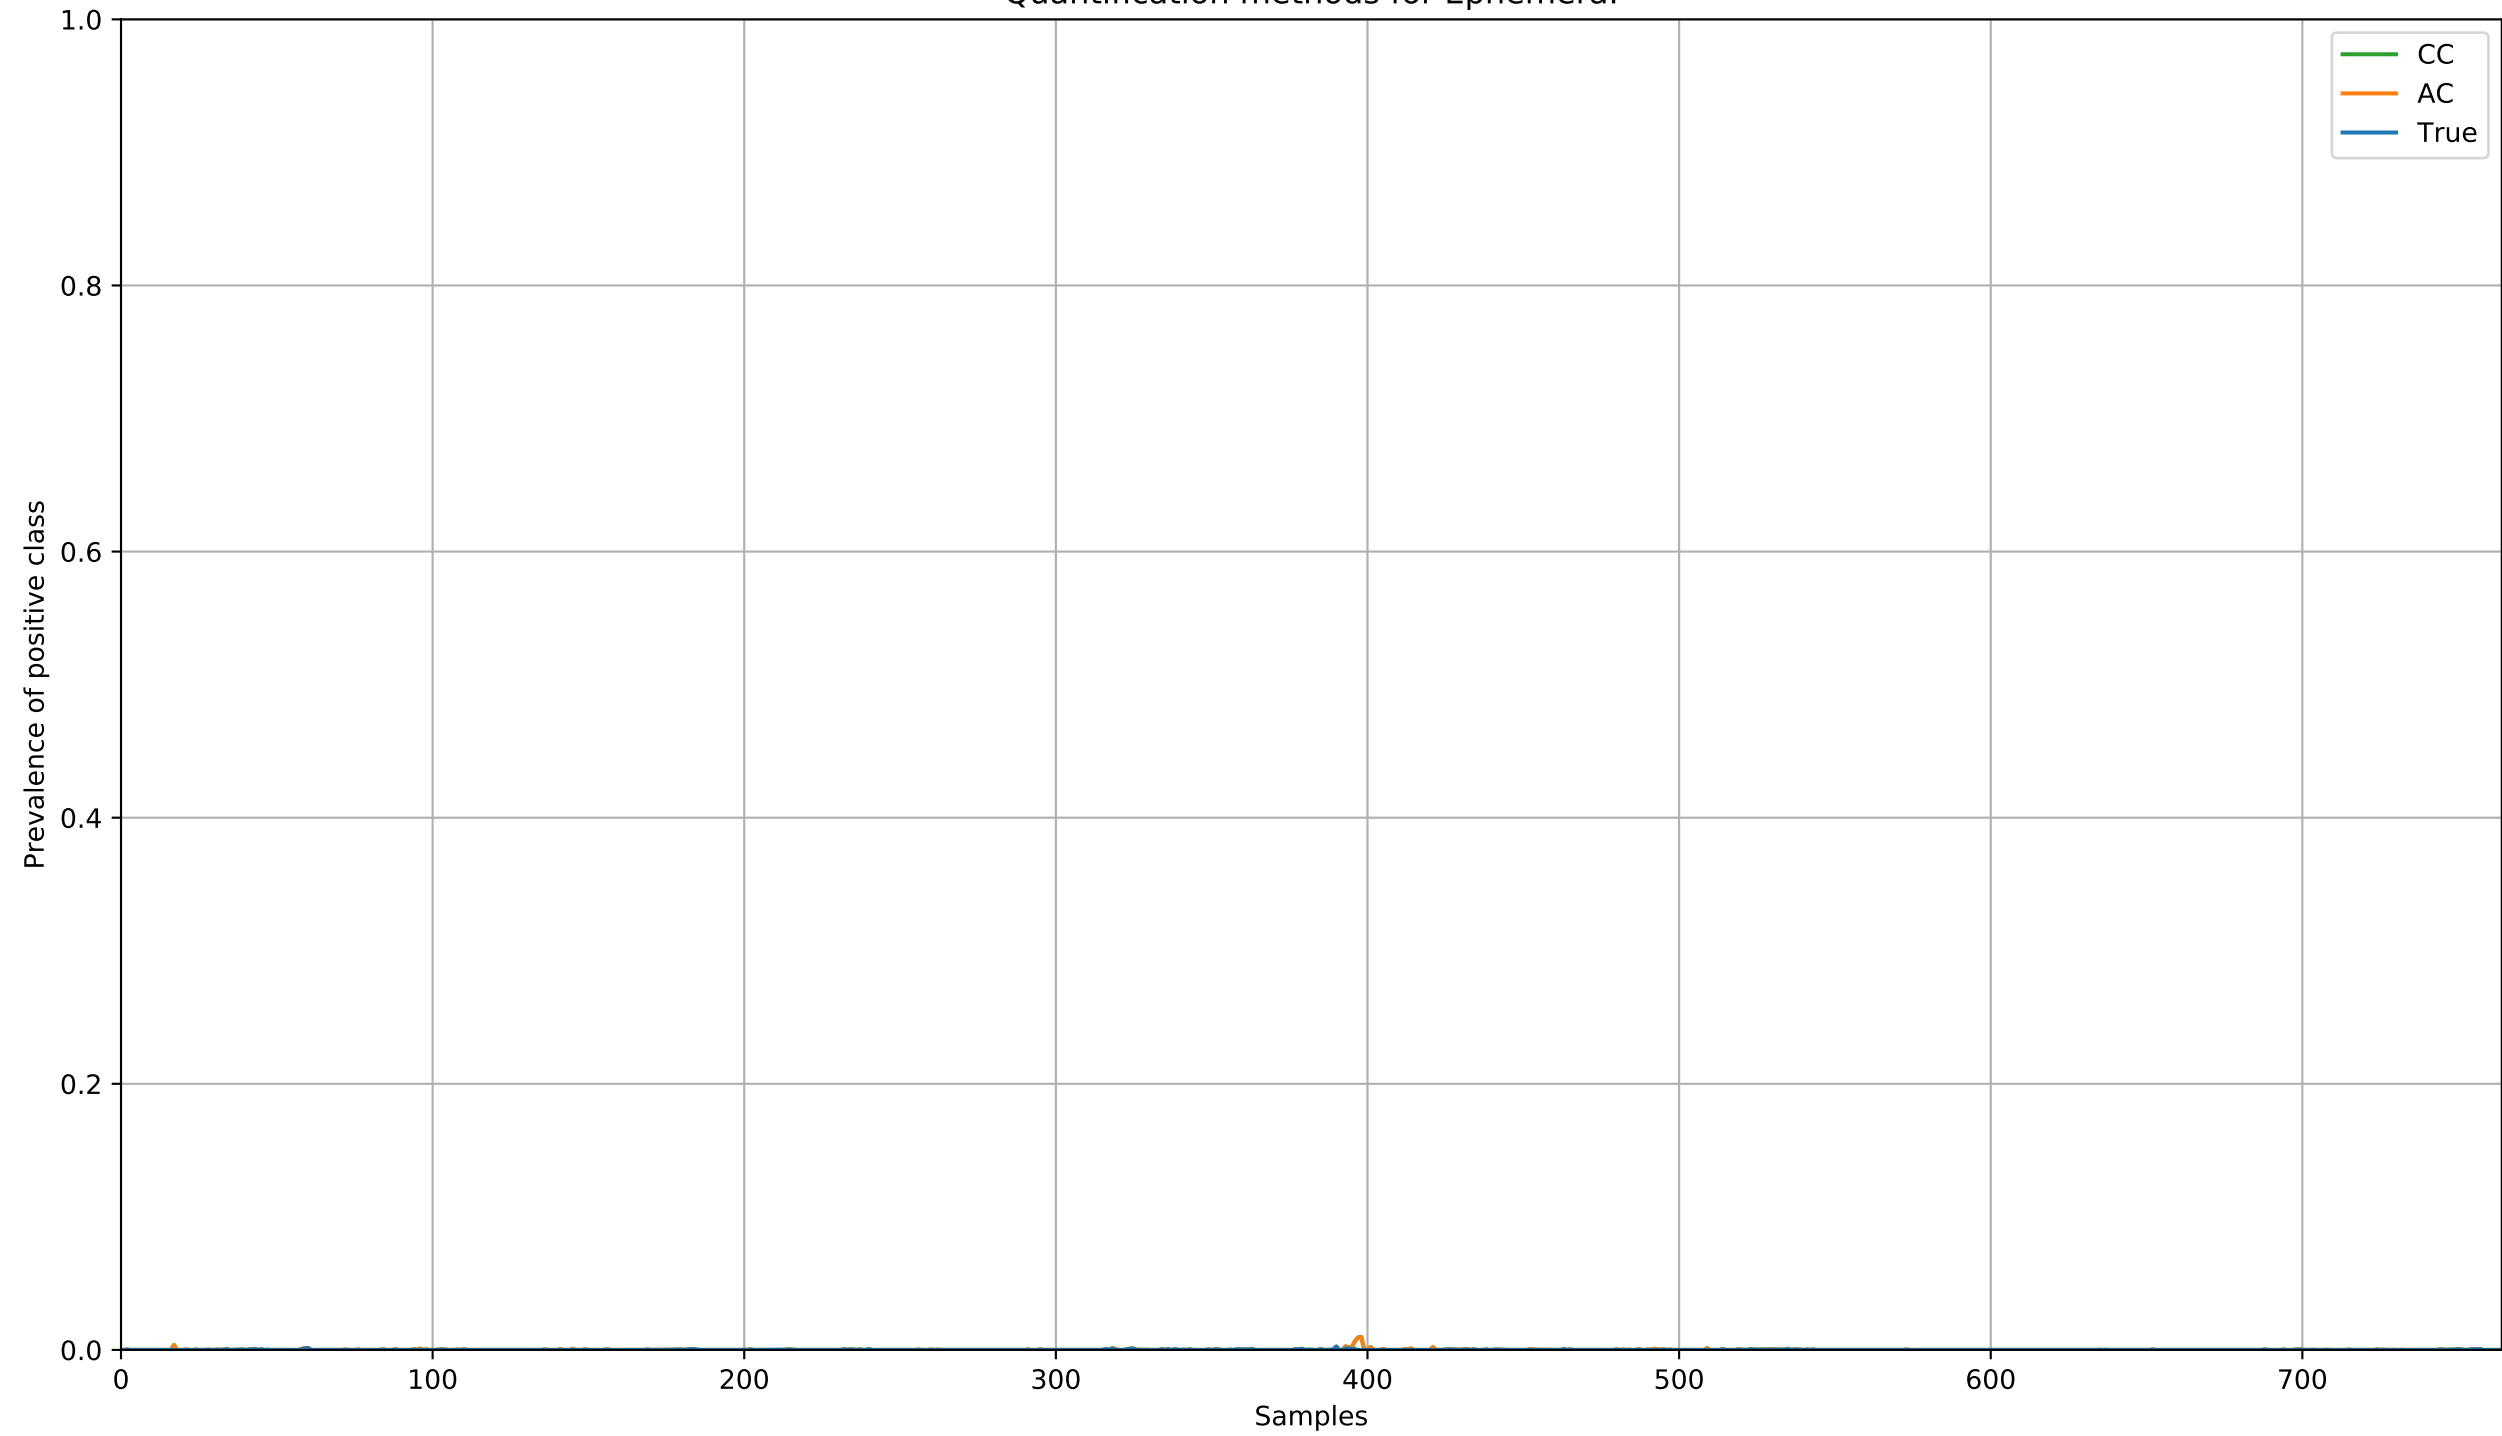

Quantification methods for Asterionellopsis.

Quantification methods for Guinardia_striata.
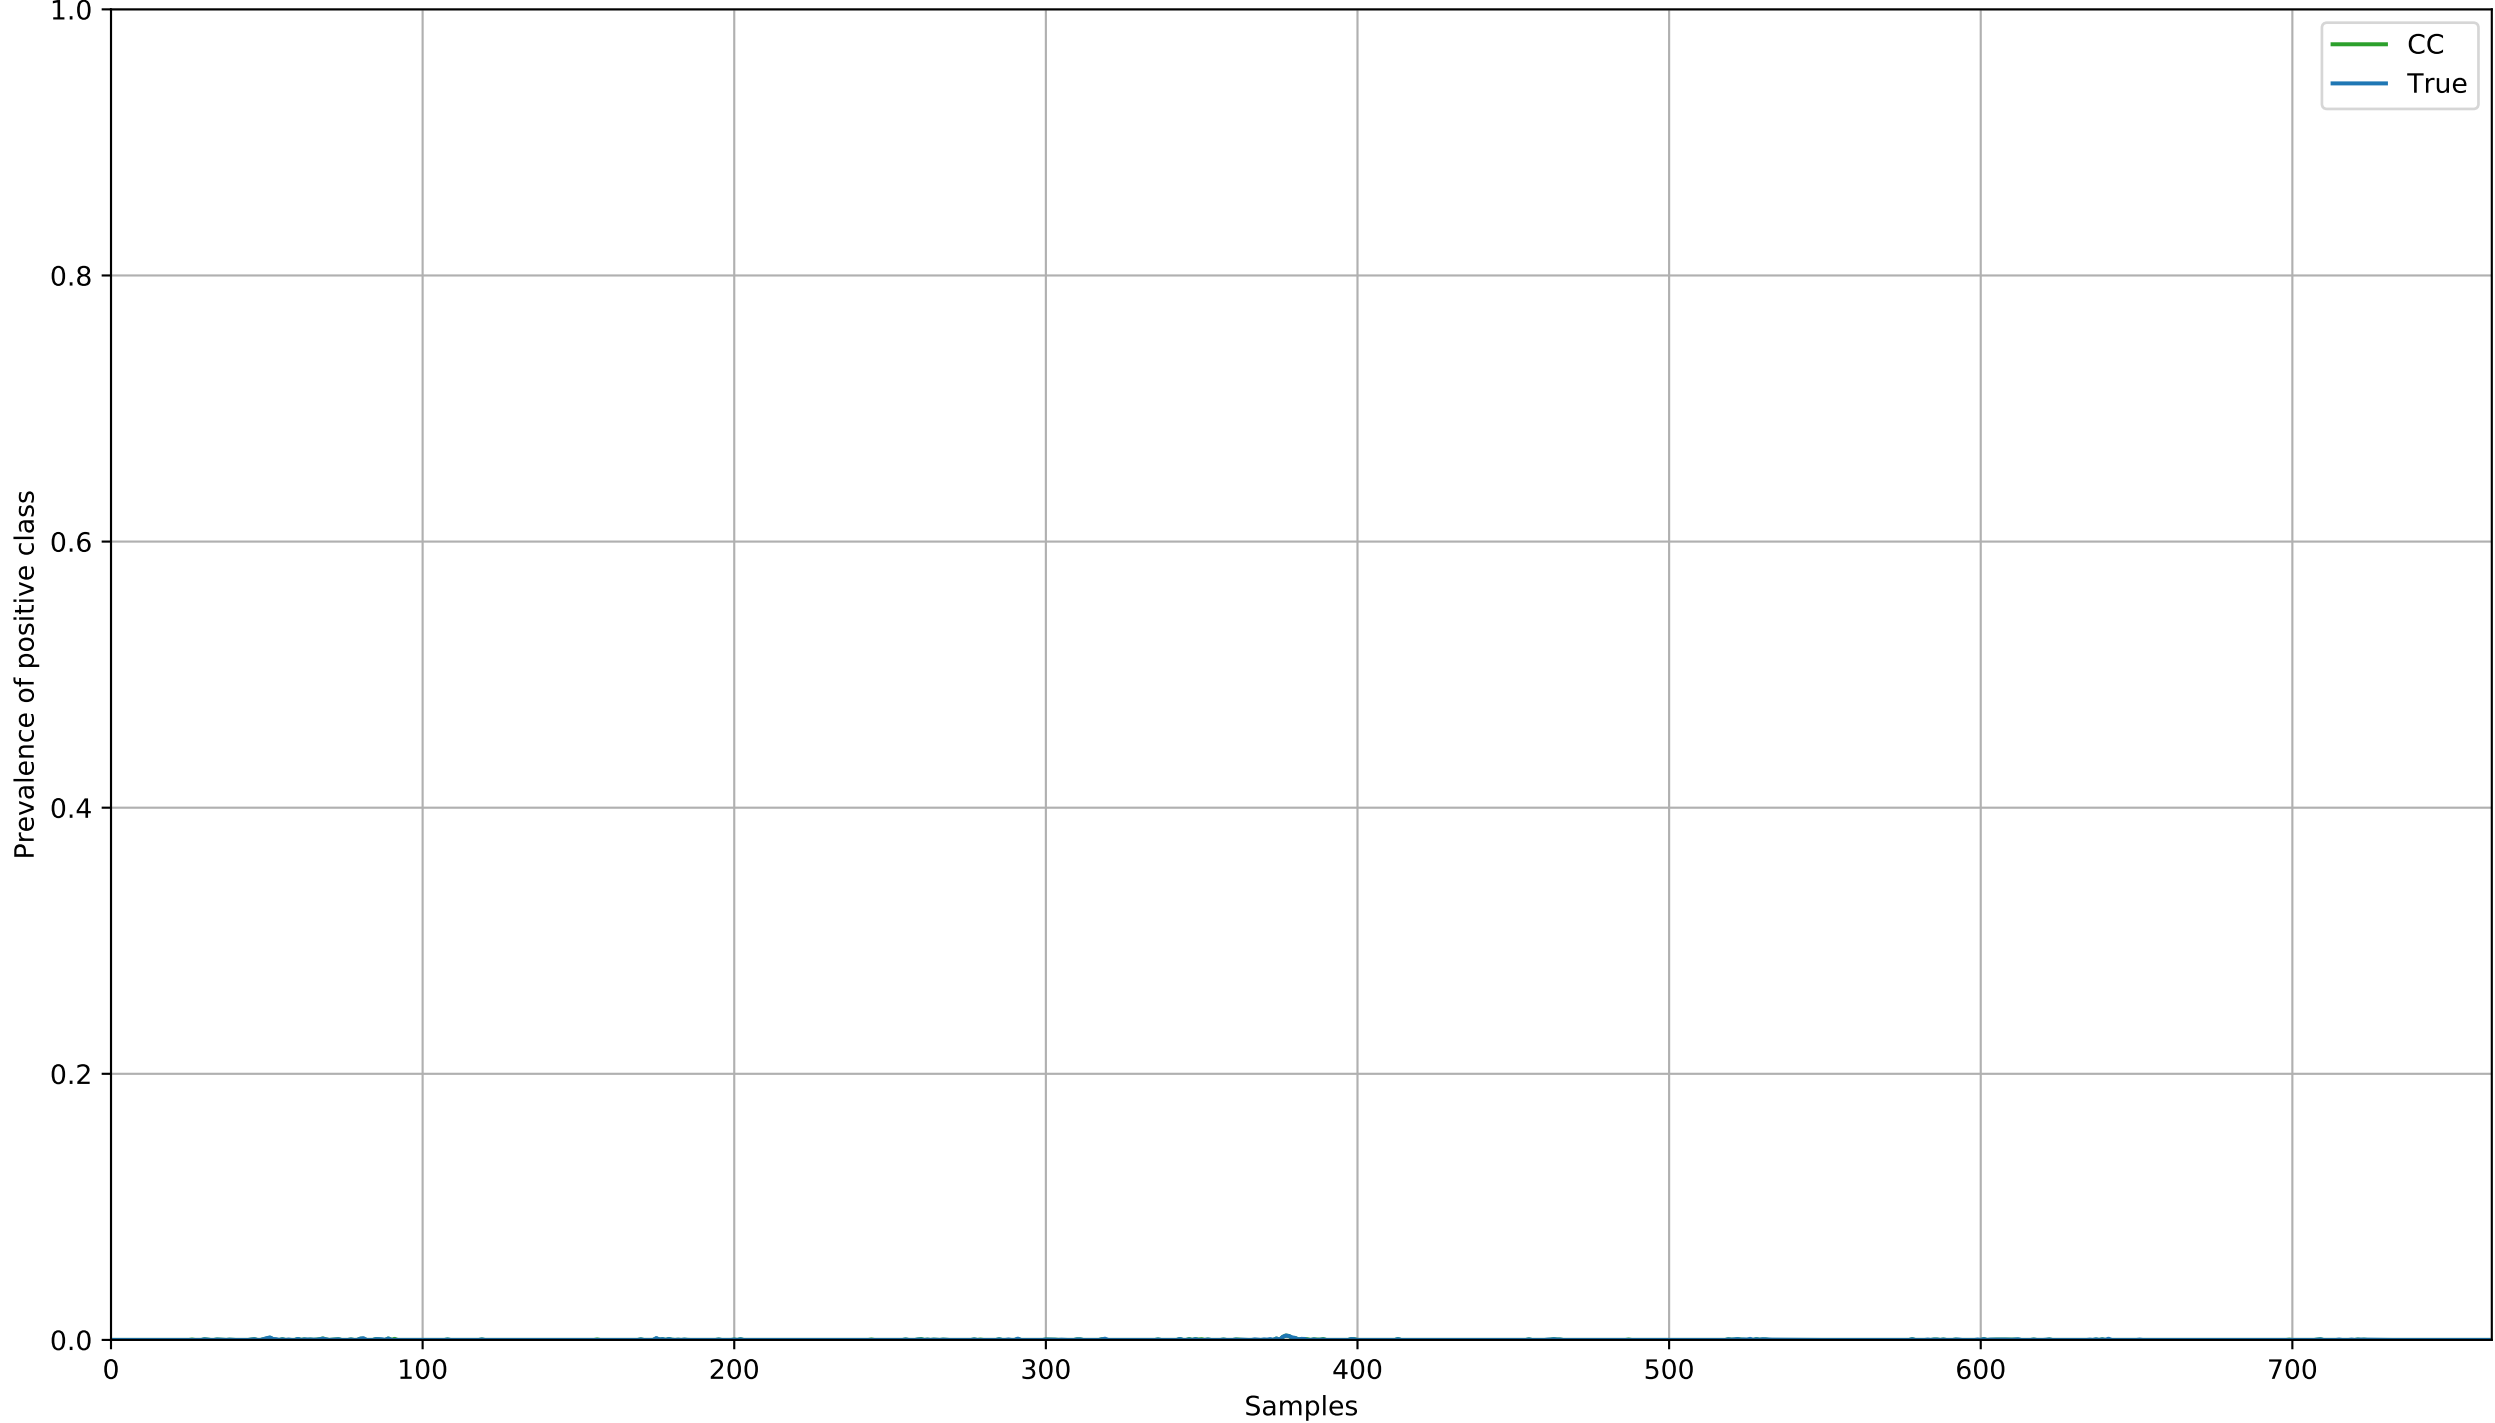

Quantification methods for detritus.
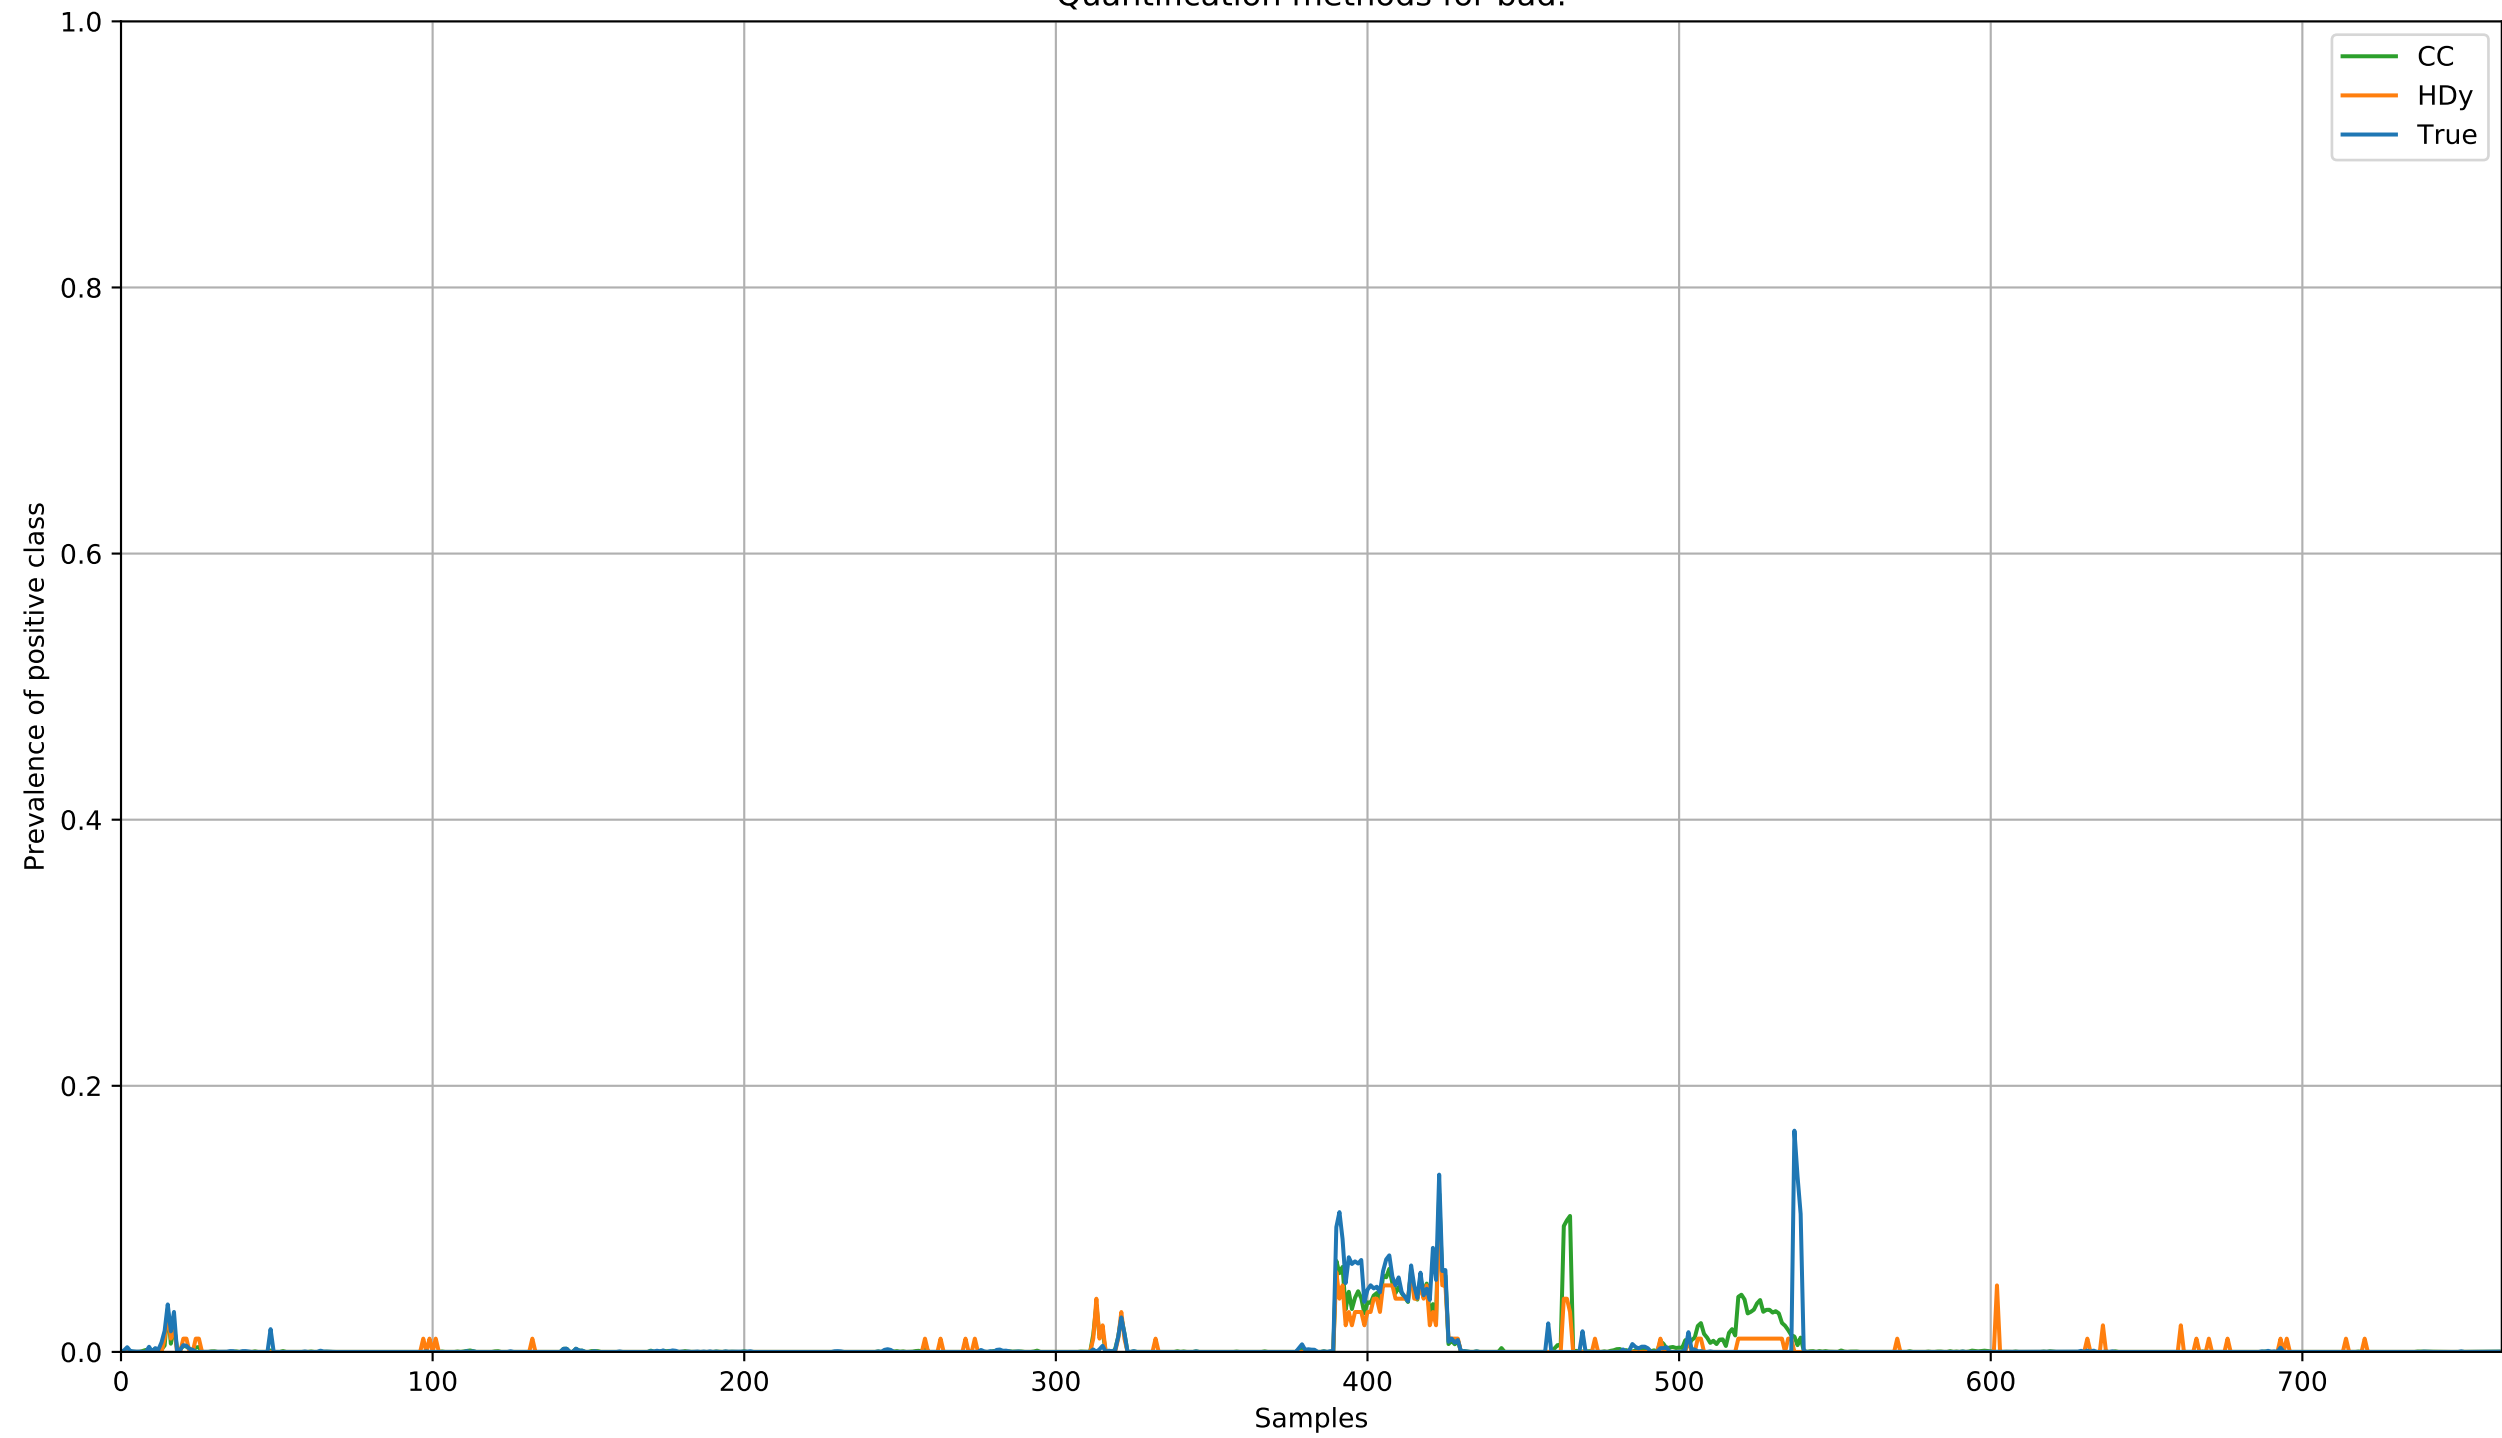

Quantification methods for Ephemera.

Quantification methods for Laboea.

Quantification methods for Ceratium.

Quantification methods for bad.

Quantification methods for kiteflagellates.

Quantification methods for Guinardia.
